new processes for improving food quality Given the global food marketplace there is also a greater need for a means of objectively classifying food colorants *Food Colorants* Carmen Socaciu, 2007-10-24 Drawing on the expertise of internationally known interdisciplinary scientists and researchers *Food Colorants Chemical and Functional Properties* provides an integrative image of the scientific characteristics, functionality and applications of color molecules as pigments in food science and technology as well as their impact on health The book **Instrumentation and Sensors for the Food Industry** E Kress-Rogers, C J B Brimelow, 2001-10-03 The first edition of this book quickly established itself as the standard reference in its field and the second edition consolidates this reputation Keeping up with the rapid change in this area there are 16 new contributors and 8 completely new chapters as well as major revisions to existing chapters making this second edition a substantially longer book *Instrumentation and sensors for the food industry* 2nd edition begins with two introductory chapters to set the scene part one covers in line measurement of food processing operations including colour measurement the measurement of food composition by a range of techniques and the measurement of pressure temperature level flow and viscosity Part two reviews instrumental techniques in the quality control laboratory including the measurement of rheological properties texture water and microbiological activity Part three has five chapters devoted to the increasingly widespread use of electronic noses chemosensors biosensors immunosensors and DNA probes Comprehensively revised and expanded edition of a standard work in its field Authoritative and practical guide to the range of instrumentation and sensors available Written by a distinguished international panel of experts **Food Safety and Food Quality** R E Hester, R M Harrison, 2007-10-31 The quality and safety of the food we eat attracts a great deal of publicity and is high on the list of public concerns This highly emotive issue is discussed in this timely book which brings together a group of experts to present up to date and balanced overviews on a wide range of topics including GM crops hazardous microorganisms such as E coli the BSE CJD problem and cancer causing chemicals both natural and synthetic Thought provoking and of interest to a wide readership this authoritative review will be welcomed by food scientists legislators government officials and advisors Students of food science or environmental science will also find it essential reading *Color for Science, Art and Technology* Kurt Nassau, 1997-12-18 The aim of this book is to assemble a series of chapters written by experts in their fields covering the basics of color and then some more In this way readers are supplied with almost anything they want to know about color outside their own area of expertise Thus the color measurement expert as well as the general reader can find here information on the perception causes and uses of color For the artist there are details on the causes measurement perception and reproduction of color Within each chapter authors were requested to indicate directions of future efforts where applicable One might reasonably expect that all would have been learned about color in the more than three hundred years since Newton established the fundamentals of color science This is not true because the measurement of color still has unresolved complexities Chapter 2 many of the fine details of color vision remain unknown Chapter 3 every few decades a

new movement in art discovers original ways to use new pigments and dyes continue to be discovered Chapter 5 the philosophical approach to color has not yet crystallized Chapter 7 new pigments and dyes continue to be discovered Chapters 10 and 11 the study of the biological and therapeutic effects of color is still in its infancy Chapter 2 Color continues to develop towards maturity and the editor believes that there is much common ground between the sciences and the arts and that color is a major connecting bridge
