

The book cover features a scenic landscape painting. In the background, a large, rugged mountain range is depicted with peaks covered in snow and bathed in the warm, golden light of a low sun, creating a dramatic silhouette effect. The middle ground shows a traditional Chinese architectural complex, including a prominent pavilion with a multi-tiered, dark roof, nestled among lush green trees. In the foreground, a calm body of water reflects the scene above. At the bottom of the frame, a bright, glowing orange and yellow light source, possibly a campfire or a reflection of the setting sun, adds a warm, atmospheric touch to the composition.

**China: Confucius in the Shadows**, 2015-03-15 Earlier this decade a statue of Confucius appears suddenly in Tiananmen Square in Beijing It is facing Chairman Mao's statue in front of the Forbidden City Mysteriously it disappears a few days later Why was it removed overnight Where is it now No clear answers seem to have emerged Most communist regimes have tried to make a break with the traditions of the past believing them to be the cause of all ills in society But has the historical experience of Communist regimes shown that to be true Today Buddhist Daoist and Confucian temples across cities and villages in China are crowded with people offering prayers People swarm to pay their respects to their traditional sages Like the warp and weft of a fabric China has the mark of traditions and ancient ethos present in its society and this has come handed down over the centuries and across generations Confucianism has been among the most well absorbed best known and documented value systems in China It was and still is a living tradition a way of life and a philosophy Propounded by Confucius 551-479 BC this value system has had a lasting and deep seated influence on the Chinese A philosopher and a thinker of the Spring and Autumn period Confucius has been considered a wise and fair teacher and a shrewd strategist in war In spite of the fact that Confucian values have been present beneath the surface in China along with Buddhist and Daoist beliefs for generations it is interesting to study why Confucius is being talked about so much of late Over the years in Communist China Confucian thought had been swept under the carpet but resurrected in part depending on whether it suited the then current leadership While Mao rejected Confucius's ideas he did not hesitate to use them whenever it suited him A study of Confucius and his value systems at this moment in time makes sense and is important for a number of reasons In the evolving socio-political milieu of China interpreting Confucian philosophy as being non-confrontationist benevolent and with values such as filial piety and harmony could help the current political regime deal with such problems as corruption and rising inequalities Not only is Confucius being used to present to the world a completely Chinese cultural icon but it may also provide the Party with a useful tool to temper the simmering

discontent in its society
