Economics Of Conservation Programs:

The Economics of Conservation Programs Franz Wirl, 2012-12-06 Demand side management DSM is one of the most topical issues in regulating electric utilities both in the United States and internationally What is DSM It consists of various measures at the level of demand households commerce industry others which are at least partially financed by electric utilities and which should either conserve energy or reduce the peak load The practice of DSM originates from The Public Utility Regulatory Policy Act of 1978 PURPA that provided the political and legal framework to set energy conservation as a national goal which encouraged regulatory commissions to initiate utility conservation programs see e g Nowell Tschirhart 1990 and Fox Penner 1990 Moreover integrated resource planning which must account for DSM on a level playing field with supply is written into the 1992 Energy Policy Act as the U S Government s preferred method of electric power planning Although PURPA set energy conservation as a national priority its implementation was left to the states with the consequence of considerable differences concerning efforts and rules By 1993 16 states had already implemented integrated resource planning 9 were in the process of doing so and further 9 considered implementation EPRI 1993b Due to the Clean Air Act of 1990 24 states are considering to include external costs in integrated resource planning

The Economics of Conservation Programs Franz Wirl, 1997-01-31 Reviews and analyzes the economics of demand side management DSM conservation programs in theory and practice using the regulation of electric utilities as an example and focusing on efficacy of DSM in carbon dioxide emissions reduction plans Presents an economic model for the demand for energy and efficiency then analyzes determinants of consumers decisions using a service framework That framework is applied in chapters on observed market failures utilities motivation for conservation and conservation incentives for utilities and consumers Discusses asymmetric information and strategic consumer reactions and looks at the impact of US DSM on electricity demand Annotation copyrighted by Book News Inc Portland OR
