Economic Thought of the Sikh Gurus J. R. Dass, 1988 Economic Thought of the Sikh Gurus reveals how down to earth the Sikh religion is and demonstrates the absolutely secular nature of that way of life J R Dass has analysed the contribution of the Sikh Gurus from Nanak to Gobind Singh to the socio economic development of Northern India The Gurus taught and practised what were during the time extremely revolutionary economic ideas chiefly the secular ideal of community living Alongside the Gurus economic ideas found in the Sikh Scriptures the writer has extrapolated the ideas of the classic Western economists of later years such as Adam Smith Keynes and Marshall to prove that the Sikh Gurus were far ahead of their age in respect of their economic theories The relevance of the Gurus thoughts in economic revolution and the need to narrow down economic disparities are found to be relevant centuries later in the present work

Information and Behavior in a Sikh Village Murray J. Leaf,2023-11-10 This is the first major study of a Sikh community in Central Punjab to appear in the modern anthropological literature Perhaps because this historically and economically important people and region have been so long neglected they present certain important contradictions or paradoxes in terms of commonly accepted generalization about Indian village life Thus the villagers describe their Sikh religion as Hindu yet insist that it forbids observance of caste restrictions They are sincere in their beliefs and scrupulous in their performance to ritual yet retain caste identifications and in certain contexts use caste terms for address They have a strong factional organization but it cuts across both kin and caste lines moreover many villagers remain aloof from factions and those who do belong frequently forget their quarrels and cooperate Finally the villagers are intensely concerned with trade and profit making yet resort to many practices in a labor intensive system that scholars have termed characteristic of a subsistence or traditional economy as distinct from a market or a traditional one Instead of attempting to resolve these contradictions or to attribute them to a process of social breakdown Leaf takes the view that they represent a stable pervasive condition of social life He capitalizes on their clarity in a particular village to draw attention to two elements of social theory that he regards as of general importance His overall strategy of analysis places each seemingly contradictory

element in its proper context and then ascertains how these contexts are related to one another and to the behavior of the villagers. The first of the theoretical concepts that he develops for this purpose is a modified version of the idea of a message source used in information theory permitting observation and isolation of socially defined conventions that result from behavior and affect it in turn. The second concept is a view of behavior as individual actions that respond to such social constraints obtain support and ultimately feed back into the social system a cyclical model of social communication on an individual level. Use of these two concepts sets aside total system theory which has attracted mounting criticism by social and cultural anthropologists in favor of what may be termed a multiple system theory. Two important practical results of this shift in perspective are general heightening of empirical accuracy of analysis and an enhance insights into the ways that dynamica change cooperation and competition inhere in all social organization. This title was originally published in 1972 *Searches In Sikhism* Nirmal Singh, 2008 **Muslims under Sikh Rule in the Nineteenth Century** Robina Yasmin, 2022-01-13 Though the history of Sikh Muslim relations is fraught with conflict this book examines how the policies of Sikh rulers attempted to avoid religious bigotry and prejudice at a time when Muslims were treated as third class citizens. Focusing on the socio economic political and religious condition of Muslims under Sikh rule in the Punjab during the 19th century this book demonstrates that Maharaja Ranjit Singh and his successors took a secular approach towards their subjects. Using various archival sources including the Fakir Khana Family archives and the Punjab Archives the author argues citizens had freedom to practice their religion with equal access to employment education and justice **Studies in Sikhism Its Institutions and Its Scripture in Global Context** Gurnam Kaur, 2013 *The Making of Sikh Scripture* Gurinder Singh Mann, 2001-05-03 The Adi Granth original book the primary scripture of the Sikhs comprises approximately 3 000 hymns. Although the authorship of the hymns is well recorded the history of the compilation the Adi Granth the creation of the Sikh canon is the subject of considerable speculation and debate. In this book Gurinder Mann attempts to construct a comprehensive secondary literature on the topic. His findings on some key issues differ from the traditional Sikh position and from the hypotheses of other 20th century scholars as well as raising some entirely fresh questions. Mann s revised and expanded picture of the history of the text and institution of Sikh scripture will be of interest not only to scholars of Sikhism and Sikh religionists but to scholars of comparative canon formation Thoughts Indarjit Singh, 2023-03-03 INCISIVE VIEWS AND COMMENTS ON NEWS OF THE DAY COUCHED IN HUMOUR AND UNFAILING COMPASSION RT HON BARONESS D SOUZA CMG THE LORD SPEAKER 2011-2016 Lord Indarjit Singh s talks on BBC Radio 4 s Thought for the Day have inspired many including Royalty Prime Ministers Christian Muslim and Jewish leaders.
