originally published in 1966      Mindful Aesthetics Chris Danta,Helen Groth,2013-11-07 In the last few decades literary critics have increasingly drawn insights from cognitive neuroscience to deepen and clarify our understanding of literary representations of mind This cognitive turn has been equally generative and contentious While cognitive literary studies has reinforced how central the concept of mind is to aesthetic practice from the classical period to the present critics have questioned its literalism and selective borrowing of scientific authority Mindful Aesthetics presents both these perspectives as part of a broader consideration of the ongoing and vital importance of shifting concepts of mind to both literary and critical practice This collection contributes to the forging of a new interdisciplinarity to paraphrase Alan Richardson s recent preface to the Neural Sublime that is more concerned with addressing how rather than why we should navigate the increasingly narrow gap between the humanities and the sciences      The Poetical Works of Alfred Tennyson Anonymous,2023-10-15 Reprint of the original first published in 1873      **This Dream Is Not for You** Wade Joye,2023-09-12 Christian speaker and Bible teacher Wade Joye pushes back against the dominant self help teaching of the day to follow your dreams and encourages us to let go and surrender our lives to God in order to truly live Follow your dreams is the self help message of our day In our schools and universities media and culture and even in church we are taught to dream big work hard and find true happiness in living our dreams And so we spend our lives chasing But as we chase our dreams we can be met with exhaustion anxiety and disappointment Our circumstances may put our dreams in jeopardy or even deny them and we re heartbroken Or we achieve them and just want more Wade Joye offers here a different way Release your grip on your dreams and trust God with your whole life Joye shows that by letting go we are freed from the pressure to secure some ideal unattainable life and instead become open to God and his plans Living a life of daily surrender to God s purpose we begin to see glimpses of God in our present circumstance as he shows us that he more than anyone can be trusted With deep wisdom frank teaching and a pastor s heart Wade guides readers step by step to the place of letting go the place where we find real life      *Dreaming* Jennifer M. Windt,2015-06-05 A comprehensive proposal for a conceptual framework for describing conscious experience in dreams integrating philosophy of mind sleep and dream research and interdisciplinary consciousness studies Dreams conceived as conscious experience or phenomenal states during sleep offer an important contrast condition for theories of consciousness and the self Yet although there is a wealth of empirical research on sleep and dreaming its potential contribution to consciousness research and philosophy of mind is largely overlooked This might be due in part to a lack of conceptual clarity and an underlying disagreement about the nature of the phenomenon of dreaming itself In *Dreaming* Jennifer Windt lays the groundwork for solving this problem She develops a conceptual framework describing not only what it means to say that dreams are conscious experiences but also how to locate dreams relative to such concepts as perception hallucination and imagination as well as thinking knowledge belief deception and self consciousness Arguing that a conceptual framework must be not only conceptually sound but also phenomenologically plausible and carefully informed

by neuroscientific research Windt integrates her review of philosophical work on dreaming both historical and contemporary with a survey of the most important empirical findings This allows her to work toward a systematic and comprehensive new theoretical understanding of dreaming informed by a critical reading of contemporary research findings Windt s account demonstrates that a philosophical analysis of the concept of dreaming can provide an important enrichment and extension to the conceptual repertoire of discussions of consciousness and the self and raises new questions for future research
