Economic Adjustment in New Democracies Diane Ethier, 1997 *Economic Adjustment in New Democracies* D.

Ethier, 1997-05-29 The politics of economic adjustment in new democracies has received a lot of attention However none of the most recent examinations provide a thorough comparative analysis of Southern Europe Ethier's book fills this gap The book challenges many existing preconceptions about Southern Europe while confirming and complementing the main assertions of comparable studies on Eastern Europe Latin America Asia and Africa **Constructing Democracy in**

Southern Europe Lauren M. McLaren, 2008-04-08 Why are some regimes democratic while others are not Specifically how have Spain and Italy managed to become democratic while Turkey which shares many similar characteristics has not Spain Italy and Turkey have shared common historical features which would have been disruptive to any new democracy however they represent a wide array of democratization experiences Providing a comparative case study analysis this book offers some clues as to the reasons for successful transitions to democracy This is done through a range of variables which include the degree of stateness problems learning from previous experiences with democracy and authoritarianism economic development the procedures used for designing the new rules of the regime the existence or absence of civil society and the connection between society and political institutions the democratic rules themselves the professionalization of the military the influence of external factors on democratic consolidation By examining these variables across the three countries Lauren McLaren narrows the range of possible explanations for differences in democratic consolidation The book will be of particular interest to students and researchers of European Politics and Democratization Studies **Environment and**

Security M. Lowi, B. Shaw, 2000-05-16 This book is based on a conference addressing the relationship between the environment and security in the post Cold War world It brings together scholars and practitioners from a variety of different disciplines and perspectives in an effort to both explore the complexities of the relationship between environmental variables and security conditions and re focus the debate within the environmental community The book combines analytical frameworks and case study material with proposals for addressing environmental challenges and enhancing the security and welfare of peoples states and regions Canadian-Caribbean Relations in Transition Jerry Haar, Anthony Bryan, 1999-08-26

Shaw, 1999-06-03 This volume seeks to explore bureaucratic forms of administration in the Third World and alternatives to them Experts with wide experience in development are assembled to deal with issues of reform indigenization and desirable futures The Emergence of Insurgency in El Salvador Yvon Grenier, 2016-07-27 Grenier offers a better understanding of the causes of revolution in El Salvador through an analysis of the central role of ideas and ideologues The insurgency was not merely the charismatic embodiment of structurally determined processes as it is commonly suggested it was the expression of a distinct and forceful political will The focus is placed on the period of emergence of insurgency roughly the 1970s and early 1980s a period too often confounded and not only in the Salvadoran case with subsequent periods of the revolutionary cycle Economic Adjustments in New Democracies Diane Ethier, 1997 Dynamics of Energy Governance in Europe and Russia C. Kuzemko, A. Belyi, A. Goldthau, M. Keating, 2012-03-02 Energy in Europe and Russia is in flux This book presents a rich set of case studies for analyzing the complex and intertwined regional dynamics of multiple actors levels and policy fields in energy throughout Europe and Russia with the aim of offering an alternative view to the prevalent geopolitical or neoliberal approaches *Greece in the Euro* Eleni Panagiotarea, 2014-04-01 Greece banked on EMU Entry into the eurozone was its ticket to macroeconomic stability its modernisation jacket and its gateway to global markets So how did such a promising start turn to dust so quickly Was Greece the delinquent eurozone member whose fiscal downfall nearly brought down some of the world's strongest economies Or was it the first victim of the euro's system failure An original approach to understanding how national institutions affect economic performance diluting and disrupting single currency pressures for convergence and adjustment **Democratic Quality in Southern Europe** Tiago Fernandes, 2024-05-15 Fueled by new data from the Varieties of Democracy project Democratic Quality in Southern Europe takes a close look at the democratic trajectories of France Greece Italy Portugal and Spain over the past fifty years Despite similar beginnings France Greece Italy Portugal and Spain have experienced significant variations in the way their democracies have evolved Covering ground from the protest movements of the late 60s and early 70s to the challenges that resulted from the financial crisis of the Great Recession editor Tiago Fernandes expertly draws together a collection of essays that look beyond the impact of socioeconomic development in these five countries exploring innovative and nuanced explanations for their diverging paths Democratic Quality in Southern Europe combines new data with classical methodologies to create fresh convincing hypotheses on the development quality and depth of democracy in this critical region Contributors Tiago Fernandes Rui Branco Jo o Cancela Edna Costa Pedro Diniz de Sousa Pedro T Magalh es Edalina Rodrigues Sanches Jos Santana Pereira Tiago Tib rcio **The Political Economy of Fiscal Reform in Central-Eastern Europe** Frank Bönker, 2006-01-01 Frank B nker has done a masterful job This is probably the best book available on this important subject and its significance is not limited to studies of postcommunist societies It has important theoretical implications for everyone interested in the Political Economy of Policy Reform

perspective within the field of comparative political economy John L Campbell Slavic Review *Human Rights in the Emerging Global Order* K. Mills, 1998-09-14 Mills focuses on one of the most significant parts of the sovereignty debate on human rights and humanitarian issues and raises three interrelated questions First how are empirical processes and practices undermining traditional notions of sovereignty These include actions by the United Nations and other organizations on behalf of human rights such as humanitarian intervention the movements of refugees and others across the borders and increasing calls for communal self determination Second taking into account the above question and examining these issues from a normative political theory perspective what should be the relationship between individuals groups states and the international community with respect to the twin aspects of power and authority inherent in sovereignty Third what new or modified international institutions may be needed in the future to deal with these humanitarian issues **Social Forces in the Making of the New Europe** Andreas Bieler, 2001-06-26 The main argument of this book is that the revival of European integration in the mid 1980s and the emergence of a New Europe have to be analyzed against the background of globalization and the transnational restructuring of social forces since the early 1970s **Designs for Democratic Stability** Abdo I. Baaklini, Helen Desfosses, 2016-06-16 Since the 1980s and the collapse of communist military and race based regimes across the world the euphoria has given way to the question of how to enhance the viability of democratic constitutional government This text covers this issue Manipulating Hegemony R. Vickers, 2000-02-17 Drawing on neo Gramscian theories of International Political Economy this book explores the impact of the Marshall Plan on labour and government in Britain Rather than the US imposing a politics of productivity on an unwilling government the centre right of the Labour Party used the Marshall Plan to achieve its own political ends Manipulating Hegemony shows how the government was able to marginalise the left to create a pattern of state labour politics that was to endure until the end of the 1970s *Designing Democracy* G. Pridham, 2005-05-11 *Designing Democracy* is the first systematic and in depth study of the effects of the EU s democratic conditionality originally set out in the Copenhagen conditions of 1993 on the new political systems of Central and Eastern Europe Using new material drawn from extensive elite interviews in several of these countries as well as in Brussels the book throws much light on how far the EU enlargement process has really strengthened these new post Communist democracies following their transitions in the 1990s New Perspectives on International Functionalism Lucian Ashworth, David Long, 2016-07-27 This book reassesses international functionalism as an approach to global politics Functionalism has been marginalized as simply a pre scientific precursor to regional integration theory In fact functionalism provides a global view of states and international organizations working towards a peaceful and constructive world order through cooperative relationships across borders to satisfy human needs Chapters examine the early development of functionalism and apply functionalist insights to issues problems and conflicts in contemporary global governance **The Elusive Promise of NGOs in Africa** S. Dicklitch, 1998-07-13 Dicklitch challenges the dominant discourse of neo liberalism

which places NGOs and civil society at the forefront of democratization and development in Africa Based on nine months of field research in Uganda the study draws on evidence from the successfully liberalizing country and shows how NGO potential for democratization and development has been subverted by state directives structural and historical conditions as well as the internal limitations of NGOs
