A History of Marxian Economics, Volume II Michael Charles Howard, John Edward King, 2014-07-14 This second volume completes a critical history of the social, political and theoretical forces behind Marxian economics, the only work in English to offer such comprehensive treatment. Beginning with Marxian analyses of the Great Depression and Stalinism, it explores the theories developed to explain the long boom in Western capitalism after the Second World War. Later chapters deal with post-Leninist theories of imperialism and continuing controversies in value theory and the theory of exploitation. After outlining recent work on the second slump, the integration of rational choice theory into Marxism and the political economy of socialism, the book concludes with a review and evaluation of Marxian theory over the whole period since Marx's death. Praise for the first volume: Howard and King have done an excellent job. One comes away with the impression of Marxian economics being a vibrant subject relevant to the problems of these times and useful in practical matters. Meghnad Desai, *The Times Higher Education Supplement*. Determinants Of Emigration From Mexico, Central America, And The Caribbean Sergio Diaz-Briquets, 2019-03-07 The Immigration Reform and Control Act of 1986 (IRCA) was a manifestation of widespread public concern over the volume of undocumented immigration into the United States. The principal innovation of this legislation, the provision to impose penalties on employers who knowingly hire undocumented immigrants, was a response to this concern. This effort at restriction was tempered in IRCA by other provisions permitting the legalization of two types of undocumented immigrants: those who had resided in the United States since January 1, 1982 and what were called special agricultural workers (SAWs), persons who had worked in perishable crop agriculture for at least 90 days during specified periods from 1983 to 1986. Approximately 3.1 million persons sought legalization, what is popularly

referred to as amnesty under these two provisions The breakdown was roughly 1.8 million under the regular program and 1.3 million as SAWs Mexicans made up 75 percent of the combined legalization requests

Pampuch, 2024-04-22 The presence of Africans in the German Democratic Republic is very rarely thought of in connection with the experience of exile. Instead, Africans in the GDR are predominantly viewed through the prism of educational and labor migration. While such research has undoubtedly produced valuable insights, it often fails to adequately account for the implicit Eurocentrism, methodological nationalism, and anti-communist bias inherent in Western knowledge production. This study offers a different approach. Through biographical portrayal, it unfolds the life stories of African freedom fighters who lived in exile in the GDR and ultimately remained in reunified Germany, with the main case study being a Malawian activist who was expelled from East to West Berlin. Recounting his experiences along with those of some South African exiles, chief among them a former medical worker for the ANC's armed wing, the study ethnographically reconstructs the multiple entanglements between the Second and Third Worlds from the vantage point of the politically displaced within the concrete historical contexts of African decolonization, the struggle against the Malawian Banda dictatorship, and the struggle against South African apartheid.
