Female Beauty Systems Christine Adams, Tracy Adams, 2015-09-04 Female beauty systems everywhere are complex integrating markers of class status power and sexuality to perform the fundamental function of sorting individuals into categories of more or less desirable Heirs to the tradition of courtly love modern western female beauty systems tend to share the norm of man as pursuer woman as pursued having developed around the trope of the madly desiring poet or knight supplicating his aloof and lovely lady for her favor The apparent longevity of the courtly love tradition raises the question of whether the way in which it structures male desire in reaction to female beauty is part of a universal tendency an evolutionary adaptation despite clear evidence that female beauty systems are also in fact socially constructed and reflect enormous ambivalence about the power and performance of beauty Although modern western female beauty systems are routinely demystified and contested today the purveyors of culture that support them institutional intellectual artistic commercial and popular continue as they always have to construe women as objects of male desire Still within this basic structure the systems have varied greatly across time and space with women using beauty as a form of social capital in widely differing ways Moreover as individuals have begun to experience their bodies as malleable and endlessly transformable rather than unruly and unyielding many have begun to experience beauty less as a given and more as a project The nine essays collected here examine a number of different Western female beauty systems over the centuries considering how women have complied with contributed to profited or suffered from and resisted them

Kinetic Cultures Rachana Vajjhala, 2023-12-05 Belle poque Paris adored dance Whether at the music hall or in more refined theaters audiences flocked to see the spectacles offered to them by the likes of Isadora Duncan Diaghilev s flashy company and an embarrassment of Salome s After languishing in the shadow of opera for much of the nineteenth century ballet found itself part of this lively kinetic constellation In Kinetic Cultures Rachana Vajjhala argues that far from being

mere delectation ballet was implicated in the larger republican project of national rehabilitation through a rehabilitation of its citizens By tracing the various gestural complexes of the period bodybuilding routines appropriate physical comportment for women choreographic vocabularies and more Vajjhala presents a new way of understanding histories of dance and music one that she locates in gesture and movement *Beauty Imagined* Geoffrey Jones, 2010-02-25 The global beauty business permeates our lives influencing how we perceive ourselves and what it is to be beautiful The brands and firms which have shaped this industry such as Avon Coty Est e Lauder L Or al and Shiseido have imagined beauty for us This book provides the first authoritative history of the global beauty industry from its emergence in the nineteenth century to the present day exploring how today s global giants grew It shows how successive generations of entrepreneurs built brands which shaped perceptions of beauty and the business organizations needed to market them They democratized access to beauty products once the privilege of elites but they also defined the gender and ethnic borders of beauty and its association with a handful of cities notably Paris and later New York The result was a homogenization of beauty ideals throughout the world Today globalization is changing the beauty industry again its impact can be seen in a range of competing strategies Global brands have swept into China Russia and India but at the same time these brands are having to respond to a far greater diversity of cultures and lifestyles as new markets are opened up worldwide In the twenty first century beauty is again being re imagined anew *The Force of Beauty* Holly Grout, 2015-05-13 The market for commercial beauty products exploded in Third Republic France with a proliferation of goods promising to erase female imperfections and perpetuate an aesthetic of femininity that conveyed health and respectability While the industry s meteoric growth helped to codify conventional standards of womanhood *The Force of Beauty* goes beyond the narrative of beauty culture as a tool for sociopolitical subjugation to show how it also targeted women as important consumers in major markets and created new avenues by which they could express their identities and challenge or reinforce gender norms As cosmetics companies and cultural media from magazines to novels to cinema urged women to aspire to commercial standards of female perfection beauty evolved as a goal to be pursued rather than a biological inheritance The products and techniques that enabled women to embody society s feminine ideal also taught them how to fashion their bodies into objects of desire and thus offered a subversive tool of self expression Holly Grout explores attempts by commercial beauty culture to reconcile a standard of respectability with female sexuality as well as its efforts to position French women within the global phenomenon of changing views on modern womanhood Grout draws on a wide range of primary sources hygiene manuals professional and legal debates about the right to fabricate and distribute medicines advertisements for beauty products and contemporary fiction and works of art to explore how French women navigated changing views on femininity Her seamless integration of gender studies with business history aesthetics and the history of medicine results in a textured and complex study of the relationship between the politics of womanhood and the politics of beauty *Sex, Honor and Citizenship in Early Third*

Republic France A. Mansker, 2011-10-03 A repositioning of French women's struggle for suffrage within the distinct cultural landscape of the masculine honour system Whether activists demanded admission to the popular ritual of the duel or publicly shamed men for their extramarital sexual behaviour they appropriated extralegal honour codes to enact new civic and familial identities

The Woman Question in France, 1400-1870 Karen Offen, 2017-10-05 This is a revolutionary reinterpretation of the French past from the early fifteenth century to the establishment of the Third Republic focused on public challenges and defenses of masculine hierarchy in relations between women and men Karen Offen surveys heated exchanges around women's influence their exclusion from authority the increasing prominence of biomedical thinking and population issues concerns about education intellect and the sexual politics of knowledge and the politics of women's work Initially the majority of commentators were literate and influential men However as more and more women attained literacy they too began to analyze their situation in print and to contest men's claims about who women were and should be and what they should be restrained from doing and why As urban print culture exploded and revolutionary ideas of equality fuelled women's claims for emancipation this question resonated throughout francophone Europe and ultimately across the seas

Adolescence in Modern Irish History Catherine Cox, Susannah Riordan, 2015-09-15 This edited collection is the first to address the topic of adolescence in Irish history It brings together established and emerging scholars to examine the experience of Irish young adults from the affective revolution of the early nineteenth century to the emergence of the teenager in the 1960s

Debating the Woman Question in the French Third Republic, 1870-1920 Karen Offen, 2018-01-11 Karen Offen offers a magisterial reconstruction and analysis of the debates around relations between women and men how they are constructed and how they should be organized that raged in France and its French speaking neighbors from 1870 to 1920 The woman question encompassed subjects from maternity and childbirth and the upbringing and education of girls to marriage practices and property law the organization of households the distribution of work inside and outside the household intimate sexual relations religious beliefs and moral concerns government sanctioned prostitution economic and political citizenship and the politics of population growth The book shows how the expansion of economic opportunities for women and the drop in the birth rate further exacerbated the debates over their status roles and possibilities With the onset of the First World War these debates were temporarily placed on hold but they would be revived by 1916 and gain momentum during France's post war recovery

practice Cleanliness once simply a requirement for good health became an essential element of beauty Beneath this transformation lay a sea change in understandings motives ideologies technologies and practices all of which shaped popular habits over time Peter Ward explains that what began as an urban bourgeois phenomenon in the later eighteenth century became a universal condition by the end of the twentieth touching young and old rich and poor city dwellers and country residents alike Based on a wealth of sources in English French German and Italian *The Clean Body* surveys the great hygienic transformation that took place across Europe and North America over the course of four centuries **Sexuality and German Fascism** Dagmar Herzog, 2005 The interrelationship of fascism and sexuality has attracted a great deal of interest for some time now This collection offers fresh perspectives by leading scholars on the history of sexuality under national socialism on such topics as the persecution of Jewish gentile sex in the race defilement trials homophobic propaganda and the prosecution of same sex activity within the Wehrmacht and SS representations of female sexuality in film prostitution on home and battle fronts sexual relations between Germans and foreign forced laborers and reproductive practices among Jewish survivors Moreover the authors provide new insights into the relationships between Nazi sexual politics and antisemitism and challenge assumptions of Nazism as sexually repressive instead they emphasize the interrelationships between incitement to sexual activity and persecution and mass murder book jacket **Disability, Space, Architecture: A Reader** Jos Boys, 2017-02-17 Disability Space Architecture A Reader takes a groundbreaking approach to exploring the interconnections between disability architecture and cities The contributions come from architecture geography anthropology health studies English language and literature rhetoric and composition art history disability studies and disability arts and cover personal theoretical and innovative ideas and work Richer approaches to disability beyond regulation and design guidance remain fragmented and difficult to find for architectural and built environment students educators and professionals By bringing together in one place some seminal texts and projects as well as newly commissioned writings readers can engage with disability in unexpected and exciting ways that can vibrantly inform their understandings of architecture and urban design Most crucially Disability Space Architecture A Reader opens up not just disability but also ability dis ability as a means of refusing the normalisation of only particular kinds of bodies in the design of built space It reveals how our everyday social attitudes and practices about people objects and spaces can be better understood through the lens of disability and it suggests how thinking differently about dis ability can enable innovative and new kinds of critical and creative architectural and urban design education and practice **Mobilizing Youth** Susan Whitney, 2009-09-11 Examines how young people moved to the forefront of politics in France in the early twentieth century analyzing how Communist and Catholic attempts to mobilize youth created youth movements with members who carried their commitments into WWII **Ottoman Women during World War I** Elif Mahir Metinsoy, 2017-11-09 During war time the everyday experiences of ordinary people and especially women are frequently obscured by elite military and social analysis In this pioneering study Elif Mahir Metinsoy

focuses on the lives of ordinary Muslim women living in the Ottoman Empire during the First World War. It reveals not only their wartime problems but also those of everyday life on the Ottoman home front. It questions the existing literature's excessive focus on the Ottoman middle class using new archive sources such as women's petitions to extend the scope of Ottoman Turkish women's history. Free from academic jargon and supported by original illustrations and maps, it will appeal to researchers of gender history, Middle Eastern and social history. By showing women's resistance to war mobilization, wartime work life and the everyday struggles which shaped state politics, Mahir Metinsoy allows readers to draw intriguing comparisons between the past and the current events of today's Middle East.
