Parenting Plan Evaluations Kathryn Kuehnle, Leslie Drozd, 2012-01-09 When conducting parenting plan evaluations mental health professionals need to be aware of a myriad of different factors More so than in any other form of forensic evaluation they must have an understanding of the most current findings in developmental research behavioral psychology attachment theory and legal issues to substantiate their opinions As such there is an essential need for a text focused on translating and implementing research associated with the most important topics within the family court This book addresses this gap in the literature by presenting an organized and in depth analysis of the current research and offering specific recommendations for applying these findings to the evaluation process Written by experts in the child custody arena chapters cover issues associated with the most important and complex issues that arise in family court such as attachment and overnight timesharing with very young children dynamics between divorced parents and children s potential for resiliency co parenting children with chronic medical conditions and developmental disorders domestic violence during separation and divorce gay and lesbian co parents and relocation among others The scientific information provided in these chapters assists forensic mental health professionals to proffer empirically based opinions conclusions and recommendations Parenting Plan Evaluations is a must read for legal practitioners family law judges and attorneys and other professionals seeking to understand more about the science behind child custody evaluations *Family Dynamics after Separation* Ulrike Zartler, Valerie Heintz-Martin, Oliver Arranz Becker, 2015-05-20 In many Western societies there has been a tremendous increase in family diversity over the course of the past few decades resulting in a considerable prevalence of non traditional family forms The increased instability of marital and non marital unions entails new challenges for both parents and children In this special issue family studies scholars from different disciplines examine from a life course perspective how re

partnering processes work and how family relationships are rearranged in order to adapt to the altered needs and requirements of post separation family life *The Juvenile* ,1911 *A Generation at Risk* Paul R. Amato,Alan Booth,2009-07-01 Just what do we know about the current generation of young Americans So little it seems that we have dubbed them Generation X Coming of age in the 1980s and 90s they hail from families in flux from an intimate landscape changing faster and more profoundly than ever before This book is the first to give us a clear close up picture of these young Americans and to show how they have been affected and formed by the tremendous domestic changes of the last three decades How have members of this generation fared at school and at work as they have moved into the world and formed families of their own Do their struggles or successes reflect the turbulence of their time These are the questions A Generation at Risk answers in comprehensive detail Based on a unique fifteen year study begun in 1980 the book considers parents socioeconomic resources their gender roles and relations and the quality and stability of their marriages It then examines children s relations with their parents their intimate and broader social affiliations and their psychological well being The authors provide rare insight into how both familial and historical contexts affect young people as they make the transition to adulthood Perhaps surprising is the authors finding that in this era of shifting gender roles children who grow up in traditional father breadwinner mother homemaker families and those in more egalitarian role sharing families apparently turn out the same Also striking are the beneficial influence of parental education on children and the troubling long term impact of marital conflict and divorce an outcome that prompts the authors to suggest policy measures that encourage marital quality and stability Executive Documents of the State of Minnesota for the Year ...
