Economics of Change in East and Central Europe Peter J. Buckley, Pervez N. Ghauri, 1994 The recent developments in Eastern Europe and the former Soviet Union are providing Western businesses with new opportunities and challenges as a potentially huge new market emerges While most Western firms are busy debating the impact of the EC and how to develop their strategies to handle a single European market of 223 million people they are often unaware of the emergence of the enormous opportunities available in Eastern and Central Europe and the former Soviet Union with a market of 400 500 million consumers This market is untapped in almost all sectors Not only consumers but also the state owned organizations cooperatives and the emerging private enterprises want Western goods and technologies The Economics of Change in East and Central Europe increases our understanding of the strategic aspects of international business in Eastern Europe by gathering together specially commissioned readings by specialists in both the subjects and countries dealt with This enables the material to be presented from the perspective of both the host countries and the major sources It gives analytical insights into the workings of international business within this market by combining empirical and conceptual contributions The Economics of Change in East and Central Europe gathers together for the first time an international analysis of this entire area in one book It will be of interest to students and researchers of international business and marketing as well as to all business practitioners who have an interest in Eastern and Central Europe The recent developments in Eastern Europe and the former Soviet Union are providing Western businesses with new opportunities and challenges as a potentially huge new market emerges While most Western firms are busy debating the impact of the EC and how to develop their strategies to handle a single European market of 223 million people they are often unaware of the emergence of the enormous opportunities available in Eastern and Central Europe and the former Soviet Union with a market of 400 500 million consumers This market is untapped in almost all sectors Not only consumers but also the state owned organizations cooperatives and the emerging private enterprises want Western goods and technologies The Economics of Change in East and Central Europe increases our understanding of the strategic aspects of international business in Eastern Europe by gathering together specially commissioned readings by specialists in both the subjects and countries dealt with This enables the material to be presented

from the perspective of both the host countries and the major sources It gives analytical insights into the workings of international business within this market by combining empirical and conceptual contributions The Economics of Change in East and Central Europe gathers together for the first time an international analysis of this entire area in one book It will be of interest to students and researchers of international business and marketing as well as to all business practitioners who have an interest in Eastern and Central Europe

The Economy of East Central Europe, 1815-1989 David Turnock, 2004-03 From an expert in the field this major survey includes new research and recent changes in the region and reviewing two centuries of modernization examines the history of Eastern European economies within a wider political and ideological context

Property in East Central Europe Hannes Siegrist, Dietmar Müller, 2014-11-01 Property is a complex phenomenon comprising cultural social and legal rules During the twentieth century property rights in land suffered massive interference in Central and Eastern Europe The promise of universal and formally equal rights of land ownership ensuring predictability of social processes and individual autonomy was largely not fulfilled The national appropriation of property in the interwar period and the communist era represent an onerous legacy for the postcommunist re construction of a liberal individualist property regime However as the scholars in this collection show after the demise of communism in Eastern Europe property is again a major factor in shaping individual identity and in providing the political order and culture with a foundational institution This volume analyzes both historical and contemporary forms of land ownership in Poland Romania and Yugoslavia in a multidisciplinary framework including economic history legal and political studies and social anthropology

Economics of Institutional Change Elodie Douarin, Tomasz Mickiewicz, 2017-10-24 This book a third edition has been significantly expanded and updated It revisits the process of institutional change its characteristics determinants and implications for economic performance New chapters address the significance of Post Communist transition the differences and importance of initial conditions in institutional building and social norms values and happiness Other chapters have been expanded to include for example a focus on the Washington consensus commentary on the 2008 financial crisis state capacity and corruption and new findings on redistribution and inequality With specific focus on Central Europe Eastern Europe and Central Asia this revised edition examines the process of development and its interdependence with institutions

Globalization in State Socialist East Central Europe Béla Tomka, 2024-07-20 This open access Palgrave Pivot explores four major aspects of globalization foreign trade capital and information flows and the movement of people The book examines how the state socialist countries of East Central Europe fit into the general trend of globalization after WWII It focuses on three specific countries in the region Poland Czechoslovakia and Hungary The study also considers

conceptual problems whether recently introduced terms such as alternative globalization and socialist proto globalization are plausible for interpreting state socialist globalization Special attention is paid to the study of continuities and discontinuities in the process of globalization in East Central Europe which is a key issue in current debates This requires a long term perspective so the study covers not only the decades before 1989 but also subsequent developments In doing so the book attempts to find a balance between old and new mainstream interpretations it recognises that East Central European societies experienced considerable globalization during the state socialist era however based on empirical findings instead of alternative or proto globalization the book suggests other notions to conceptualise this process including fragmentation selectivity and unevenness Thus the proposed understanding could also contribute to discussions on globalization beyond East Central Europe
