A Survey of Ecological Economics Rajaram Krishnan, Jonathan Harris, Neva R. Goodwin, 2013-04-22 The emergent discipline of ecological economics is based on the idea that the world s economies are a function of the earth s ecosystems an idea that radically reverses the world view of neoclassical economics A Survey of Ecological Economics provides the first overview of this new field and a comprehensive and systematic survey of its critical literature The editors of the volume summarize ninety five seminal articles selected through an exhaustive survey that advance the field of ecological economics and represent the best thinking to date in the area Each two to three page summary is far more comprehensive than a typical abstract and presents both the topics covered in each paper and the most important arguments made about each topic Sections cover historical perspective definition scope and interdisciplinary issues theoretical frameworks and techniques energy and resource flow analysis accounting and evaluation North South international issues ethical social institutional issues Each section is preceded by an introductory essay that outlines the current state of knowledge in the field and proposes a research agenda for the future A Survey of Ecological Economics is the first volume in the Frontier Issues in Economic Thought series produced by the Global Development And Environment Institute at Tufts University

Toward a Unified Ecology Timothy F. H. Allen, Thomas W. Hoekstra, 2015-06-23 The first edition of *Toward a Unified Ecology* was ahead of its time For the second edition the authors present a new synthesis of their core ideas on evaluating communities organisms populations biomes models and management The book now places greater emphasis on post normal critiques cognizant of ever present observer values in the system The problem it addresses is how to work holistically on complex things that cannot be defined and this book continues to build an approach to the problem of scaling in ecosystems Provoked by complexity theory the authors add a whole new chapter on the central role of narrative in

science and how models improve them The book takes data and modeling seriously with a sophisticated philosophy of science

Cleaner Production and Industrial Ecology Leenard Willem Baas, Leo Baas, 2005 Proceedings of the Joint Conference on Recycling Municipal Sludges and Effluents on Land ,1973 Sweden and Ecological Governance Lennart Lundqvist, 2004

The author examines policies and strategies for ecologically rational governance and uses the Swedish case study to ask if it is possible to move from a traditional environmental policy to a broad integrated pursuit of sustainable development as illustrated through the Sustainable Sweden programme **Energy Cities** Dagmar Everding, Dieter D. Genske, Ariane Ruff, 2025-06-05 With cities and regions moving away from fossil nuclear energy sources the importance of energy ecological urban transformation is growing A growing number of stakeholders are committed to transitioning energy supplies to renewable sources and promoting resource efficient ecological cycles in their communities Energy ecological urban transformation directly improves living and environmental conditions in neighborhoods creates new economic opportunities and generates jobs Cities are being transformed into energy cities that adhere to the principles of sustainability minimizing energy ecological footprints and reducing land consumption This book envisions future scenarios of urban transformation for stakeholder discourse It provides a cross disciplinary description of urban planning engineering and economic approaches to energy ecological urban transformation including methodological solutions Numerous interesting project examples are presented to illustrate these concepts The target audience for this book includes municipal administrations and climate protection managers planning and engineering firms environmental organizations as well as students and educators
