Economics, Accounting and the True Nature of Capitalism Jacques Richard,Alexandre Rambaud,2021-11-29 Almost all economists whether classical neoclassical or Marxist have failed in their analyses of capitalism to consider the underpinning systems of accounting This book draws attention to this lacuna focusing specifically on the concept of capital a major concept that dominates all teaching and practice in both economics and management It is argued that while for the practitioners of capitalism in accounting and business the capital in their accounts is a debt to be repaid or a thing to be kept for economists it has been considered a means or even a resource or an asset intended to be worn out This category error has led to economists failing to comprehend the true nature of capitalism On this basis this book proposes a new definition of capitalism that brings about considerable changes in the attitude to be had towards this economic system in particular the means to bring about its replacement This book will be of significant interest to readers of political economy history of economic thought critical accounting and heterodox economics

Le suicide du prolétariat Jean de Climont, Cet essai est une critique des philosophies dialectiques depuis Hegel Marx et Engels jusqu'aux nos jours Les premières critiques portent sur les aspects économiques et sociaux du marxisme Le premier chapitre présente le problème du capital et de son accumulation le second le problème des classes sociales et les phénomènes qui ont conduit au suicide de la classe prolétaire C'est dans ce cadre que s'insère la critique de l'interprétation des thèses de Weber par Bourdieu Les chapitres 3 et 4 abordent les fondements du matérialisme dialectique Il ne s'agit encore ici que du point de départ que sont les catégories marxistes et la notion de contraires Le chapitre 5 est essentiellement consacré aux fameuses lois de la dialectique Le chapitre 6 est une critique des philosophies exclusivement matérialistes et rationalistes Le problème de l'aliénation est abordé au chapitre 7 Celui de la mondialisation est traité au chapitre 8

Les Glorieuses : Trente ? Soixante ? ou pourquoi l'Europe ? Jean de Climont, 2019-03-18 Le fameux livre de Jean Fourastié Les Trente Glorieuses paraissait il y a quarante ans La croissance exponentielle des indicateurs économiques semblait interrompue et définitivement Au contraire l'instabilité sociale semblait s'aggraver et durablement Or les indicateurs économiques ne montrent aucune interruption de la croissance Les soubresauts de l'économie sontavalés avec le temps dans l'épaisseur du trait des graphiques Pourtant l'idologie la fois pessimiste et nostalgique des Trente Glorieuses s'est perpétuée et accentuée On tremble aujourd'hui en plus pour la planète Après ce constat l'auteur donne une vision positive de l'avenir tant en ce qui concerne la société et l'économie que le climat dans le cadre d'une vision des événements replacés dans un cadre historique

Industrial Literature and Authors Bianca Rita Cataldi, 2024-07-12 In recent years the field of literary studies at the international level has become more involved in the analysis of the so called industrial literature a literary genre that focuses on the literary representation of factory work and workers alienation This book engages in the ongoing debate by offering a narratological analysis of Italian

industrial novels in particular while taking into consideration their paratexts and interrogating the possibility of the presence of a testimonial intent in the text The study reconstructs the connections between visions of factory utopias and Italian industrial literature starting with an overview of said visions of utopia and how they came into being in Europe following the industrial revolution It then proceeds by exploring the relationship between the twentieth century Italian entrepreneur Adriano Olivetti and Italian industrial authors and the influence that Olivetti's visions of factory utopia had on these writers and how they perceived themselves as witnesses of factory life and workers' alienation In analyzing these texts and particularly the novels by Paolo Volponi and Ottiero Ottieri the book focuses on the previously overlooked representation of the self in industrial literature and on how this self expresses the need for testimony
