Embodied Lives: Rosemary A. Joyce, Lynn M. Meskell, 2014-02-25 Examining a wide range of archaeological data and using it to explore issues such as the sexual body mind body dualism body modification and magical practices Lynn Meskell and Rosemary Joyce offer a new approach to the Ancient Egyptian and Mayan understanding of embodiment Drawing on insights from feminist theory art history phenomenology anthropology and psychoanalysis the book takes bodily materiality as a crucial starting point to the understanding and formation of self in any society and sheds new light on Ancient Egyptian and Maya cultures The book shows how a comparative project can open up new lines of inquiry by raising questions about accepted assumptions as the authors draw attention to the long term histories and specificities of embodiment and make the case for the importance of ancient materials for contemporary theorization of the body For students new to the subject and scholars already familiar with it this will offer fresh and exciting insights into these ancient cultures embodied Lives

Sandra Reeve, 2014-06-30 Since the mid 80s Prapto's moving dancing has delighted and inspired thousands of people in the West as well as many more in his native Java who have witnessed worked with or been otherwise influenced by his Amerta Movement practice But what is this non stylised Amerta Movement practice And what is it about Prapto's work that so touches the lives of therapists artists musicians dancers teachers performers monastics and laypeople from all walks of life To answer these questions this new book collects the experiences of 30 movement practitioners from Indonesia Europe North and South America and Australasia All of them have trained and studied extensively with him and most are recognised by Prapto as movement teachers Some themes and areas covered Moving with babies Amerta Movement and Buddhism Using movement to work with autistic children Movement as a way to loosen the habit of critique and criticism Movement and film and the law and archaeology and music Movement mantra Somatic costumes and movement performance Different chapters look at contemplative vocational daily life therapeutic dance and performative applications of Amerta Movement Readership As well as all those familiar with Prapto's work the book will also be an inspiration and resource for dance movement and performance artists teachers and trainers therapists of all sorts especially those working with somatics embodiment dance and movement anyone wanting to learn more about the nature and application of Prapto's movement practice anyone interested in the value of an embodied approach to life and work current thinking about the brain and body point to the crucial importance of nonverbal embodied perception and communication and Amerta Movement offers an important path toward growth in this area

Deviced! Doreen Dodgen-Magee, 2018-10-08 With current statistics suggesting that the average American over the age of 14 engages with screens upwards of 10 hours a day the topic of our growing dependence upon technology applies to nearly everyone While the effects differ at each point of development real changes to the brain relationships and personal lives are well documented Deviced explores these alterations and offers a realistic look at how we can better use technology and break away from the bad habits we've formed Using personal stories cutting edge research

and anecdotes from youth parents and professionals Dodgen Magee highlights the brain changes that result from excessive technology use and offers an approach to the digital world that enables more informed and lasting change and a healthier long term perspective Given that the reader is living within a culture of ever changing and advancing technologies Deviced is written in such a way that its contents can weather the constantly changing digital landscape by focusing on the concepts of honest assessment and healthy boundary setting rather than on specific technologies or platforms Deviced offers a mindful approach to assessing current technology use breaking bad habits setting new norms and re engaging with life with renewed richness and awareness

Causation and Creation in Late Antiquity Anna Marmodoro,Brian D. Prince,2015-02-26 Written by a group of leading scholars this unique collection of essays investigates the views of both pagan and Christian philosophers on causation and the creation of the cosmos Structured in two parts the volume first looks at divine agency and how late antique thinkers including the Stoics Plotinus Porphyry Simplicius Philoponus and Gregory of Nyssa tackled questions such as is the cosmos eternal Did it come from nothing or from something pre existing How was it caused to come into existence Is it material or immaterial The second part looks at questions concerning human agency and responsibility including the problem of evil and the nature of will considering thinkers such as Plotinus Porphyry Proclus and Augustine Highlighting some of the most important and interesting aspects of these philosophical debates the volume will be of great interest to upper level students and scholars of philosophy classics theology and ancient history

A Dangerous Mind W. Marshall Johnston,Daniel J. Crosby,2015-06-30 A Dangerous Mind is

a celebration of the ideas and influence of Delbert L Wiens It contains tributes to him essays inspired by him and some of his unpublished works This effort has been brought together by his students colleagues and friends at the fiftieth anniversary of the publication of his *New Wineskins for Old Wine* which hoped to guide the Mennonite Brethren as they faced the challenges of modernity it has proven useful for other denominations facing similar transitions This year also marks the sixtieth anniversary of Delbert s foundation of the Mennonite mission in Vietnam In addition to celebrating his ideas and influence through our writing we have also endeavored to capture the spirit of his work through art illustrating each section of this volume

Resisting Theologies and the Everyday Wren Radford,2025-06-26 This powerful volume provides dynamic ways of constructing theologies of resistance and liberation by engaging with the everyday practices of marginalised communities In doing so this collection of theological experts reject abstracted concepts of bodes and taxonomies of race gender sexuality and disability Readers will find this a dynamic book with a variety of approaches that provide ways of constructing theologies of resistance and liberation Experiences of marginalisation have provided a powerful reference point for developing theologies of justice and liberation however theological and political frameworks often reduce the complexity of lived experiences into categories and themes Daily practices of resisting and surviving are frequently considered too fleshy domestic or banal to be of theological meaning Therefore Radford and their coterie of academics draw on understandings of the everyday in feminist womanist Latinx and decolonial theologies as well as in cultural theory This allows critical reflection on how theological approaches can shape alternative relations to self society and the sacred In recognising the lived and felt realities of struggling against oppressive colonial and racialised systems contributors engage with academic and activist debates about the possibilities of remaking social relations and creating other ways of knowing and being From Black theology to disabled activists on social media to queer clergy in South Africa this volume holds together differences in contributors approaches modelling the view that there is not just one form of resistance nor a single approach to constructing theology

The Oxford Handbook of the History of Ethics Roger Crisp,2013-01-31 This original and comprehensive volume explores the history of philosophical ethics in the western tradition from Homer until the present day Leading experts in the field use their expertise and specialist knowledge to illuminate key subjects and ideas in contemporary ethics and survey the history of the discipline

Asian Religious Responses to Darwinism C. Mackenzie Brown, 2020-12-17 This volume brings together diverse Asian religious perspectives to address critical issues in the encounter between tradition and modern western evolutionary thought Such thought encompasses the biological theories of Charles Darwin Jean Baptiste Lamarck Earnest Haeckel Thomas Huxley and later neo Darwinians as well as the more sociological evolutionary theories of thinkers such as Herbert Spencer Pyotr Kropotkin and Henri Bergson The essays in this volume cover responses from Hindu Jain Buddhist Chinese Japanese and Indo Tibetan Confucian Daoist and Muslim traditions These responses come from the decades immediately after publication of *The Origin of Species* up to the present with attention being paid to earlier perspectives and teachings within a tradition that have affected responses to Darwinism and western evolutionary thought in general The book focuses on three critical issues the struggle for survival and the moral implications read into it genetic variation and its seeming randomness as related to the problems of meaning and purpose and the nature of humankind and human exceptionalism Each essay deals with one or more of the three issues within the context of a specific tradition

Journeys of Embodiment at the Intersection of Body and Culture Niva Piran, 2017-09-15 *Journeys of Embodiment at the Intersection of Body and Culture* The Developmental Theory of Embodiment describes an innovative developmental and feminist theory understanding embodiment to provide a new perspective on the interactions between the social environment of girls and young women of different social locations and their embodied experience of engagement with the world around them The book proposes that the multitude of social experiences described by girls and women shape their body experiences via three core pathways experiences in the physical domain experiences in the mental domain and experiences related directly to social power The book is structured around each developmental stage in the body

journey of girls and young women as influenced by their experience of embodiment The theory builds on the emergent constructs of embodiment and body journey and the key social experiences which shape embodiment throughout development and adolescence from agency functionality and passion during early childhood to restriction shame and varied expressions of self harm during and following puberty By addressing not only adverse experiences at the intersection of gender social class ethnocultural grouping resilience and facilitative social factors the theory outlines constructive pathways toward transformation It contends that both protective and risk factors are organized along these three pathways with the positive and negative aspects conceptualized as Physical Freedom vs Corseting Mental Freedom vs Corseting and Social Power vs Disempowerment and Disconnection Examines the construct of embodiment and its theoretical development Explores the social experiences that shape girls throughout development Recognizes the importance of the body and sexuality Includes narratives by girls and young women on how they inhabit their bodies Invites scholars and health professionals to critically reflect on the body journeys of diverse girls and women Addresses the advancement of feminist social critical and psychological theory as well as implications to practice both therapy and health promotion

Epistemology: The Key Thinkers Stephen Hetherington, Stephen Cade Hetherington, 2012-04-26 From Plato through Descartes to W V Quine and Edmund Gettier this concise introduction and reference guide explores the history of thinking about knowledge *Halos and Avatars* Craig Detweiler, 2010-01-25 Craig Detweiler's collection of up to the minute essays on video games theological themes and yes they do exist is an engaging and provocative book for gamers parents pastors media scholars and theologians virtually anyone who has dared to consider the ramifications of modern society's obsession with video games and online media Together these essays take on an exploding genre in popular culture and interpret it through a refreshing and enlightening philosophical lens **Longing and Letting Go** Holly Hillgardner, 2017 Can we love God and others without our desires eclipsing the very beauty integrity and diversity toward which we are drawn that is can we love without trying to possess Spanning centuries continents and religious traditions *Longing and Letting Go* looks to Christian writer Hadewijch and Hindu songstress Mirabai to explore their inextricable practices of longing and letting go and more particularly the interreligious possibilities of passionate non attachment for an interconnected pluralistic world **The Ascetic Ideal** Stephen Mulhall, 2021-08-12 In *The Ascetic Ideal* Stephen Mulhall shows how areas of cultural life that seem to be either essentially unconnected to evaluative commitments science and philosophy or to involve non moral values aesthetics are in fact deeply informed by ethico religious commitments for better and for worse The book develops a reading of Nietzsche's concept of the ascetic ideal which he used to track the evolution mutation and expansion of the system of slave moral values associated primarily with Judaeo Christian religious belief through diverse fields of Western European culture not just religion and morality but aesthetics science and philosophy Mulhall also offers an interpretation of Nietzsche's genealogical method that aims to rebut standard criticisms of its nature and to emphasize its potential for enhancing

philosophical understanding more generally The focus throughout is on developments in those fields which occurred after the end of Nietzsche's intellectual career and in particular on influential modes of thought and practice that have a contemporary significance The goal is not simply to argue that Nietzsche's diagnosis and critique retains considerable merit but also to show that Nietzsche is himself significantly indebted to the ideals he criticizes and that this opens up a possibility of synthesizing elements of his approach with those drawn from its target Hence the book also tracks various ways in which the object of Nietzsche's criticism has undergone further mutations just as his genealogical method would suggest and in doing so has generated ways of pursuing the values central to asceticism that avoid Nietzsche's criticisms and might even further his own goals

Living Faithfully in a Fragmented World, Second Edition Jonathan R. Wilson, 2010-01-01 The first edition of *Living Faithfully in a Fragmented World* became one of the founding and guiding texts for new monastic communities In this revised edition Jonathan Wilson focuses more directly on lessons for these communities from Alasdair MacIntyre's *After Virtue* In the midst of the unsettling cultural shifts from modernity to postmodernity a new monastic movement is arising that strives to be a faithful witness to the gospel These new monastic communities seek to participate in Christ's life in the world and bear witness by learning to live intentionally as the church in Western culture This movement is about finding the church's center in Christ in the midst of a fragmented world overcoming the failure of the Enlightenment project and our complicity with it resisting the temptation to Nietzschean power and building communities of disciples This new edition is greatly enlarged from the original volume It includes responses to critics of the new monasticism such as D A Carson an entirely new chapter on the Nietzschean temptation an afterword on properly understanding the new monastic movement the dangers it faces and the work yet to be done as well as an appendix on the supposed post modern agenda of Jonathan Wilson and Brian McLaren For those striving to understand the path the church should take in this fragmented world this book is essential reading

J.M.E. McTaggart Ramesh K. Sharma, 2015-12-03 J M E McTaggart seeks to critically expound and appraise the British philosopher's thought with respect to three principal themes of his philosophy substance self and immortality Ramesh Kumar Sharma guides the reader through the labyrinths of McTaggart's intricate arguments and defends many of McTaggart's highly unorthodox doctrines and conclusions While doing this Sharma draws on the works of among others Berkeley Hegel and Leibniz and at the same time attacks numerous modern day physicalist theories that propound mind brain identity as against the presumed reality of the self and consciousness This work is thus recommended both for philosophers and researchers interested in 1 such perennial metaphysical subjects as reality existence possibility the basic ontological categories of substance qualities and relations universals 2 the question of the reality of the self 3 McTaggart's overall vision of the universe or Absolute and his rejection of the more or less predominant view that the Absolute is God 4 McTaggart's unique doctrine after Plato of the immortality of the self combined with the self's pre existence post existence and plurality of lives and 5 his extraordinary but important views on perception
