Thinking in Pictures Joyce E. Jesionowski, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 **Standard Deviations** Leland Monk, 1994-03-01 Analyzing works by George Eliot Joseph Conrad and James Joyce the author offers a new approach to narrative theory by showing how successive generations of novelists have used ever more powerful concepts of chance

even though he argues chance is precisely what narrative cannot represent since when it tries to do so it slips into the fated. He also relates the novelistic treatment of chance to important historical currents in the philosophical and scientific understanding of chance and provides a theoretical framework for analyzing the representation of chance in any narrative. The author asks three central questions: Why did British novelists become intensely interested in chance in the late nineteenth century? Why and how did they thematize it in their fiction? How did the novelistic treatment of chance contribute to innovations in narrative form?

Uprising of the Fools Vikash Singh, 2017-03-21. The Kanwar in India's largest annual religious pilgrimage. Millions of participants gather sacred water from the Ganga and carry it across hundreds of miles to dispense as offerings in river shrines. These devotees, called bhola gullible or fools and seen as miscreants by many Indians, are mostly young, destitute men who have been left behind in the globalizing economy. But for

these young men the ordeal of the pilgrimage is no foolish pursuit but a means to master their anxieties and attest their good faith in unfavorable social conditions Vikash Singh walked with the pilgrims of the Kanwar procession and with this book he highlights how the procession offers a social space where participants can prove their talents resolve and moral worth Working across social theory phenomenology Indian metaphysics and psychoanalysis Singh shows that the pilgrimage provides a place in which participants can simultaneously recreate and prepare for the poor informal economy and inevitable social uncertainties In identifying with iva who is both Master of the World and yet a pathetic drunkard participants demonstrate their own sovereignty and desirability despite their stigmatized status Uprising of the Fools shows how religion today is not a retreat into tradition but an alternative forum for recognition and resistance within a rampant global neoliberalism
