When we tried to figure out guidelines in education, we couldn't find a practical overview of the subject. We invited experts to lecture to groups, but somehow it didn't help.

Well, Margaret had the best we could find, and all went well until we moved. The school near our new home turned out to be a blight on our youngster's life. Why? One reason was that the program of learning just didn't fit this particular child. Although we hadn't been able to organize an overall understanding of the subject, by now we were experienced enough parents to realize that something was badly wrong; drastic action had to be taken. We took Margaret out of school. Suddenly our child revived. She read books, played in the garden, worked alongside of us, enjoyed music. But an inspector didn't feel this education was satisfactory. Margaret should be in school. At that time, we didn't realize that he was wrong. The law in England allows for "education otherwise than at school." Eleven years later, Margaret's younger brother and sister were able to enjoy home-based education. But at that earlier time we sadly accepted that in the law's eyes "education" equals a schoolroom. In this case it meant two frustrating years, with forty children to one teacher. Was this what a child's life was meant to be? A drive to a closed-off cement area, a crowded room, a day so tiring that at the end Margaret and her younger sister came home taut with exhaustion?

We did the best we could in the hours spent away from school. But our prayers were becoming pretty desperate. And then, unexpectedly, the answer came.

The end of that story must wait to be told later in this book. Suffice it to say that the answers came when we found a little school run in a cottage. After our children went there, we realized that here was something really different. What was it? It seemed that

For A Childs Sake:

For the Children's Sake Susan Schaeffer Macaulay, 2009-06-17 Provides a Christian perspective on how to make education a meaningful experience at home or at school for parents students and educators For Their Child's Sake Jules Bennett, 2019-06-01 A traumatic playground injury reunites a broken family in this heartwarming romance of faith forgiveness and second chances Two years ago Sam Bailey's addiction to prescription drugs shattered his marriage Losing his wife and daughter was devastating for him but when his daughter loses her memory Sam gets the chance to finally be the father she deserves Despite their still powerful attraction Tara isn t ready to trust her estranged husband again But Sam sees a chance to fight for their future to redeem himself in Tara's eyes He needs them to be a family again even better and What Is Right for Children? Karen Worthington, 2016-02-11 Combining feminist legal theory with stronger than before international human rights concepts this book examines the presence participation and treatment of children in a variety of contexts Specifically through comparing legal developments in the US with legal developments in countries where the views that children are separate from their families and potentially in need of state protection are more widely accepted The authors address the role of religion in shaping attitudes about parental rights in the US with particular emphasis upon the fundamentalist belief in natural lines of familial authority Such beliefs have provoked powerful resistance in the US to human rights approaches that view the child as an independent rights holder and the state as obligated to proved services and protections that are distinctly child centred Calling for a rebalancing of relationships within the US family to become more consistent with emerging human rights norms this collection contains both theoretical debates about and practical approaches to granting positive rights to children **The Risk of a Lifetime** Rivka Weinberg, 2017 This original comprehensive theory of procreative ethics explains what kind of act procreation is and when we may permissibly engage in it In order to ascertain when the procreative risk is permissible to impose Weinberg proposes contractualist principles to fairly attend to the interests prospective parents have in procreating and the interests future people have in a life of human flourishing The book presents a solution to the non identity problem as well as dilemmas regarding our liberal principles of autonomy consent and equality which may seem to be in tension with our procreative practices A Man's Value to The Bay View Magazine ,1899 Licensing Parents Michael McFall, Laurence **Society** Newell Dwight Hillis, 1897 Thomas, 2009-01-16 In Licensing Parents Michael McFall argues that political structures economics education racism and sexism are secondary in importance to the inequality caused by families and that the family plays the primary role in a child s acquisition of a sense of justice He demonstrates that examination of the family is necessary in political philosophy and that informal structures families and considerations character formation must be taken seriously McFall advocates a threshold that should be accepted by all political philosophers children should not be severely abused or neglected because child maltreatment often causes deep and irreparable individual and societal harm The implications of this threshold are

revolutionary but this is not recognized fully because no philosophical book has systematically considered the ethical or political ramifications of child maltreatment By exposing a tension between the rights of children and adults McFall reveals pervasive ageism parental rights usually trump children's rights and this is often justified because children are not fully autonomous Yet parental rights should not always trump children's rights Ethics and political philosophy are not only about rights but also about duties especially when considering potential parents who are unable or unwilling to provide minimally decent nurturance While contemporary political philosophy focuses on adult rights McFall examines systems whereby the interests and rights of children and parents are better balanced This entails exploring when parental rights are defeasible and defending the ethics of licensing parents whereby some people are precluded from rearing children He argues that if a sense of justice is largely developed in childhood parents directly influence the character of future generations of adults in political society A completely stable and well ordered society needs stable and psychologically healthy citizens in addition to just laws and McFall demonstrates how parental love For the Children's Sake Susan Schaeffer Macaulay, 1984
