Ralf Dewenter, Justus Haucap

Economics Of Mobile Telecommunications:

The Economics of Mobile Telecommunications Harald Gruber, 2005-05-26 The mobile telecommunications industry is one of the most rapidly growing sectors around the world This book offers a comprehensive economic analysis of the main determinants of growth in the industry Harald Gruber demonstrates the importance of competitive entry and the setting of technological standards both of which play a central role in their contribution to the fast diffusion of technology Detailed country studies provide empirical evidence for the development of the main themes the diffusion of mobile telecommunications services the pricing policies in network industries the role of entry barriers such as radio spectrum and spectrum allocation procedures This research based survey will appeal to a wide range of applied industrial economists within universities government and the industry itself

Essays on the Economics of Mobile Telecommunications Lai Jiang, 2012

Handbook of Media Management and Economics Alan Albarran, Bozena Mierzejewska, Jaemin Jung, 2018-04-27 Winner of the 2019 Robert Picard Book Award The Handbook of Media Management and Economics has become a required reference for students professors policy makers and industry practitioners The volume was developed around two primary objectives assessing the state of knowledge for the key topics in the media management and economics fields and establishing the research agenda in these areas ultimately pushing the field in new directions The Handbook's chapters are organized into parts addressing the theoretical components key issues analytical tools and future directions for research With its unparalleled breadth of content from expert authors the Handbook provides background knowledge of the various theoretical dimensions and historical paradigms and establishes the direction for the next phases of research in this evolving arena of study Updates include the rise of mobile and social media globalization audience fragmentation and big data

Demand Elasticities for Mobile Telecommunications in Austria Ralf Dewenter, Justus Haucap, 2007

The Oxford Handbook of the Digital Economy Martin Peitz, Joel Waldfogel, 2012-08-23 The economic analysis of the digital economy has been a rapidly developing research area for more than a decade Through authoritative examination by leading scholars this Handbook takes a closer look at particular industries business practices and policy issues associated with the digital industry The volume offers an up to date account of key topics discusses open questions and provides guidance for future research It offers a blend of theoretical and empirical works that are central to understanding the digital economy The chapters are presented in four sections corresponding with four broad themes 1 infrastructure standards and platforms 2 the transformation of selling encompassing both the transformation of traditional selling and new widespread application of tools such as auctions 3 user generated content and 4 threats in the new digital environment The first section covers infrastructure standards and various platform industries that rely heavily on recent developments in electronic data storage and transmission including software video games payment systems mobile telecommunications and B2B commerce The second section takes account of the reduced costs of online retailing that threatens offline retailers widespread availability of

information as it affects pricing and advertising digital technology as it allows the widespread employment of novel price and non price strategies bundling price discrimination and auctions as well as better tar The third section addresses the emergent phenomenon of user generated content on the Internet including the functioning of social networks and open source Finally the fourth section discusses threats arising from digitization and the Internet namely digital piracy privacy and internet security concerns

Approaches and Processes for Managing the Economics of Information Systems

Tsiakis, Theodosios,2014-01-31 This book explores the value of information and its management by highlighting theoretical and empirical approaches in the economics of information systems providing insight into how information systems can generate economic value for businesses and consumers Provided by publisher

Applied Economics in the Digital Era

James Alleman,Paul N. Rappoport,Mohsen Hamoudia,2020-05-16 Gary Madden was a renaissance man with respect to the nexus between information and communications technology ICT and economics He contributed to a variety of fields in ICT applied econometrics forecasting internet governance and policy This series of essays two of which were co authored by Professor Madden prior to his untimely death cover the range of his research interests While the essays focus on a number of ICT issues they are on the frontier of research in the sector Gerard Faulhaber provides a broad overview of how we have reached the digital age and its implications The applied econometric section brings the latest research in the area for example Lester Taylor illustrates how own price cross price and income elasticities can be calculated from survey data and translated into real income effects The forecasting section ranges from forecasting online political participation to broadband s impact on economic growth The final section covers aspects of governance and regulation of the ICT sector

Handbook of Production Economics Subhash C. Ray,Robert G. Chambers,Subal C. Kumbhakar,2022-06-02 This three volume handbook includes state of the art surveys in different areas of neoclassical production economics Volumes 1 and 2 cover theoretical and methodological issues only Volume 3 includes surveys of empirical applications in different areas like manufacturing agriculture banking energy and environment and so forth

Regulation and the Performance of Communication and Information Networks Gerald R. Faulhaber,Gary Madden,Jeffrey Petchey,2012-01-01 Due to their economic characteristics and also to their consequences on many aspects of collective life information networks have always been at the edge of regulatory innovations and at the center of policy debates The contributors of this volume combine long term visions of the factors determining regulatory policies with up to date analyses of technicalities to be dealt with to provide the reader with an extended understanding of the issues and constraints shaping the future of digital networks Eric Brousseau Universit Paris Dauphine France and the European University Institute Italy Digital markets worldwide are in rapid flux The Internet and World Wide Web have traditionally evolved in a largely deregulated environment but recently governments have shown great interest in this rapidly developing sector and are imposing regulations for a variety of reasons that are changing the shape of these industries This book explores why the industrial organization of broadband ISPs Internet backbone providers

and content application providers are in such turmoil The expert contributors straddle the turbulent past of the telecoms sector and also contribute to its exciting though unpredictable future via positive analysis of past communications policies which is then utilized to deduce lessons to guide future policy making decisions It is illustrated that broadband ISPs no longer simply provide a conduit for service delivery they are also involved in producing content and transaction services themselves in competition with content and delivery providers The blurring of the traditional lines between these three sectors as each enters into the others markets is highlighted The conclusion is that we are witnessing the emergence of powerful competing platforms linked in complex ways that challenge traditional economic analyses Exploring governance issues regulation and investment next generation service markets and wireless communication this book will prove a fascinating and illuminating read for scholars researchers post graduate students and policymakers with an interest in ICT technology and innovation economics and industrial organization

Management and Economics of Communication M. Bjørn Rimscha, 2020-06-08 This handbook combines the perspectives of communication studies economics and management and psychology in order to provide a comprehensive economic view on personal and mass communication It is divided into six parts that comprise 1 an overarching introduction that defines the field and provides a brief overview of its history 1 chapter 2 the most commonly used theoretic frameworks for the analysis of communication economics and management 4 chapters 3 the peculiarities of the quantitative and qualitative methods and data used in the field 3 chapters 4 key issues of the field such as the economics of language labor in creative industries media concentration branding etc 10 chapters 5 descriptions of the development trends and peculiarities of the field in different parts of the world written by scholars from the respective region 10 chapters 6 reflections on future directions for the field both from a managerial and from an economics perspective 1 chapter The authors of the individual chapters represent different academic disciplines research traditions and geographic backgrounds The reader will thus gain multifaceted insights into the management and economics of communication

Broadband Economics Takanori Ida, 2009 In this book Takanori Ida introduces the current status of the Japanese broadband services and the recent developments in competition policy and in doing so has developed an econometric model to analyse access demand

Digital Development in Korea Myung Oh, James Larson, 2011-03-14 This book explores the role of digital information and communications technology in South Korea s development starting with and building upon the crucial developments of the 1980s Its perspective draws on the information society concept and on a conceptual model of strategic restructuring of telecommunications It also draws on firsthand experience in formulating and implementing policies The analysis identifies aspects of the Korean experience from which developing countries around the world might benefit Oh and Larson describe the revolutionary developments of the 1980s including the TDX electronic switching system a major surge forward in semiconductors the start of privatization and color television and the thoroughgoing restructuring of Korea s telecommunications sector They further explore government leadership the growing

private sector and international trade pressures in the diffusion of broadband mobile communication and convergence toward a ubiquitous network society The role of education in these developments is explored in detail along with both the positive and negative aspects of Korea's vibrant new digital media The book also looks at Korea's growing international involvement its role in efforts to build a world information society and finally its future place in cyberspace This book will be of interest to students scholars and policy makers interested in communications technologies Asian Korean Studies and development studies

Asian Economic Integration Report 2023 Asian Development Bank, 2023-03-01 This report shows how smart trade and investment policies and regulatory cooperation in the Asia and Pacific region can help economies tackle climate change recover from the pandemic and support resilient and sustainable development Analyzing topics including global value chains investment the movement of people and regional cooperation initiatives it outlines the economic and environmental challenges the region currently faces It explores how trade and investment policies can support climate action and highlights why a joined up approach is essential to help deepen the digital economy strengthen supply chains and foster greener businesses markets and trade

Ibss: Economics: 2001 Compiled by the British Library of Political and Economic Science, 2002-12 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Social Networks and their Economics Daniel Birke, 2013-07-24 Reveals how consumer choice can be better understood and influenced using social networks analysis SNA Intuitively we all appreciate that we can be influenced by our friends and peers in what we do how we behave and what products we consume Until recently it has been difficult to measure this interdependence mainly because data on social networks was difficult to collect and not readily available More and more companies such as mobile phone carriers or social networking sites such as Facebook are collecting such data electronically Daniel Birke illustrates in compelling real world case studies how companies use social networks for marketing purposes and which statistical analysis and unique datasets can be used Social Networks and their Economics Explores network effects and the analysis of social networks whilst providing an overview of the state of the art research Looks at consumption interdependences between friends and peers Who is influencing who through which channels and to what degree Presents statistical methods and research techniques that can be used in the analysis of social networks Examines SNA and its practical application for marketing purposes Features a supporting website www.wiley.com/go/social_networks featuring SNA visualizations and business case studies Aimed at post graduate students involved in social network analysis industrial economics innovation and consumer marketing this book offers a unique perspective from both an academic and practitioner point of view on how social networks can help understand and influence consumer behaviour This book will prove to be a useful resource for marketing practitioners from companies where social network data is available and for consulting companies who advise businesses on marketing and social media related issues

Ex Post Economic

Evaluation of Competition Policy Fabienne Ilzkovitz, 2020-05-18 Competition authorities are increasingly interested in understanding the impact of their activities on markets and consumers The goal is to improve competition policy rules and decision making practices and to get robust evidence on the benefits of competition and competition policy for society as a whole Discussions with competition authorities practitioners and academics have shown the need to take stock of the experience gained in this field by the European Commission and to present it in an easily accessible way The studies collected in this volume prepared by senior Commission officials and competition policy experts range from the ex post evaluation of specific policy interventions to the assessment of the broader impact of competition policy The issues and topics examined include the following objectives and scope of evaluations by the European Commission description of counterfactual evaluation techniques used conditions for a successful ex post evaluation of a competition policy intervention a wide selection of individual cases covering a variety of economic sectors applications in merger control antitrust and State aid direct benefits of competition policy interventions for consumers deterrent effects of such interventions on market participants and macroeconomic outcomes in terms of job creation productivity and GDP growth This matchless book assembles within a single volume all that is needed for competition policy analysts and practitioners to undertake ex post economic evaluations While its collection of state of the art ex post evaluation studies has a clear value for competition authorities it is sure to be welcomed as well by competition law practitioners in the private sector who will greatly appreciate the effort made to cast a critical eye on decisions taken in the past Moreover it allows for addressing some of the new challenges facing competition policymakers Fabienne Ilzkovitz is Principal Advisor responsible for the economic evaluation of competition policy within the Directorate General for Competition of the European Commission and since 2014 she has coordinated various ex post evaluation projects in the Directorate General She is also Associate Professor of Economics in the Solvay Brussels School of Economics and Management at the Universit Libre de Bruxelles Belgium Adriaan Dierx is Senior Expert on ex post economic evaluation within the Directorate General for Competition of the European Commission He has managed a number of studies aimed at assessing the economic impact of the European Commission s competition policy interventions Macroeconomics and the History of Economic Thought H.M. Krämer, Heinz Kurz, H.-M.

Trautwein, 2012-03-29 The essays in this Festschrift have been chosen to honour Harald Hagemann and his scientific work They reflect his main contributions to economic research and his major fields of interest The essays in the first part deal with various aspects within the history of economic thought The second part is about the current state of macroeconomics The essays in the third part of the book cover topics on economic growth and structural dynamics Internet, Economic Growth and Globalization Claude E. Barfield, Günter S. Heiduk, Paul J.J. Welfens, 2012-11-02 The dynamics of the digital economy in the US Europe and Japan are rather different Some EU countries come close to the USA as the leading OECD country in the new economy but Japan faces particular problems in catching up digitally Information and communication technology will

affect productivity growth production the financial system and trade Setting adequate rules for the digital economy at the national and international level is a key challenge for industrialized countries Moreover cultural and organizational challenges will also have to be met Liberalization and Regulation of the Telecommunications Sector in Transition Countries Ekaterina Markova, 2008-11-14 Telecommunications are increasingly recognized as a key component in the infrastructure of economic development For many years there were state owned monopolies in the telecommunications sector In transition economies they were characterized by especially poor performance and high access deficits as telecommunications were considered to be a non profit oriented production process intended to support the socio economic superstructures As a result the starting point for the reform processes in transition countries was quite poor performed public monopolies functioned under completely different circumstances as the peers in the market economies The main question of this book is what the strategies for the successful future development of the telecommunications sector in transition countries are The special focus is on Russia the largest of the transition countries *Asian Economic and Political Issues* Frank H. Columbus, 1998 It is predicted by some observers that the 21st century will be remembered as the Asian Century Many of the countries in the region seem to be able to take the economic and trade baton when one of the others experience problems The region in general continues to grow economically politically and militarily The articles presented in this book examine the current political and economic situations in nations across Asia particularly focusing on economic developments Contents Preface The Challenge of Removing Administrative Barriers to FDI in China Negative Externality Tacit Bargaining and Cigarette Demand The Case of Environmental Tobacco Smoke in Japan Modelling Development Control of Residential Development A Probit Analysis of Rent Seeking and Policy Autonomy in Town Planning in Hong Kong Social Capital Does it Pay The Institutional Impact on Conditions and Consequences of Access to Social Capital the Case of the Former GDR The Role of Foreign Investment in Guangdong s Economic Development Natural Disasters and Long run Economic Growth in Asia and Around the World The Role of Urban Policy in the Battle against Poverty The Experience of the Philippines

Right here, we have countless ebook **Economics Of Mobile Telecommunications** and collections to check out.
