**The Economic Realities of Political Reform** James L. Regens, Ronald Keith Gaddie, 1995-04-28 A central political issue in American politics during the 1990s is the need for political campaign reform A variety of proposals have been advanced to reform the system of congressional elections most notably in relation to campaign financing The authors examine U S Senate elections to determine the role money plays in the contests their analysis indicates that the system of campaign finance resembles a market with legislators serving as the recipients of financial largesse based on their institutional positions and political vulnerability This rent seeking relationship between economic interests and legislators has transformed the dynamic of Senate elections Assessing the potential impact of several electoral reform proposals Professors Regens and Gaddie argue that debates over the nature and consequences of proposed changes in election finance are often waged without an underlying point of theoretical reference In addition little consideration is placed upon impacts relative to each other or collectively on the political system Spending limits and public funding proposals they contend will not have the effects expected by reform advocates Term limit and public funding proposals would disrupt the rent seeking relationship between legislators and economic interests and these proposals would also face political and constitutional barriers to implementation

**Small Change** Raymond J. La Raja, 2010-03-25 Reformers lament that with every effort to regulate the sources of campaign funding candidates creatively circumvent the new legislation But in fact political fundraisers don't need to look for loopholes because as Raymond J La Raja proves legislators intentionally design regulations to gain advantage over their partisan rivals La Raja traces the history of the U S campaign finance system from the late nineteenth century through the passage of the Bipartisan Campaign Reform Act BCRA of 2002 Then using the 2004 presidential election as a case study he compares the ways in which Democrats and Republicans adapted their national fund raising and campaigning strategies to satisfy BCRA regulations Drawing upon this wealth of historical and recent evidence he concludes with recommendations for reforming campaign finance in ways that promote fair competition among candidates and guarantee their accountability to voters Small Change offers an engaging account of campaign finance reforms contradictory history it is a must read for anyone concerned about influence of money on democratic elections
