David Spring, Eileen Spring

Ecology And Religion In History:

Ecology and Religion in History David Spring, Eileen Spring, 1974 **Ecology and religion in history** David Spring, Eileen Spring, 1978 *Ecology and Religion in History* David Spring, Eileen Spring, 1974 **Ecology and Religion** John Grim, Mary Evelyn Tucker, 2014-01-02

From the Psalms in the Bible to the sacred rivers in Hinduism the natural world has been integral to the world's religions. John Grim and Mary Evelyn Tucker contend that today's growing environmental challenges make the relationship ever more vital. This primer explores the history of religious traditions and the environment illustrating how religious teachings and practices both promoted and at times subverted sustainability. Subsequent chapters examine the emergence of religious ecology as views of nature changed in religious traditions and the ecological sciences. Yet the authors argue that religion and ecology are not the province of institutions or disciplines alone. They describe four fundamental aspects of religious life: orienting, grounding, nurturing, and transforming. Readers then see how these phenomena are experienced in a Native American religion, Orthodox Christianity, Confucianism, and Hinduism. Ultimately Grim and Tucker argue that the engagement of religious communities is necessary if humanity is to sustain itself and the planet. Students of environmental ethics, theology, and ecology, world religions, and environmental studies will receive a solid grounding in the burgeoning field of religious ecology.

[A Companion to Global Environmental History](#) J. R. McNeill, Erin Stewart Mauldin, 2025-02-06

A COMPANION TO GLOBAL ENVIRONMENTAL HISTORY Equips both specialists and newcomers with the historical intellectual and political context for engagement with the environment. Providing multiple points of entry into a dynamic, fast-growing field, *A Companion to Global Environmental History* explores the many contours of the relationship between human societies and the natural world on which they depend. Bringing together essays by an international roster of both established experts and emerging scholars, this volume covers a uniquely broad range of temporal, geographic, thematic, and contextual approaches to the practice of global environmental history. Thirty-three detailed chapters describe how the relationship between society and nature has changed over time, examine the various drivers of change and environmental transformations, survey different types of environmental thought and action around the world, and more. Now in its second edition, the Companion is fully revised to reflect major research developments and new trajectories within the field. Updated chapters that present new evidence for longstanding debates and innovative applications of environmental history are accompanied by six entirely new chapters on India, China, Africa, early modern cities, global environmental governance, and European environmentalism. Offering fresh insights into environmental thought, culture, policy, and politics, *A Companion to Global Environmental History* Second Edition is an ideal textbook for undergraduate and graduate students and an invaluable reference for scholars, researchers, and environmental historians.

[The Natural History of the Bible](#) Daniel Hillel, 2006

Traversing river valleys, steppes, deserts, rain-fed forests, farmlands, and seacoasts, the early Israelites experienced all the contrasting ecological domains of the ancient Near East. As they grew from a nomadic clan to become a

nation state in Canaan they interacted with indigenous societies of the region absorbed selective elements of their cultures and integrated them into a radically new culture of their own Daniel Hillel reveals the interplay between the culture of the Israelites and the environments within which it evolved More than just affecting their material existence the region's ecology influenced their views of creation and the creator their conception of humanity's role on Earth their own distinctive identity and destiny and their ethics In *The Natural History of the Bible* Hillel shows how the eclectic experiences of the Israelites shaped their perception of the overarching unity governing nature's varied manifestations Where other societies idolized disparate and capricious forces of nature the Israelites discerned essential harmony and higher moral purpose Inspired by visionary prophets they looked to a singular omnipresent omnipotent force of nature mandating justice and compassion in human affairs Monotheism was promoted as state policy and centralized in the Temple of Jerusalem After it was destroyed and the people were exiled a collection of scrolls distilling the nation's memories and spiritual quest served as the focus of faith in its stead A prominent environmental scientist who surveyed Israel's land and water resources and has worked on agricultural development projects throughout the region Daniel Hillel is a uniquely qualified expert on the natural history of the lands of the Bible Combining his scientific work with a passionate life long study of the Bible Hillel offers new perspectives on biblical views of the environment and the origin of ethical monotheism as an outgrowth of the Israelites' internalized experiences

The Columbia Guide to Religion in American History Paul Harvey, Edward Blum, 2012-02-14 Introduction major themes in American religious history Paul Harvey and Edward J Blum Colonial encounters Linford D Fisher Native American religions Suzanne Crawford O'Brien Civil religion and national identity Andrew M Manis Theology Mark Noll Evangelicals in American history Douglas A Sweeney Religion and politics Jason C Bivins Religion and the law in American history Frank S Ravitch Religion war and peace Ira R Chernus Religion gender and sexuality Anthony Michael Petro Religion race and African American life Edward J Blum Religion ethnicity and the immigrant experience Roberto R Trevi o Asian American religions Timothy Tseng Alternative religious movements in American history Stephen J Stein Religion and the environment Lynn Ross Bryant Religion and popular culture Philip Goff Religious conservatism and fundamentalism Margaret Bendroth Catholicism in America Leslie Woodcock Tentler American Judaism Alan T Levenson The Church of Jesus Christ of Latter day Saints Mormons D Michael Quinn Islam in America Jane Smith

Religious Harmony Michael Pye, Edith Franke, Alef Theria Wasim, Abdurrahman Mas'ud, 2012-02-13 It is crucial today to understand how religions can exist harmoniously in a shared environment whether local or global A reasoned approach to this question was sought by participants at a stimulating conference of the International Association for the History of Religions IAHR in a predominantly Muslim country Indonesia Themes treated include the relation between theoretical approaches and religious viewpoints practical problems and conflict resolution at the local level and religious education with special reference to the role of Muslim schools pesantren in Indonesia

The Origins and History of Religions John

Murphy,1952 **Biodiversity Conservation Ethics in Major Religions** H. S. A. Yahya,2010-10-22 Covering three broader issues biodiversity conservation religious doctrine and environment the book Biodiversity Conservation Ethics in Major Religions is the result of a unique approach It attempts to initiate scientific discourse through the fabric of religions Spread across 15 chapters the book covers the essence of 10 religions on biodiversity encompassing a wide range of issues related to conservation The book promises to be a useful resource for biodiversity students researchers and protected area managers and also for religious scholars who are invited to look at the broader themes of religions beyond theology *Ecowomanism* Harris, Melanie L.,2017-09-14 Melanie Harris argues that African American women make unique contributions to the environmental justice movement in the ways that they theologize theorize practice spiritual activism and come into religious understandings about their relationship with the earth This unique text stands at the intersection of several academic disciplines womanist theology eco theology spirituality and theological aesthetics **Christianity and Ecology** Elizabeth Breuilly,1992 Each book in the World Religions and Ecology series deals with the teachings beliefs history and present day attitudes and contribution of a particular faith to the environment Science of Religion. Studies in Methodology Lauri Honko,2011-12-07 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline The Routledge Handbook of Religion and Cities Katie Day,Elise M. Edwards,2020-12-31 Like an ecosystem cities develop change thrive adapt expand and contract through the interaction of myriad components Religion is one of those living parts shaping and being shaped by urban contexts The Routledge Handbook of Religion and Cities is an outstanding interdisciplinary reference source to the key topics problems and methodologies of this cutting edge subject Representing a diverse array of cities and religions the common analytical approach is ecological and spatial It is the first collection of its kind and reflects state of the art research focusing on the interaction of religions and their urban contexts Comprising 29 chapters by a team of international contributors the Handbook is divided into three parts Research methodologies Religious frameworks and ideologies in urban contexts Contemporary issues in religion and cities Within these sections emerging research and analysis of current dynamics of urban religions are examined including housing economics and gentrification sacred ritual and public space immigration and the refugee crisis political conflicts and social change ethnic and religious diversity urban policy and religion racial justice architecture and the built environment religious art and symbology religion and urban violence technology and smart cities the challenge of climate change for global cities and religious meaning making of the city The Routledge Handbook of Religion and Cities is essential reading for students and researchers in religious studies and urban studies The Handbook will

also be very useful for those in related fields such as sociology history architecture urban planning theology social work and cultural studies

Religion and Ecological Crisis Todd LeVasseur, Anna Peterson, 2016-07-01 In 1967 Lynn White Jr's seminal article *The Historical Roots of Our Ecologic Crisis* was published essentially establishing the academic study of religion and nature White argues that religions particularly Western Christianity are a major cause of worldwide ecological crises He then asserts that if we are to halt let alone revert anthropogenic damages to the environment we need to radically transform religious cosmologies White's hugely influential thesis has been cited thousands of times in a variety of disciplines including but not limited to religious studies environmental ethics history ecological science philosophy psychology and anthropology In practical terms the ecological crisis to which White was responding has only worsened in the decades since the article was published This collection of original essays by leading scholars in a variety of interdisciplinary settings including religion and nature environmental ethics animal studies ecofeminism restoration ecology and ecotheology considers the impact of White's arguments offering constructive criticism as well as reflections on the ongoing ever changing scholarly debate about the way religion and culture contribute to both environmental crises and to their possible solutions *Religion and Ecological Crisis* addresses a wide range of topics related to White's thesis including its significance for environmental ethics and philosophy the response from conservative Christians and evangelicals its importance for Asian religious traditions ecofeminist interpretations of the article and which perspectives might have ultimately been left out of his analysis This book is a timely reflection on the legacy and continuing challenge of White's influential article

Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures Helaine Selin, 2008-03-12 Here at last is the massively updated and augmented second edition of this landmark encyclopedia It contains approximately 1000 entries dealing in depth with the history of the scientific technological and medical accomplishments of cultures outside of the United States and Europe The entries consist of fully updated articles together with hundreds of entirely new topics This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non Western Science such as rationality objectivity and method You'll also find material on religion and science East and West and magic and science

Ecological Imaginations in the World Religions Tony Watling, 2011-10-20 The field of religion and ecology is an emerging and growing movement that is becoming relevant and influential in the world It seeks to analyse encourage inspire use compare and combine religious traditions to engage and shape environmental issues Tony Watling seeks to ethnographically analyse this important field and its expressions In particular he analyses and compares its explorations of different world religions for ecological themes and the resulting expressions of ecological visions in what he terms religious ecotopias idealized environmentally friendly re imaginings of nature and humanity and correspondingly religion which seek to influence environmental attitudes

Muhammad in History, Thought, and Culture Coeli Fitzpatrick

Ph.D.,Adam Hani Walker,2014-04-25 This in depth examination of the life history and influence of Muhammad as discussed by leading scholars provides a wide ranging look at the prophet s legacy unlike any other in the field of Islamic and culture studies Within the Islamic world the prophet Muhammad s influence is profound But even outside of the religion of Islam this visionary had a wide ranging impact on history society literature art philosophy and theology Within this work s more than 200 A Z entries internationally recognized scholars summarize views of Muhammad from the earliest editors of the Qu ran to contemporary Muslim theologians This detailed resource explores the traditions ceremonies and beliefs of Islam as they have spread worldwide and examines Muhammad s role in other religious traditions as well as the secular world Muhammad in History Thought and Culture An Encyclopedia of the Prophet of God distills 14 centuries of thinking about Muhammad fully capturing his enduring legacy This encyclopedia will benefit any reader seeking a greater understanding of the founder of Islam the fastest growing religion in the world No other publication discusses Muhammad at such a high level of detail while remaining easily accessible to non specialist Western audiences **Religion and Ecological Sustainability in China**

James Miller,Dan Smyer Yu,Peter van der Veer,2014-04-29 This book sheds light on the social imagination of nature and environment in contemporary China It demonstrates how the urgent debate on how to create an ecologically sustainable future for the world s most populous country is shaped by its complex engagement with religious traditions competing visions of modernity and globalization and by engagement with minority nationalities who live in areas of outstanding natural beauty on China s physical and social margins The book develops a comprehensive understanding of contemporary China that goes beyond the tradition modernity dichotomy and illuminates the diversity of narratives and worldviews that inform contemporary Chinese understandings of and engagements with nature and environment Understanding Seeking Faith: Society, history, and the political and philosophical uses of Judaism Jacob Neusner,1988
