## **Economic Development 1975 1993 An Annotated Bibliography:**

Rural Economic Development, 1975-1993 Larry Leistritz, Rita R. Hamm, 1994-05-25 This bibliography brings together the salient works on the process of economic development and economic revitalization in nonmetropolitan areas. The literature cited reviews 1 the forces affecting different economic sectors such as manufacturing, tourism, and services and the potential of these sectors to contribute to rural economic development; 2 the forces affecting various types of firms such as new firms, small firms, and high tech businesses and the potential of these types of firms to contribute to rural economic development; 3 contextual factors such as markets, business climate, and technological change; and 4 economic and development policies and strategies that various levels of government could employ. The book's focus is economic development and revitalization in the world's industrialized countries. Including North American and European literature published in English, the book covers 1975 to 1993 with particular emphasis on the period from 1988 to 1993. This book attempts to meet the needs of 1 students of economic and community development, regional and agricultural economics, community and regional planning, rural sociology, and related disciplines; 2 teachers and researchers; and 3 policy makers and economic development practitioners. It includes professional journals, books, university research reports, extension reports, conference proceedings, and government documents. *United States Entrepreneurs and the Companies They Built* Wahib Nasrallah, 2003-08-30 This pioneering work provides an index to over 1,700 biographies of prominent U.S. entrepreneurs, innovators, and company executives published in over 120 biographical collected works which are identified, examined, and indexed here. These collected works cover a span of over 100 years and include men and women who shaped the history of American enterprise. In the past, collected works such as these have never been indexed, but finally this book makes the biographies accessible to the general public. Wahib Nasrallah has created the only book available today that indexes these stories of corporate success as they are documented in collected works of biography. A large number of executive biographies are published in collected works that are rich with stories of American enterprise, male and female entrepreneurs of many ethnic backgrounds. Since these stories have never been indexed before, *United States Entrepreneurs and the Companies They Built: An Index to Biographies and Collected Works* is a central research tool in both academic and corporate worlds.
