**Adolescent Girlhood and Literary Culture at the Fin de Siècle** Beth Rodgers,2016-10-06 This book examines the construction of adolescent girlhood across a range of genres in the closing decades of the nineteenth century It argues that there was a preoccupation with defining characterising and naming adolescent girlhood at the fin de si cle These daughters of today juvenile spinsters and modern girls as the press variously termed them occupying a borderland between childhood and womanhood were seen to be inextricably connected to late nineteenth century modernity they were the products of changes taking place in education and employment and of the challenge to traditional conceptions of femininity presented by the Woman Question The author argues that the shifting nature of the modern adolescent girl made her a malleable cultural figure and a meeting point for many of the prevalent debates associated with fin de si cle society By juxtaposing diverse material from children s books and girls magazines to New Woman novels and psychological studies the author contextualises adolescent girlhood as a distinct but complex cultural category at the end of the nineteenth century

**George Eliot and Nineteenth-century Psychology** Michael Davis,2006 This study of Eliot as a psychological novelist examines her writings in the context of a large volume of nineteenth century scientific writing Michael Davis aligns Eliot s work with the formulations of such key thinkers as Herbert Spencer Charles Darwi *The Creators* May Sinclair,2004-11-30

May Sinclair's *The Creators* is a study of a group of writers and would be writers and their struggles and or accommodations within the literary marketplace. It deals with the trials and tribulations of literary celebrity and with lack of recognition. It also focuses on the doubts and self-divisions of the artist and on his or her battles with conventional gender roles. The novel's subtitle, a comedy, puzzled some of its first readers and reviewers. The TLS speculated that the comedy must lie in that fact that the creators believe that they are geniuses. Sinclair does not take her characters as seriously as they take themselves, but her social comedy also exposes the limitations of the conventional middle-class world which either exploits or fails to understand them. First serialized in the *Century Illustrated Monthly Magazine* between November 1909 and October 1910, *The Creators* was first published in book form by John Constable in 1910. This edition restored the numerous and extensive cuts that were made to Sinclair's manuscript during the process of the novel's serialization.

*The Novelist in the Novel* Elizabeth King, 2023-11-14. Why do writers so often write about writers? This book offers the first comprehensive account of the phenomenon of the fictional novelist as a character in literature, arguing that our notions of literary genius and what it means to be an author are implicitly shaped by and explicitly challenged in novels about novelists, a genre that has been critically underexamined. Employing both close and distant reading techniques to analyse a large corpus of author stories, *The Novelist in the Novel* explores the forms and functions of author stories and the characters within them, offering a new theory that frames these works as textual sites at which questions of literary value and the cultural conceptions around authorship are constantly being negotiated and revised in a form of covert criticism aimed directly at readers. While nineteenth-century novels about novelists reveal a pervasive frustration with the market, a starving artist vs. commercial sell-out dichotomy, modernist examples of the genre focus on the development of the individual author as artist entirely aloof from the marketplace and from the literary sphere at large. Yet each of these dynamics is gendered, with women denigrated to commercial producers and men elevated to artists, and while the canon has largely supported the male view of authorship, a closer look at the work of women writers from this period reveals concerted attempts to counteract it. Silly Lady Novelists are pitted against serious male modernists in a battle to define what it means to be a literary genius.

*Women's Emancipation Writing at the Fin de Siecle* Elena V. Shabliy, Dmitry Kurochkin, O'Donnell Karen, 2018-12-07. This work investigates women's emancipation writing in the second half of the nineteenth and the early twentieth centuries. Many novelists in various national literatures touched upon the theme of an emancipated woman in the long nineteenth century, and at the fin de siècle. Philosophers, poets, writers, and journalists were concerned with this problem and began popularizing wholeheartedly the so-called burning questions. The new femininity was represented not only in the Christian context, many other traditions and cultures opened the discussion about the women's lot. This volume analyzes women's literary voices from different parts of the world: Turkey, England, the U.S., Italy, Russia, Spain, and others. Imagination, as it is believed, has no borders and is dialogical in its nature.
