Economics Of Healthcare Financing:

The Law and Policy of Healthcare Financing Wolf Sauter, Jos Boertjens, Johan van Manen, Misja Mikkers, 2019
Examining the ways and extent to which systemic factors affect health outcomes with regard to quality affordability and access to curative healthcare this explorative book compares tax funded Beveridge systems and insurance based Bismarck systems Containing contributions from national experts The Law and Policy of Healthcare Financing charts and compares the merits of healthcare systems throughout 11 countries from the UK to Colombia [Economics of Health Care Financing](#) Cam Donaldson, Karen Gerard, 1993 This new edition examines the economics of health care systems in a non technical manner highly accessible for economists and non economists alike It is very timely and includes the latest evidence of health care reforms and their implications from a number of countries with different systems **Health Care Financing and Insurance** Francesco Paolucci, 2010-10-28 As a contribution to the search for suitable and sustainable solutions to finance rising medical care expenditures the book proposes a typology of healthcare financing and insurance schemes based on the dimensions of basic vs supplementary services and mandatory vs voluntary coverage to analyse the design and the complex interactions between various financing and insurance arrangements in several OECD countries This study provides a better understanding of the strengths and weaknesses of the financial and organisational structures of different countries healthcare financing and insurance schemes Its main contributions are the development of a novel and rigorous theoretical framework analysing the economic rationales for the optimal design of healthcare financing and insurance schemes and an empirical and institutional analysis investigating the consequences for efficiency and affordability of the complex interactions between basic and supplementary sources of financing **Health Economics and Financing** Thomas E. Getzen, Michael S. Kobernick, 2022-02-08 The latest edition of the gold standard in the economics and financing of health care In the newly revised Sixth Edition of Health Economics and Financing an expert team of authors delivers an authoritative discussion of key topics in the economic and finance issues relevant to health care From cost benefit and cost effectiveness analyses to the economic considerations driving the choices of physicians hospitals and pharmaceutical companies the book explores the influence of financial considerations both public and private that remain front of mind for modern health care decision makers **Theory and Practice of Managed Competition in Health Care Finance** A.C. Enthoven, 2014-04-23 These lectures review the research and experience on the subject of health care economy The author also sets down a moderately rigorous statement of the economic concepts underlying the kind of competition that he regards as the most promising way to achieve a reasonable degree of equity and efficiency in health care The first lecture is on the public policy goals of health care financing and delivery and discusses efficiency in health care The second presents an economic analysis of the systems for organizing and financing medical care systems in the United States The third lecture is about managed competition and the fourth reviews American experience with efforts to convert from the traditional system to a competitive system The book

is addressed primarily to economists health policy makers and health services researchers It explains how market forces may be managed in pursuit of equity and efficiency in health care It addresses systematically many of the causes of market failure and proposes a strategy managed competition for overcoming them It should be of interest to policy makers in any country interested in incentives for more efficient health care delivery It should also be very useful supplemental reading for courses in health care economics

Serious and Unstable Condition Henry Aaron,2010-12-01 The United States spends more on health care than any other nation in the world yet millions of Americans cannot afford basic care for acute illnesses few are insured against the costs of long term care and many frequently used medical procedures have never been fully evaluated The goals of controlling spiraling health care costs and extending insurance coverage or even maintaining current insurance coverage seem to be in conflict But progress can be made on both goals if they are tacked together Henry Aaron evaluates these critical issues and explores how adequate care can be provided without fueling inflation Because the current arrangements for financing America s health care cannot endure Aaron contends that a major national debate on the restructuring of the U S system of financing health care is inescapable and major legislation is likely *Serious and Unstable Condition* offers a guide that is crucial to understanding the reform debate It explains the important economic issues of health care as a background for evaluating both the current system and proposals for change Aaron compares the U S system of health care financing with certain foreign systems and reviews major options for reform He cautions that unless the health insurance system is radically changed the number of uninsured will continue to increase and costs will continue to escalate He then offers his own comprehensive plan to address these problems

Financing Universal Access To Healthcare: A Comparative Review Of Landmark Legislative Health Reforms In The Oecd Alexander S Preker,2018-03-20 The recent expansion of health insurance coverage in the USA under the Affordable Health Care Act and current threats to reverse the benefits of this reform have once again focused the world s attention on the difficult challenges faced by other countries trying to provide better access to healthcare to their population at an affordable cost This textbook provides a comparative review of financing universal access to healthcare in the Organisation for Economic Co operation and Development OECD countries The first two chapters of the book provide a framework for financing universal access to healthcare The remaining eight chapters present case studies of eight OECD countries that have successfully introduced reforms to finance universal access to healthcare for their population through landmark legislative reforms A concluding chapter focuses on the lessons learned from the OECD and recommendations from

policymakers and others who are planning similar reforms The book is designed as a learning tool for students and as a user guide for policymakers

Health Financing in the Developing World Guy Carrin, 2011 A collection of peer reviewed articles and contributions to books this overview of the finance of health insurance concentrates on developing countries The material covers various financing strategies and explains how each can or cannot help improve the transition toward universal coverage The model plans shown here are particularly useful for policy makers and technical advisers who have to decide upon health financing policies or are engaged in a debate about them and the sample forms can be adjusted to the particular economic and political context of the developing countries involved In addition there are reminders that this process varies in some countries universal coverage may take time and require a step by step approach In other developing countries a swift transition to universal coverage may be quite feasible

The Economics of New Health Technologies Joan Costa-Font, Christophe Courbage, Alistair McGuire, 2009-05-14 Technological change in healthcare has led to huge improvements in health services and the health status of populations It is also pinpointed as the main driver of healthcare expenditure Although offering remarkable benefits changes in technology are not free and often entail significant financial as well as physical or social risks These need to be balanced out in the setting of government regulations insurance contracts and individuals decisions to use and consume certain technologies With this in mind this book addresses the following important objectives to provide a detailed analysis of what technological change is to identify drivers of innovation in several healthcare areas to present existing mechanisms and processes for ensuring and valuing efficiency and development in the use of medical technologies and to analyse the impact of advances in medical technology on health healthcare expenditure and health insurance Each of the seventeen chapters summarizes an important issue concerning the innovation debate and contributes to a better understanding of the role innovation has both at the macro level and at the delivery meso and micro level in the healthcare sector The effectiveness of innovation in improving people s welfare depends on its diffusion and inception by the relevant agents in the health production process and this book recognizes the multi faceted contribution of policy makers regulators managers technicians consumers and patients to this technology change This book offers the first truly global economic analysis of healthcare technologies taking the subject beyond simply economic evaluation and exploring the behavioural aspects organization and incentives for new technology developments and the adoption and diffusion of these technologies
