Cathedrals of Consumption Geoffrey Crossick, Serge Jaumain, 2019-01-04 Originally published in 1999 Cathedrals of
Consumption examines the history of the department store After many decades in which it was almost exclusively historians
of retailing and company biographers who were interested in the phenomenon the department store has now come to attract
the attention of historians of culture consumption gender urban life and much more Indeed the department store in its classic

introductory essay explores the questions that surround the department store from its appearance in the mid nineteenth

themes as varied as the new public space which department stores provided for women the politics of consumption the
architecture of the new stores the training of the workforce the cult of shopping advertising strategies shoplifting employer
