Economic History Of Bengal 1793 1848 V3:

The Modern World-System III Immanuel Wallerstein, 2011-06-10 Immanuel Wallerstein's highly influential multi volume opus *The Modern World System* is one of this century's greatest works of social science. An innovative panoramic reinterpretation of global history, it traces the emergence and development of the modern world from the sixteenth to the twentieth century.

Merchants and Colonialism Amiya Kumar Bagchi, 2018-12-13 Amiya Kumar Bagchi's *Merchants and Colonialism* is a landmark work in economic history and sociology. The author shows us how colonial rule put traders and manufacturers under immense pressure, forcing them to look for survival strategies in a changed economic environment. This resulted in long term de industrialization and irreversible damage to traditional modes of production which had far reaching economic consequences for India after Independence.

Routledge Library Editions: Urban History Various Authors, 2021-02-25 The volumes in this set originally published between 1940 and 1994 draw together research by leading academics in the area of welfare and the welfare state and provide a rigorous examination of related key issues. The volumes examine welfare policy, equality, poverty, class, government, social policy, unemployment and social services whilst also exploring the general principles and practices of welfare and the welfare state in various countries. This set will be of particular interest to students of sociology, health and political studies respectively.

The Santal Rebellion 1855-1856 Peter B. Andersen, 2022-11-22 The book presents a new interpretation of the Santal Rebellion the Hul 1855-1856 drawing on the colonial sources as well as Santal memories. It offers a critique of postcolonial approaches that overlook specifically tribal perspectives and see the Hul as a class based peasant rebellion. The author analyses the Hul and its participants the Santals and their opponents both the colonial administration and the Bengalis. He also looks at the attempts of the Hul's leaders Sido and K nhu to reform the Santal religion. Offering a new respectful reading of the Hul's religious legitimization, the book argues that changes in Santal religion and ethics were responses to the colonial regime's new and aggressive economic order. The Hul's leaders Sido and K nhu demanded the introduction of just laws based on the universal principle of equality. This historical approach leads to a call for the inclusion of the voice of tribal and Adivasi minorities when formulating politics for their development in the 21st century. The book is relevant for researchers and students of social history, social reform, tribal and indigenous studies, postcolonial studies and South Asian studies.

This book and its companion *Colonial Calcutta* is a biographical account of the when, the how and the what of a global city and its emergence under colonial rule in the 1800s. He examines the historical and geopolitical factors that were significant in securing its prominence and its subsequent urbanization which was a colonial experience without an antecedent.
