## **Economic Rationalism And Rural Society In Third Century Ad Egypt:**

Economic Rationalism and Rural Society in Third-Century AD Egypt Dominic Rathbone,1991-09-12 This book reconstructs the life and workings of the Appianus estate in the Fayum district of Egypt under Roman rule in the third century AD Basing his study on the extensive documentary evidence of the Heroninos archive consisting of hundreds of letters and accounts on papyrus Dr Rathbone examines the nature of rural society at the time Economic Rationalism and Rural Society in Third-century A.D. Egypt Dominic Rathbone,1991 The Ancient Economy M. I. Finley,1999-03 The Ancient Economy holds pride of place among the handful of genuinely influential works of ancient history This is Finley at the height of his remarkable powers and in his finest role as historical iconoclast and intellectual provocateur It should be required reading for every student of pre modern modes of production exchange and consumption Josiah Ober author of *Political Dissent in Democratic Athens* *Honor and Profit* Darel Tai Engen,2010 A new assessment of the ancient Athenian economy relying on fresh documentary evidence **The Oxford Handbook of Roman Egypt** Christina Riggs,2012-06-21 Roman Egypt is a critical area of interdisciplinary research which has steadily expanded since the 1970s and continues to grow Egypt played a pivotal role in the Roman empire not only in terms of political economic and military strategies but also as part of an intricate cultural discourse involving themes that resonate today east and west old world and new acculturation and shifting identities patterns of language use and religious belief and the management of agriculture and trade Roman Egypt was a literal and figurative crossroads shaped by the movement of people goods and ideas and framed by permeable boundaries of self and space This handbook is unique in drawing together many different strands of research on Roman Egypt in order to suggest both the state of knowledge in the field and the possibilities for collaborative synthetic and interpretive research Arranged in seven thematic sections each of which includes essays from a variety of disciplinary vantage points and multiple sources of information it offers new perspectives from both established and younger scholars featuring individual essay topics themes and intellectual juxtapositions **The Dynamic Society** Graeme Snooks,2002-09-11 This book discusses the nature and process of change in human society over the past two million years The author draws on economic historical and biological concepts to examine the driving forces of change and looks to likely developments in the future This analysis produces some very thought provoking and controversial conclusions **Exploring the Economy of Late Antiquity** Jairus Banaji,2016 This book contributes to a new economic history of late antiquity with tightly argued stimulating studies of class money and exchange Handbook of Ancient Afro-Eurasian Economies Sitta von Reden,2021-12-20 The second volume of the Handbook describes different extractive economies in the world regions that have been outlined in the first volume A wide range of economic actors from kings and armies to cities and producers are discussed within different imperial settings as well as the tools which enabled and constrained economic outcomes A central focus are nodes of consumption that are visible in the archaeological and textual records of royal capitals cities religious

centers and armies that were stationed in some cases permanently in imperial frontier zones Complementary to the multipolar concentrations of consumption are the fiscal tributary structures of the empires vis vis other institutions that had the capacity to extract mobilize and concentrate resources and wealth Larger volumes of state issued coinage in various metals show the new role of coinage in taxation local economic activities and social practices even where textual evidence is absent Given the overwhelming importance of agriculture the volume also analyses forms of agrarian development especially around cities and in imperial frontier zones Special consideration is given to road and water management systems for which there is now sufficient archaeological and documentary evidence to enable cross disciplinary comparative research

**The Oxford History of Ancient Egypt** Ian Shaw,2003-10-23 The Oxford History of Ancient Egypt is the only book available providing detailed historical coverage of Egypt from the early Stone Age to its incorporation into the Roman Empire The lively essays and beautiful illustrations portray the emergence and development of the distinctive civilization of the ancient Egyptians covering the period from 700 000 BC to ad 311 The authors each working at the cutting edge of their particular fields outline the principal sequence of political events including detailed examinations of the three so called Intermediate Periods previously regarded as dark ages Against the backdrop of the rise and fall of ruling dynasties this Oxford History also examines cultural and social patterns including stylistic developments in art and literature The pace of change in such aspects of Egyptian culture as monumental architecture funerary beliefs and ethnicity was not necessarily tied to the rate of political change Each of the authors has therefore set out to elucidate in both words and pictures the underlying patterns of social and political change and to describe the changing face of ancient Egypt from the biographical details of individuals to the social and economic factors that shaped the lives of the population as a whole

**The Oxford History of Ancient Egypt** Ian Shaw,2000-08-31 The Oxford History of Ancient Egypt describes the emergence and development of the distinctive civilization of the ancient Egyptians from their prehistoric origins to their conquest by the Persians Greeks and Romans It describes the changing nature of life and death in the Nile valley including some of the earliest masterpieces of art architecture and literature in the ancient world The Oxford History of Ancient Egypt is the only up to date single volume history of ancient Egypt available in English The accessible essays and attractive illustrations portray the emergence and development of the distinctive civilization of the ancient Egyptians from their prehistoric origins to their incorporation into the Roman Empire covering the period from c 700 000 BC to AD 311 The authors all experts working at the cutting edge of their particular fields outline the principal sequence of political events including detailed examinations of the three so called intermediate periods which were previously regarded as dark ages and are only now beginning to be better understood Against the backdrop of the rise and fall of ruling dynasties this Oxford History also examines cultural and social patterns including stylistic developments in art and literature The pace of change in such aspects of Egyptian culture as monumental architecture funerary beliefs and ethnicity was not necessarily tied to the rate of political change Each of the authors of this

history has therefore set out to elucidate in both words and pictures the underlying patterns of social and political change and to describe the changing face of ancient Egypt from the biographical details of individuals to the social and economic factors that shaped the lives of the population as a whole

**Classics in Progress** T. P. Wiseman, Timothy Peter Wiseman, 2006-01-26 The study of Greco Roman civilisation is as exciting and innovative today as it has ever been This intriguing collection of essays by contemporary classicists reveals new discoveries new interpretations and new ways of exploring the experiences of the ancient world Through one and a half millennia of literature politics philosophy law religion and art the classical world formed the origin of western culture and thought This book emphasises the many ways in which it continues to engage with contemporary life Offering a wide variety of authorial style the chapters range in subject matter from contemporary poets exploitation of Greek and Latin authors via newly discovered literary texts and art works to modern arguments about ancient democracy and slavery and close readings of the great poets and philosophers of antiquity This engaging book reflects the current rejuvenation of classical studies and will fascinate anyone with an interest in western history

*The Oxford Handbook of Greek and Roman Coinage* William E. Metcalf, 2012 A broadly illustrated overview of the contemporary state of Greco Roman numismatic scholarship

**The Ancient Egyptian Economy** Brian Muhs, 2016-08-02 This book is the first economic history of ancient Egypt covering the entire pharaonic period 3000 30 BCE and employing a New Institutional Economics approach It argues that the ancient Egyptian state encouraged an increasingly widespread and sophisticated use of writing through time primarily in order to better document and more efficiently exact taxes for redistribution The increased use of writing however also resulted in increased documentation and enforcement of private property titles and transfers gradually lowering their transaction costs relative to redistribution The book also argues that the increasing use of silver as a unified measure of value medium of exchange and store of wealth also lowered transaction costs for high value exchanges The increasing use of silver in turn allowed the state to exact transfer taxes in silver providing it with an economic incentive to further document and enforce private property titles and transfers

[The Making of Modern Property](#) Anna di Robilant, 2023-07-27 Draws from a wealth of primary sources to outline how classical Roman property law was reinvented by liberal nineteenth century jurists

[The Monetary Systems of the Greeks and Romans](#) W. V. Harris, 2010-04-29 Most people have some idea what Greeks and Romans coins looked like but few know how complex Greek and Roman monetary systems eventually became The contributors to this volume are numismatists ancient historians and economists intent on investigating how these systems worked and how they both did and did not resemble a modern monetary system Why did people first start using coins How did Greeks and Romans make payments large or small What does money mean in Greek tragedy Was the Roman Empire an integrated economic system This volume can serve as an introduction to such questions but it also offers the specialist the results of original research

**Roman Law and Economics** Giuseppe Dari-Mattiacci, Dennis P. Kehoe, 2020 Ancient Rome is the only society in the history of the western

world whose legal profession evolved autonomously distinct and separate from institutions of political and religious power Roman legal thought has left behind an enduring legacy and exerted enormous influence on the shaping of modern legal frameworks and systems but its own genesis and context pose their own explanatory problems The economic analysis of Roman law has enormous untapped potential in this regard by exploring the intersecting perspectives of legal history economic history and the economic analysis of law the two volumes of Roman Law and Economics are able to offer a uniquely interdisciplinary examination of the origins of Roman legal institutions their functions and their evolution over a period of more than 1000 years in response to changes in the underlying economic activities that those institutions regulated Volume I explores these legal institutions and organizations in detail from the constitution of the Roman Republic to the management of business in the Empire while Volume II covers the concepts of exchange ownership and disputes analysing the detailed workings of credit property and slavery among others Throughout each volume contributions from specialists in legal and economic history law and legal theory are underpinned by rigorous analysis drawing on modern empirical and theoretical techniques and methodologies borrowed from economics In demonstrating how these can be fruitfully applied to the study of ancient societies with due deference to the historical context Roman Law and Economics opens up a host of new avenues of research for scholars and students in each of these fields and in the social sciences more broadly offering new ways in which different modes of enquiry can connect with and inform each other *The Roman Agricultural Economy* Alan

Bowman, Andrew Wilson, 2013-05-30 This volume is a collection of studies which presents new analyses of the nature and scale of Roman agriculture in the Mediterranean world from c 100 BC to AD 350 It provides a clear understanding of the fundamental features of Roman agricultural production through studying the documentary and archaeological evidence for the modes of land exploitation and the organisation development of and investment in this sector of the Roman economy Moving substantially beyond the simple assumption that agriculture was the dominant sector of the ancient economy the volume explores what was special and distinctive about it especially with a view of its development and integration during a period of expansion and prosperity across the empire The papers exemplify a range of possible approaches to studying and within limits quantifying aspects of Roman agricultural production marshalling a large quantity of evidence chiefly archaeological and papyrological to address important questions of the organisation and performance of this sector in the Roman world **Alexandria in Late Antiquity** Christopher Haas, 2002-11-05 A valuable and much needed contribution to

the study of Alexandria and late antiquity which presents a vivid and interesting portrait Classical Review A Choice Magazine Outstanding Academic Title Second only to Rome in the ancient world Alexandria was home to many of late antiquity's most brilliant writers philosophers and theologians among them Philo Origen Arius Athanasius Hypatia Cyril and John Philoponus Now in *Alexandria in Late Antiquity* Christopher Haas places these figures within the physical and social context of Alexandria's bustling urban milieu Haas explores the broad avenues and back alleys of Alexandria's neighborhoods its

suburbs and waterfront and aspects of material culture that underlay Alexandrian social and intellectual life Moving between the city's Jewish pagan and Christian blocs he details the fiercely competitive nature of Alexandrian social dynamics In contrast to the notion that Alexandria's diverse communities coexisted peaceably Haas finds that struggles for social dominance and cultural hegemony often resulted in violence and bloodshed Haas concludes that Alexandrian society achieved a certain stability and reintegration a process that resulted in the transformation of Alexandrian civic identity during the crucial centuries between antiquity and the Middle Ages

**Egypt After the Pharaohs, 332 BC-AD 642** Alan K. Bowman, 1996-01-01 Egypt After the Pharaohs treats the period which witnessed the arrival of the Greeks and Hellenistic culture in Egypt the reign of the Ptolemies from Ptolemy I to Cleopatra the conquest by Rome the scientific and cultural achievements of Alexandria and the rise of Christianity The rich social cultural and intellectual ferment of this period comes alive in Alan Bowman's narrative

**The Oxford Handbook of Late Antiquity** Scott Fitzgerald Johnson, 2015-11 The Oxford Handbook of Late Antiquity offers an innovative overview of a period c 300-700 CE that has become increasingly central to scholarly debates over the history of western and Middle Eastern civilizations This volume covers such pivotal events as the fall of Rome the rise of Christianity the origins of Islam and the early formation of Byzantium and the European Middle Ages These events are set in the context of widespread literary artistic cultural and religious change during the period The geographical scope of this Handbook is unparalleled among comparable surveys of Late Antiquity Arabia Egypt Central Asia and the Balkans all receive dedicated treatments while the scope extends to the western kingdoms and North Africa in the West Furthermore from economic theory and slavery to Greek and Latin poetry Syriac and Coptic literature sites of religious devotion and many others this Handbook covers a wide range of topics that will appeal to scholars from a diverse array of disciplines The Oxford Handbook of Late Antiquity engages the perennially valuable questions about the end of the ancient world and the beginning of the medieval while providing a much needed touchstone for the study of Late Antiquity itself

Right here, we have countless book **Economic Rationalism And Rural Society In Third Century Ad Egypt** and collections to check out. We additionally offer variant types and also type of the books to browse. The up to standard book, fiction, history, novel, scientific research, as skillfully as various extra sorts of books are readily available here.
