Colonialism, Catholicism, and Contraception Annette B. Ramírez de Arellano, Conrad Seipp, 2017-10-10 The authors analyze the tortuous course that Puerto Rico has followed in evolving a population policy highlighting the island's rapid economic growth its role as a laboratory for testing different methods of birth control and the inevitable conflicts between church and state The strands of colonialism catholicism and contraception are woven into a background of profound social change characterized by shifting values industrialization mass emigration and technical innovation Originally published 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again
