Snaith, 2016-08-11 This study has its origin in a twenty year old interest in Sigmund Mowinckel's theory of an annual new year Coronation Feast of Jehovah in Israel The first outcome of this interest was a volume entitled Studies in the Psalter 1934 in which I endeavored to show that the psalms which Mowinckel associated most closely with this supposed Coronation Feast were actually post exilic and in any case were Sabbath psalms It is impossible if my thesis is sound that these psalms could ever have been and the apparatus of a pre exilic feast of the type which Mowinckel proposed From the Preface Our Calendar George Nichols Packer, 2019-12-10 In Our Calendar George Nichols Packer presents an evocative exploration of the interplay between time culture and societal rhythms. This intellectually stimulating work marries lyrical prose with incisive commentary examining how our constructed perceptions of time reflect deeper cultural narratives Packer deftly employs a blend of descriptive storytelling and analytical insight situating the book within contemporary discussions on temporal frameworks in modern society particularly in an era marked by rapid change and digital transformation Through this examination he encourages readers to reconsider the very foundations of their daily lives and the calendars they adhere to George Nichols Packer a scholar steeped in philosophy and cultural studies crafts this work as a culmination of his lifelong inquiry into the nature of human experience and societal constructs Drawing from diverse influences ranging from historical texts to modern philosophical discourse Packer delves into why we measure time the way we do and how these systems impact our lives His background provides a rich tapestry of perspectives that informs his narrative making it a significant contribution to the discourse of time and culture Our Calendar is a compelling read for anyone interested in the nuances of time and its effects on human behavior Packer's ability to intertwine personal anecdotes with broader cultural analysis makes this book accessible yet profound Readers looking for a thought provoking journey into the complexities of time should not miss this enlightening work Journal of the Transactions of the Victoria Institute, Or Philosophical Society of Great Britain ,1919 Follow the Moon Yaffa Ganz, 1984 An explanation of the months and cycles of the traditional Jewish year The New International Encyclopædia Frank Moore Colby, Talcott Williams, 1922 The New International Encyclopædia .1925 **Tobacco** ,1923 Savta Simcha, Uncle Nechemya, and the Very Strange Stone in the
