High Performance Fencing Ed Rogers, 2015-07-31 Legendary fencing instructor Maitre Bac H Tau described what he called the six essentials that are in a fencer's mind. The first is called spirit, the second rhythm, the third thought, the fourth technique, the fifth tactic, and the last is strategy. As a fencer, you can fight with spirit, experience rhythm, think your way around problems, and develop technique, tactic, and strategy by training with top flight fencing masters. But there is more. Modern fencing is a highly competitive speed and endurance sport, and the seventh essential in a high performance fencer's mind is how to prepare themselves physically and mentally to fence. In *High Performance Fencing: The Seventh Essential*, Ed Rogers covers every aspect of the preparation required by a fencer competing at the highest level. The book provides sound practical advice and is based on tried and tested training principles that have repeatedly proved successful. Aimed at intermediate to advanced level fencers, coaches, teachers, and all those involved in competition fencing, and fully illustrated with 148 colour images and diagrams.
