Perilous Passage Amiya Kumar Bagchi, 2008-01-28 In this innovative and ambitious global history distinguished economic historian Amiya Kumar Bagchi traces the global history of human change and survival under the sway of capitalism since the voyages of Columbus Writing with extraordinary range and depth he offers a critical analysis of the history and human costs and consequences of development in Europe and North America and in major regions such as India, China, Japan and Africa Bagchi critically characterizes the emergence and operation of capitalism as a system driven by wars over resources and markets rather than one that genuinely operates on the principle of free markets His unflinching examination of the human toll in the periphery as well as in the core nations includes not only economic processes and issues of inequality within and among nations but also the intertwining of economics and war making on a world scale Bagchi's compelling vision will change the ways in which we think about many of the largest issues in the world history and development over the past 500 years

Child Workers in England, 1780-1820 Katrina Honeyman, 2016-05-23 The use of child workers was widespread in textile manufacturing by the late eighteenth century A particularly vital supply of child workers was via the parish apprenticeship trade whereby pauper children could move from the care of poor law officialdom to the care of early industrial textile entrepreneurs This study is the first to examine in detail both the process and experience of parish factory apprenticeship and to illuminate the role played by children in early industrial expansion It challenges prevailing notions of exploitation which permeate historical discussion of the early labour force and questions both the readiness with which parishes offloaded large numbers of their poor children to distant factories and the harsh discipline

assumed to have been universal among early factory masters Finally the author explores the way in which parish apprentices were used to construct a gendered labour force Dr Honeyman's book is a major contribution to studies in child labour and to the broader social economic and business history of the late eighteenth and early nineteenth centuries      **Merchants, Markets and Manufacture** J. Smail, 1999-07-19 This book explores the causes and nature of the industrial revolution through a comparative study of the main wool textile manufacturing regions of England Addressing many of the current debates in economic history and eighteenth century studies through a detailed archivally based analysis it examines how the interplay between merchants markets and producers shaped the pace and character of economic growth during the eighteenth century paying particular attention to the implications of rapid product innovation and the export trade      **The Shaping of Modern Britain** Eric Evans, 2014-01-14 In this wide ranging history of modern Britain Eric Evans surveys every aspect of the period in which Britain was transformed into the world's first industrial power By the end of the nineteenth century Britain was still ruled by wealthy landowners but the world over which they presided had been utterly transformed It was an era of revolutionary change unparalleled in Britain yet that change was achieved without political revolution Ranging across the developing empire and dealing with such central institutions as the church education health finance and rural and urban life The Shaping of Modern Britain provides an unparalleled account of Britain's rise to superpower status Particular attention is given to the Great Reform Act of 1832 and the implications of the 1867 Reform Act are assessed The book discusses the growing role of the central state in domestic policy making the emergence of the Labour party the Great Depression the acquisition of a vast territorial empire Comprehensive informed and engagingly written The Shaping of Modern Britain will be an invaluable introduction for students of this key period of British history      **The Economics of Thomas Robert Malthus** Samuel Hollander, 1997-01-01 Hollander investigates the relation of Malthusian economics to that of the other great classicists particularly Smith Ricardo J B Say and the French physiocrats He redefines our common perception of Malthus's method and character      **Albion's People** John Rule, 2014-06-11 This second volume of John Rule's major two volume portrait of Georgian England is a comprehensive and authoritative survey of eighteenth century society incorporating the exciting new research findings of recent years It deals in turn with the upper class middling sort and lower orders with popular education religion and culture with standards of living in town and country and with crime punishment and protest The book which is as rich and varied as the age it explores ends with an assessment of continuity and change across the century      *Pay Up and Play the Game* Wray Vamplew, 2004-01-29 This 1988 book presents an analysis of the emergence of mass spectator sport during the years prior to World War I      **The Age of Improvement, 1783-1867** Asa Briggs, 2014-06-17 The Age of Improvement has long established itself as a classic of modern historical writing Widely read and quoted it has had a unique influence on teaching and research This second edition draws on the great volume of new research produced by Lord Briggs amongst others since its original publication The book stresses both the underlying unity
