religious State doctrine in *The Jewish Question*      Capitalist Restructuring and the Pacific Rim Ravi Palat, 2004-07-31 This book situates the evolution of capitalist economies along Asia's Pacific Rim after the Second World War within broader global political and economic changes. Specifically, it charts their growth at the interface of periodic crises and successive waves of restructuring and links changes in the world economy to shifts in regional dynamics in east and southeast Asia. It suggests that while the expansion of Japanese corporate networks was crucial to the emergence of the region as a low cost exporter to the world, the reintegration of China into the world market will free the region from its dependence on the US as a market of last resort.

**Degrees of Freedom** Edwin van de Haar, 2015-06-01 Liberalism has been the leading political theory of the past three hundred years and by far the most dominant ideology. Many think tanks are associated with liberal ideas and most Western countries are considered liberal democracies. But does liberalism really cover the wide range of political ideas found in Western civilization? *Degrees of Freedom* examines liberalism's universal claims and explains how liberal thinkers formulated insights that apply to all aspects of politics. It also contrasts liberalism and conservatism. Edwin van de Haar divides liberalism into three main variants: classical liberalism, social liberalism, and libertarianism. Without claiming that this is the only possible categorization of liberalism, he argues that this subdivision is the most comprehensible way out of liberal confusion. He explores how these forms of liberalism found in popular parlance relate to liberal political theory and ideology. Domestic politics and international relations are presented as a whole in the firm belief that one cannot meaningfully present an overview of any tradition in political theory by stopping at national borders.

The paper analyzes the implications for economic efficiency of the different forms of ownership and control that would emerge from the proposals as well as their main macroeconomic consequences.
