El Cacahuatpeanuts:

El cacahuate y otros alimentos que causan alergias (Peanut and Other Food Allergies) Caitie McAneney, 2014-12-15 Food allergies are on the rise and they've become a growing concern in classrooms everywhere. This book introduces readers to the science behind allergies as well as real world tips for how to control food allergies and be considerate to people who suffer from food allergies. A Place in El Paso Gloria López-Stafford, 1996 This memoir of growing up in El Paso in the 1940s and 1950s creates an entire city the way a barrio awakens in the early morning sun, the thrill of a rare desert snow, the taste of fruit flavored raspadas on summer afternoons, the money boys who beg from commuters passing back and forth to Juarez, and the mischief of children entertaining themselves in the streets. López-Stafford shows readers El Paso through the eyes of Yoya, short for Gloria, the high spirited narrator who is five years old when the book begins. Yoya is a survivor. Her young mother has died, leaving her in the care of her much older father who tries to provide for his family by selling used clothing. Her brother Carlos, Padre Luna, and a community of children and women assume responsibility for Yoya, but like the inexplicable loss of her mother, unexpected changes separate her from her beloved barrio. The search for su lugar, her place, becomes a search for identity as Gloria seeks to understand her various homes and families.

Mexican Indigenous Languages at the Dawn of the Twenty-First Century Margarita Hidalgo, 2008-08-22 This volume explores the reversing language shift RLS theory in the Mexican scenario from various viewpoints The sociohistorical

perspective delves into the dynamics of power that emerged in the Mexican colony as a result of the presence of Spanish. It examines the processes of external and internal Indianization affecting the early European protagonists and the varied dimensions of language shift and maintenance of the Mexican colonial period. The Mexican case sheds light upon language contact from the time in which Western civilization came into contact with the Mesoamerican peoples for the encounter began with a demographic catastrophe that motivated a recovery mission. While the recovery of Mexican indigenous languages MIL was remarkable, RLS ended after fifty years of abundant productivity in MIL. Since then the slow process of recovery is related to demographic changes, socioreligious movements, rebellion, confrontation, and survival strategies that have fostered language maintenance with bilingualism and language shift with culture preservation. The causes of the Chiapas uprising are analyzed in connection with the language attitudes of the indigenous peoples while language policy is discussed in reference to the new Law of Linguistic Rights of the Indigenous Peoples 2003. A quantitative classification of the MIL is offered with an overview of their geographic distribution, trends of macrosocietal bilingualism, use in the home domain, and permanence in the original Mesoamerican settlements. Innovative models of bilingual education are presented along with relevant data on several communities and the philosophies and methodologies justifying the programs. A model of Mazahua language use is presented along the Graded Intergenerational Disruption Scale.
