Whenever the people are well informed Thomas Jefferson wrote they can be trusted with their own government But what happens in a world dominated by complex science Are the people still well enough informed to be trusted with their own government And with less than 2 percent of Congress with any professional background in science how can our government be trusted to lead us in the right direction Will the media save us Don t count on it In early 2008 of the 2 975 questions asked the candidates for president just six mentioned the words global warming or climate change the greatest policy challenge facing America To put that in perspective three questions mentioned UFOs Today the world s major unsolved challenges all revolve around science By the 2012 election cycle at a time when science is influencing every aspect of modern life antiscience views from climate change denial to creationism to vaccine refusal have become mainstream Faced with the daunting challenges of an environment under siege an exploding population a falling economy and an education system slipping behind our elected leaders are hard at work passing resolutions that say climate change is not real and astrology can control the weather Shawn Lawrence Otto has written a behind the scenes look at how the government our politics and the media prevent us from finding the real solutions we need *Fool Me Twice* is the clever outraged and frightening account of America s relationship with science a relationship that is on the rocks at the very time we need it most *Fool Me Twice* Vineet Verma,2021-09-03 When a car salesman is found dead Detective Arthur Lansbury first suspects a couple of homeless men He soon discovers that there are other contenders The grieving wife had motive and opportunity The victim s boss appears to have skeletons he would rather keep buried As Lansbury digs deeper the investigation leads him to a thirteen year old cold case and a shocking conclusion Includes the bonus short story Fate in which the initial part of the tale above is narrated by one of the other characters albeit in a lighter vein *Fool Me Twice* JL Merrow,2025-02-24 When lightning strikes twice you might get burned Zig s trying to build a life for himself after falling in with the wrong crowd in his teens When his no good dad threatens to force him back into crime he runs all the way to Glastonbury He s just hoping his former sweetheart whom he s always remembered as the one good man he knows won t slam the door in his face Si Scratch to his mates is blindsided when his gorgeous ex turns up on his doorstep looking better than ever Although Si s still nursing a broken heart six years after breaking up with Zig over his lifestyle he welcomes him back into his life no questions asked He s determined not to let him back into his heart though Si s learned that lesson Before Si was the na ve youngster and Zig the worldly jack the lad Now Si s grown into his confidence as well as his muscles while Zig s had to face some harsh truths about himself Despite their doubts and those of Si s mates they re drawn back to one another But Zig s dad has a score to settle that could ruin their second chance and their lives forever See this title s page on RiptidePublishing com for content warnings ***Fool Me Twice*** Thomas E.
