Takougang,2014-03-06 Although Cameroon s image as a stable nation with a strong economy may have mitigated against any large scale migration by Cameroonians following independence the economic collapse beginning in the mid 1980s and the coerced implementation of democratic reforms in the early 1990s exposed fault lines in the nation s economic and political institutions As a result thousands of Cameroonians have left the country in search of a better life abroad While Europe remains the favorite destination for many of these migrants a significant number have also come to the United States Cameroonian Immigrants in the United States examines the increase in the population of Cameroonians in the United States in the last two decades the difficulties that many of them must endure in order to come to America and the challenges they face adapting to their new environment Despite the problems they face these new immigrants are creating a home in America At the same time however they remain connected to their country of birth through remittances to friends and family members and other forms of investments and development projects in their communities

**Immigration and Welfare State Retrenchment** Dennis C. Spies,2018-03-21 Is large scale immigration to Europe incompatible with the continent s generous and encompassing welfare states Are Europeans willing to share welfare benefits with ethnically different and often less well off immigrants Or do they regard the newcomers as undeserving and their claim for welfare rights as unjustified These questions are at the heart of what has to become known as the New Progressive Dilemma debate and the predominant answers given to them are rather pessimistic Pointing to the experiences of the US where a multi racial society in combination with a longstanding history of immigration encounters very limited welfare provision many Europeans fear that the continent s new immigrant based heterogeneity may push it toward more American levels of redistribution But are the conflictual US experiences really resembled in the European context Immigration and Welfare State Retrenchment addresses this question by connecting the New Progressive Dilemma debate with comparative welfare state and party research in order to analyse the role ethnic diversity plays for welfare reforms in the US and Europe Whereas the combination of racial patterns and party politics had and still has serious consequences for the US welfare system the general message of the book is that these are not resembled in the Western European context While many Europeans are very critical of immigration and willing to ban immigrants from welfare benefits both the institutional design of European welfare programs and the economically divided anti immigrant movement prevent immigration concerns from translating into actual retrenchment in

the core areas of welfare      **Labour Immigration in Southern Europe** Cristobal Mendoza, 2018-05-08 This title was first published in 2003 Research on migration into southern Europe has paid little consideration to the ways of incorporating immigrants into labour markets and the impact these foreign born workers have on local labour markets Neither has much attention been given to the character of labour markets that enables these workers to find a job This book fills that gap by exploring case studies of African employment in Spain and Portugal Using cross border perspectives this book provides in depth analysis of common trends across borders such as immigrant employment in manual low skilled jobs uneven immigrant involvement in labour markets and the impact of national characteristics economies and political environments The result is a study which should be useful for migration specialists economic geographers and labour market analysts alike      **Language Learning of Adult Migrants in Europe** Glenn S. Scoville, 1991      *The Migrants Table* Krishnendu Ray, 2004-09 To most of us the food that we associate with home our national and familial homes is an essential part of our cultural heritage No matter how open we become to other cuisines we regard home cooking as an intrinsic part of who we are In this book Krishnendu Ray examines the changing food habits of Bengali immigrants to the United States as they deal with the tension between their nostalgia for home and their desire to escape from its confinements As Ray says This is a story about rice and water and the violations of geography by history Focusing on mundane matters of immigrant life for example what to eat for breakfast in America he connects food choices to issues of globalization and modernization By showing how Bengali immigrants decide what defines their ethnic cuisine and differentiates it from American food he reminds us that such boundaries are uncertain for all newcomers By drawing on

**From Migrants to Refugees** Jill Rosenthal,2023-10-06 In From Migrants to Refugees Jill Rosenthal tells the history of how Rwandan migrants in a Tanzanian border district became considered either citizens or refugees as nation state boundaries solidified in the wake of decolonization Outlining the process by which people who have long lived and circulated across the Rwanda Tanzania border came to have a national identity Rosenthal reveals humanitarian aid s central role in the ideological processes of decolonization and nation building From precolonial histories to the first Rwandan refugee camps during decolonization in the 1960s to the massive refugee camps in the 1990s Rosenthal highlights the way that this area became a testing ground for novel forms of transnational aid to refugees that had global implications As local and national actors refugees and international officials all attempted to control the lives and futures of refugee groups they contested the authority of the nation state and the international refugee regime This history Rosenthal demonstrates illuminates how tensions between state and international actors divided people who share a common history culture and language across national borders

**Global Migration beyond Limits** Franklin Obeng-Odoom,2021-12-09 Global Migration beyond Limits takes a critical approach to mainstream economic accounts of migration environment and inequality Drawing on a range of case studies from Africa the Middle East Asia Australia Europe and the Americas Obeng Odoom argues that much of the crisis of migration can be understood as a reflection of cumulative stratification at different scales in the global system though the form of migration is conditioned by more than economic forces Examining the experiences of migrant farmers street workers refugees international students and many more this book shows that the so called migration crisis is an expression of a political economic system in which socially created value is privately appropriated as rents by a privileged few who use institutions such as land and property rights race ethnicity class and gender to keep others in their place

**Border Jumping and Migration Control in Southern Africa** Francis Musoni,2020-04-07 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe the border between these Southern African countries has become one of the busiest inland ports of entry in the world As border crossers wait for clearance crime violence and illegal entries have become rampant Francis Musoni observes that border

jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this including searches for better paying jobs and access to food and clothing at affordable prices Musoni sets these actions into a framework of illegality He considers how countries have failed to secure their borders why passports are denied to travelers and how border jumping has become a phenomenon with a long history especially in Africa Musoni emphasizes cross border travelers active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk
