that's taking over your phone and your breakfast      *Romantic Theory* Leon Chai, 2006-07-31 Winner of the Jean Pierre Barricelli Prize given by the International Conference on Romanticism This original study explores the new idea of theory that emerged in the wake of the French Revolution Leon Chai sees in the Romantic age a significant movement across several broad fields of intellectual endeavor from theoretical concepts to an attempt to understand how they arise He contends that this movement led to a spatial treatment of concepts the primacy of development over concepts and the creation of metatheory or the formal analysis of theory Chai begins with P B Shelley on the need for conceptual framework or theory He then considers how Friedrich Wolf and Friedrich Schlegel shift from a preoccupation with antiquity to a heightened self awareness of Romantic nostalgia for that lost past He finds a similar reflexivity in Napoleon's battle plan at Jena and subsequently in Hegel's move from substance to subject Chai then turns to the sciences Xavier Bichat's rejection of the idea of a unitary vital principle for life as process the chemical theory of matter developed by Humphry Davy and the work of variste Galois whose proof of the solvability of equations using radicals ushered in the age of metatheory Chai concludes with reactions to theory Coleridge's proposal of the conflict between reason and understanding as a model of theory Mary Shelley's effort to replace theory with a different kind of relationship to external others and Hlderlin's reflection on the limits of representation and the possibility of fulfillment beyond it      *Colette and the Incest Taboo* Dr. Carol Mastrangelo Bove, 2025-01-14 This book makes an argument critical to literary theory and sexuality in 2022 It argues that Colette's fiction portrays a woman struggling to live in the throes of the incest taboo understood in its psychological implications for power relations both private and public then and now Informed by Julia Kristeva's work it approaches Colette's writing and its translation along with two films via close psychoanalytic readings It demonstrates that this version of Kristeva's psychoanalytic theory in an accessible form and with emphasis on the psychology of women and social transformation helps to read Colette for the twenty first century as well as to show how Kristeva's theory works This volume examines especially Colette's most admired novels especially from the second half of her life including the much misunderstood *La Maison de Claudine* 1922 where the incest taboo surfaces in the relationship of the narrator with the mother The taboo had appeared two years earlier in *Ch ri* 1920 in the rapport between the maternal *L a* a woman of a certain age and the young man *Ch ri* finally in *Gigi* the incest taboo characterises the relations between the young teenager of the eponymous title and her much older uncle figure Gaston      *Can You Wave Bye Bye, Baby?* Elyse Gasco, 2011-01-14 Daring tough and darkly humorous these linked stories have at their centre the relationship between parents and children As devastating in their emotional honesty as they are poignant and wise these stories map the intricate terrain of adoption and birth and look at the lives we make for ourselves in the universal search for who we are Among them a girl is abducted by a man claiming to be her father a distraught mother finds herself fabricating a past for her adopted teenaged daughter a woman is haunted by her birth mother's ghostly visitations a new mother is overtaken by a feeling of alienation as gradually

her world becomes as empty as she feels her heart to be Uniquely imagined vividly describing the world we inhabit Can You Wave Bye Bye Baby introduces a bold new literary voice

**Violence and the Female Imagination** Paula Ruth Gilbert,2006-03-31 In the past twenty years Quebec women writers including Aline Chamberland Claire D Suzanne Jacob and H l ne Rioux have created female characters who are fascinated with bold sexual actions and language cruelty and violence at times culminating in infanticide and serial killing Paula Ruth Gilbert argues that these Quebec feminist writers are re framing gender Violence and the Female Imagination explores whether these imagined women are striking out at an external other or harming themselves through acts of self destruction and depression Gilbert examines the degree to which women are imitating men in the outward direction of their anger and hostility and suggests that such tough women may be mocking men in their macho exploits of sexuality and violence She illustrates the ways in which Quebec female authors are feminizing violence or re envisioning gender in North American culture Gilbert bridges methodological gaps and integrates history sociology literary theory feminist theory and other disciplinary approaches to provide a framework for the discussion of important ethical and aesthetic questions

**The Normalisation of Exceptional Counterterrorism Powers** Marine Guéguin,2025-06-30 This book investigates the framing of the terrorist threat in France from 2015 to 2020 as an exceptional challenge which requires a special public security response The book examines how French political actors framed the terrorist threat in French political discourse from an exceptional challenge to a permanent routine threat It provides an in depth critical discourse analysis of the French political narratives surrounding the activation of the tat d urgence state of emergency following the 2015 Charlie Hebdo and Paris terrorist

attacks and traces this narrative until 2020 The study explores the securitisation desecuritisation framework showing how the normalisation of emergency powers reflects the ongoing re construction of terrorism within French political contexts The work demonstrates the importance of threat framing and the securitisation of terrorism by considering the colonial legacies embedded in French counterterrorism CT policies By investigating the intersection of CT political discourse temporality and colonial continuity the book challenges traditional notions of exceptionalism in securitisation It argues that the routinisation of counterterrorism measures highlights the impossibility of fully desecuritising terrorism re establishing the status quo revealing how these measures are deeply rooted in France s colonial past This book will be of interest to students of

Charles Krance,1970 **Sex and Enlightenment** Rita Goldberg,1984-06-21 Dr Goldberg argues that Samuel Richardson had expressed a powerful and hitherto unperceived sexual mythology in *Clarissa* making it the popular masterpiece it quickly became There had never before been a work of literature in which the rape of a woman became the moral indictment of an age *Clarissa* was a book which changed minds It is not surprising that Diderot the French philosophe drew on Richardson as the inspiration for his own novel *La Religieuse* Richardson s novels had achieved Diderot s declared aim as editor of the great *Encyclopédie* to change the way people think For both writers it had become clear that the boudoir had replaced the Puritan closet and the Catholic confessional as the location for tests of virtue Dr Goldberg offers an original comparative reading of the works of these French and English innovators She leaves us in little doubt that our understanding of what it means to be a woman in our culture owes much to the turbulent world of Richardson and Diderot *The Tower and the Well* Amy

Vanderlyn DeGraff,1984 Within a relatively brief period of time 1690 1705 Madame D Aulnoy created a rich and diversified collection of fairy tales which rank second in importance only to those of Charles Perrault Through close readings of the various tales Professor DeGraff demonstrates how the interplay of structural forms and themes can best be understood within the framework of psychological interpretation This study is above all a sensitive and innovative approach to an author whose writings have not yet received the critical acclaim they so justly deserve This work is accessible to specialists and non specialists alike and will appeal to proponents of women s studies Amazon.com **The High and Puissant Princess**

**Continental Crosscurrents** J. B. Bullen,2005-08-25 *Continental Crosscurrents* is a series of case studies reflecting British attitudes to continental art during the nineteenth and the early twentieth centuries It stresses the way in which the British went to the continent in their search for origins or their pursuit of sources of purity and originality This cult of the primitive took many forms it involved a reassessment of medieval German and Italian art and offered new ways of interpreting Venetian painting it opened up new readings of architectural history and the discovery of the Romanesque it

generated a debate about the value of returning to religious subjects in art and it raised the question of the relationship between modern art and Byzantine art in the early twentieth century J B Bullen s original study presents some exciting findings Few critics have noticed how much in advance of his time was Coleridge s passion for medieval art Ruskin s debt in the Stones of Venice to Victor Hugo s Notre Dame de Paris has hardly been noted and Browning s involvement with the debate on the morality of Christian art is explored more extensively than previously Three chapters are devoted to the role of British criticism in identifying the Romanesque style in architecture and differentiating it from the Gothic They trace the concept as it arose in criticism at the beginning of the nineteenth century its employment in the remarkable buildings of Edmund Sharpe and Sara Losh and the way in which it reached a climax in Waterhouse s enigmatic choice of Romanesque for the Natural History Museum in London The collection concludes with two continental episodes from the history of modernism One is the explosive British reaction to the primitivism of Gauguin the other involves the identifying of one of the characters in D H Lawrence s novel Women in Love Curious evidence suggests that the malevolent figure of Loerke was based on a German sculptor whom Lawrence met in Italy before the First World War     A Treatise on fractures in the vicinity of joints Robert William Smith,1854
