**Foucault 2.0** Eric Paras, 2020-01-14 A dramatically new interpretation of the development of the thought of Michel Foucault one of the 20th century's most influential thinkers In this lucid and groundbreaking work Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised Foucault's critical axes of power and knowledge which purposefully eradicated the concept of free will reappear as targets in his later work Paras demonstrates the logic that led Foucault to move from a microphysics of power to an aesthetics of individual experience He is the first to show a transformation that not only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists *Foucault 2.0* draws on the full range of the philosopher's writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault's published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the College de France for more than a decade At the same time *Foucault 2.0* highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike

Lacan and Literature Ben Stoltzfus, 1996-07-03 Winner of the 1997 Grady Award for Best Book Cultural Arts Related awarded by the National Association for the Advancement of Psychoanalysis NAAP Using Lacanian psychoanalytic theory in order to uncover the relationship between literature reading and the unconscious this book argues for a special affinity between a text and its reader This process strives to unveil the disguises of tropic language in order to generate manifest meaning from latent content Focusing on five twentieth century writers D H Lawrence Ernest Hemingway Albert Camus Roland Barthes and Alain Robbe Grillet this book shows how Freud's theories of condensation and displacement in dreams match Lacan's uses of metaphor and metonymy in language Despite the different backgrounds of these authors from America England and France the unifying theme is that the unconscious because

it is structured like language is the voice of the m Other disguised in figurative language

**Power and Freedom in the Space of Reasons** Tuomo Tiisala, 2024-07-31 This book argues that the received view of the distinction between freedom and power must be rejected because it rests on an untenable account of the discursive cognition that endows individuals with the capacity for autonomy and self governed rationality In liberal and Kantian approaches alike the autonomous subject is a self standing starting point whose freedom is constrained by relations of power only contingently because they are external to the subject s constitution Thus the received view defines the distinction between freedom and power as a dichotomy Michel Foucault is arguably the most important critic of that dichotomy However it is widely agreed that Foucault falls short of justifying the alternative view he develops where power and freedom are essentially entangled instead The book fills out the gap by investigating the social preconditions of discursive cognition Drawing on pragmatist inferentialist resources from the philosophy of language Wittgenstein Sellars and Brandom it presents a new interpretation of Foucault s philosophy that is unified by his overlooked idea of the archaeology of knowledge As a result the book not only explains why and how power and freedom must be entangled but also what it means ethically to pursue and gain autonomy with respect to one s own understanding Power and Freedom in the Space of Reasons will appeal to scholars and advanced students working in social and political philosophy critical theory ethics philosophy of language and the history of 20th century philosophy The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4 0 license Any third party material in this book is not included in the OA Creative Commons license unless indicated otherwise in a credit line to the material Please direct any permissions enquiries to the original rightsholder This research was funded in whole or in part by the Austrian Science Fund FWF 10 55776 COE3 For open access purposes the author has applied a CC BY NC public copyright license to any author accepted manuscript version arising from this submission Published with the support of the Austrian Science Fund FWF 10 55776 PUB1157

*Foucault on the Arts and Letters* Catherine M. Soussloff, 2016-10-06 As one of the most important philosophers of the 20th century Michel Foucault s reputation today rests

on his political philosophy in relation to the contemporary subject in a neo liberal and globalized society This book offers insight into the role of the arts in Foucault's thought as a means to better understanding his contribution to larger debates concerning contemporary existence Visual culture literary film and performance studies have all engaged with Foucauldian theories but a full examination of Foucault's significance for aesthetic discourse has been lacking until now This book argues that Foucault's particular approach to philosophy as a way of thinking the self through the work of art provides significant grounds for rethinking his impact today The volume moves across as many disciplinary boundaries as Foucault himself did demonstrating the value of Foucault's approach to aesthetic discourse for our understanding of how the arts and humanities reflect upon contemporary existence in a globalized society

#### **Marxism and Psychoanalysis** David

Pavon-Cuellar,2016-12-19 The methods developed by Freud and Marx have enabled a range of scholars to critically reflect upon the ideological underpinnings of modern and now postmodern or hypermodern western societies In this intriguing book the discipline of psychology itself is screened through the twin dynamics of Marxism and psychoanalysis David Pavon Cuellar asks to what extent the terms concerns and goals of psychology reflect in fact the dominant bourgeois ideology that has allowed it to flourish The book charts a gradual psychologization within society and culture dating from the nineteenth century and examines how the tacit ideals within mainstream psychology creating good citizens or productive workers sit uneasily against Marx and Freud's ambitions of revealing fault lines and contradictions within individualist and consumer oriented structures The positivist aspiration of psychology to become a natural science has been the source of extensive debate critical voices asserting the social and cultural contexts through which the human mind and behaviour should be understood This challenging new book provides another voice that in addressing two of the most influential intellectual traditions of the past 150 years widens the debate still further to examine the foundations of psychology

#### **Understanding Foucault, Understanding Modernism** David Scott,2017-02-23

Michel Foucault continues to be regarded as one of the most essential thinkers of the twentieth century A brilliantly evocative writer and conceptual creator his influence is clearly discernible today across nearly every discipline philosophy and history certainly as well as literary and critical theory religious and social studies and the arts This volume exploits Foucault's insistent blurring

of the self imposed limits formed by the disciplines with each author in this volume discovering in Foucault's work a model useful for challenging not only these divisions but developing a more fundamental interrogation of modernism Foucault himself saw the calling into question of modernism to be the permanent task of his life's work thereby opening a path for rethinking the social Understanding Foucault Understanding Modernism shows on the one hand that literature and the arts play a fundamental structural role in Foucault's works while on the other hand it shifts to the foreground what it presumes to be motivating Foucault the interrogation of the problem of modernism To that end even his most explicitly historical or strictly epistemological and methodological enquiries directly engage the problem of modernism through the works of writers and artists from de Sade Mallarmé Baudelaire to Artaud Manet Borges Roussel and Bataille This volume therefore adopts a transdisciplinary approach as a way to establish connections between Foucault's thought and the aesthetic problems that emerge out of those specific literary and artistic works methods and styles designated modern The aim of this volume is to provide a resource for students and scholars not only in the fields of literature and philosophy but as well those interested in the intersections of art and intellectual history religious studies and critical theory **D.H. Lawrence's Final Fictions** Ben

Stoltzfus, 2024-04-08 D H Lawrence's Final Fictions A Lacanian Perspective explores how literature thinks more specifically how the reading of fiction influences behavior Lawrence writes passionately about our alienation from ourselves from other people and from the cosmos He believes that we need to heed the voices of our unconscious and he shows us how to meld body and mind so that psychoanalytically speaking Id and Ego can come together In this endeavor there is a salient convergence between Lawrence's writings and those of Jacques Lacan the French psychoanalyst In this book Stoltzfus examines the poetics of seven major fictions that Lawrence wrote between 1925 and 1930 five productive years that are referred to as his fabulation period In each of the book's seven chapters in tandem with Lacan's writings Stoltzfus analyzes seven major characters four of whom move from alienation to the renewal of self and the cosmos He argues that Lawrence's fiction is simultaneously descriptive and prescriptive by showing us how to circumvent dysfunction Stoltzfus brings literature and psychoanalysis together in readings that are both aesthetic and epistemological They are recipes for curing the Anthropocene

*Crisis of Authority* Nancy Luxon, 2013-09-23 Crisis of Authority analyzes the practices that bind authority trust and truthfulness in contemporary theory and politics Drawing on newly available archival materials Nancy Luxon locates two models for such practices in Sigmund Freud's writings on psychoanalytic technique and Michel Foucault's unpublished lectures on the ancient ethical practices of fearless speech or parrhesia The Canon and Beyond Tobias

Nicklas, 2024-10-28 How did the canon of the New Testament come into being To what extent can we also speak of a history of the already existing canon What functions were and are assigned to it in different historical contexts What is the relationship between canonical writings and extra canonical writings What is the relationship between Christian apocrypha and the texts of the Bible from the Old and New Testaments The number of questions surrounding the canon of New

Testament writings and the lasting significance of apocryphal writings and traditions in relation to the canon is almost inexhaustible This volume brings together contributions by Tobias Nicklas on these topics from the past twenty years A particular focus is on the reassessment of Christian apocrypha and their relationship to image and rite and on understanding of canon as a dynamic entity

**Is There Progress in Economics?** Stephan Boehm, 2002-01-01 Is There Progress in Economics should be given relatively high marks First the quality of the papers is quite high and second the editors did a relatively good job of selecting arranging and editing the contributions so that the volume really does focus on the question in its title The editors introduction also contributes to the overall effect by attempting to tie all of the papers together into a reasonably tight bundle D Wade Hands Economic Record This thought provoking book discusses the concept of progress in economics and investigates whether any advance has been made in its different spheres of research The authors look back at the history successes and failures of their respective fields and thoroughly examine the notion of progress from an epistemological and methodological perspective The idea of progress is particularly significant as the authors regard it as an essentially contested concept which can be defined in many ways theoretically or empirically locally or globally or as encouraging or impeding the existence of other research traditions The authors discuss the idea that for progress to make any sense there must be an accumulation of knowledge built up over time rather than the replacement of ideas by each successive generation Accordingly they are not concerned with estimating the price of progress reminiscing in the past or assessing what has been lost Instead they apply the complex mechanisms and machinery of the discipline to sub fields such as normative economics monetary economics trade and location theory Austrian economics and classical economics to critically assess whether progress has been made in these areas of research Bringing together authoritative and wide ranging contributions by leading scholars this book will challenge and engage those interested in philosophy economic methodology and the history of economic thought It will also appeal to economists in general who are interested in the advancement of their profession

**Dissident Authorship in Mozambique** Tom Stennett, 2023-11-01 Dissident Authorship in Mozambique the Case of Ant nio Quadros is the first monograph on the literary works of the penname of Portuguese poet and painter Ant nio Quadros 1933 1994 The book uses Quadros s quirky case a Portuguese man who lived in colonial and post independence Mozambique where he published poetry and prose under three pennames Jo o Pedro Grabato Dias Frey Ioannes Garabatus and Mutimati Barnab Jo oto to examine the question of what it means to be an author in Mozambique and how authorship changed after the end of Portuguese colonial rule Quadros s engagement with the question of the authors place and function in authoritarian contexts stands as a fruitful counterpoint to the influential essays by Roland Barthes The Death of the Author 1968 and Michel Foucault What is an Author 1969 the publication of which coincided with Quadros s literary d but in 1968 Quadros s interesting and useful contributions to the question of Mozambican authorship are analysed in historical context and read alongside postcolonial and decolonial theory Tom Stennett address the political implications of

Barthes's and Foucault's erasure of authorial identity and their respective challenges to authorial authority. He makes the case for an approach to the question of authorship that takes into account the anonymous agents and institutions such as editors, political parties and the State that are involved in the conferring of authority onto certain authors and readers. In contrast to much extant scholarship on Mozambican authorship which has tended to focus on questions related to identity and canonicity, *Dissident Authorship* addresses these themes as well as those of readership, authority, power and representation.

**The Pleasures of the Text** Elizabeth Locey, 2002-01-15 This provocative reading of scandalous French woman writer Violette Leduc heralded as a great by Beauvoir, Sartre, Genet, Camus erodes the divide between body and text in erotic literature. In *The Pleasures of the Text*, Elizabeth Locey sets herself the task of pinning down the often slippery ways in which pleasure is mapped onto the body of the reader and she confronts and challenges the philosophical debate between pornography and erotica.

**Jacques Lacan** Martin Murray, 2015-12-20 Winner of the CHOICE Outstanding Academic Book Prize 2016. The wide ranging and brilliant ideas of the French psychoanalyst Jacques Lacan (1901-1981) have had a major influence on modern thought. His followers are loyal and legion. Yet his ideas are complex and densely conveyed. Lacan's detractors have accused him of obscurantism, pretentiousness and even incoherence. His psychoanalytic practice and his personal life were complicated. He was famous and contentious in equal measure. Martin Murray provides a lucid account of Lacan's key concepts including the mirror stage and his relationship to Freud's ideas amongst many others. Tracing their origins in his diverse interests: art, psychiatry, philosophy, anthropology, linguistics and psychoanalysis, Murray also investigates Lacan's professional life, personal life and institutional influence in an attempt to understand the charismatic and controversial person he became.

**The New Orientalists** Ian Almond, 2007-07-20 The West's Orientalism, its construction of an Arab or Islamic Other, has been exposed and examined under the critical theory microscope and thoroughly expelled it seems from academic thought. At the same time, postmodern thinkers from Nietzsche onwards have employed the motifs and symbols of the Islamic Orient within an ongoing critique of Western modernity, an appropriation which this hugely controversial book argues runs every risk of becoming a new and more insidious Orientalist strain. Ian Almond sensitively yet rigorously examines the work of Nietzsche, Jacques Derrida, Michel Foucault, Jean Baudrillard, Julia Kristeva and Slavoj Žižek as well as that of postmodern writers Jorge Luis Borges, Salman Rushdie and Orhan Pamuk. In doing so, he exposes the implications of this use of Islam for both the postmodern project and for Islam itself. Taking apart the assumptions, omissions and contradictions inherent in these thinkers' approaches to Islam and to the Arab world, and drawing on the work of prominent Muslim thinkers including Ziauddin Sardar, Aziz Al-Azmeh and Bobby S. Sayyid, *The New Orientalists* highlights the difficulty of ever speaking truly about the Other. In light of the current Western climate of fear and hysteria surrounding the Islamic world, this groundbreaking project could hardly be more timely.

**Transcultural Graffiti** Russell West-Pavlov, 2005 *Transcultural Graffiti* reads a range of texts (prose, poetry, drama) in several European languages as exemplars of diasporic

writing The book scrutinizes contemporary transcultural literary creation for the manner in which it gives hints about the teaching of literary studies in our postcolonial globalizing era Transcultural Graffiti suggest that cultural work in particular transcultural work assembles and collates material from various cultures in their moment of meeting The teaching of such cultural collage in the classroom should equip students with the means to reflect upon and engage in cultural bricolage themselves in the present day The texts read from C saire s adaptation of Shakespeare s Tempest via the diaspora fictions of Marica Bodrozic or David Dabydeen to the post 9 11 poetry of New York poets are understood as graffiti like inscriptions the result of fleeting encounters in a swiftly changing public world Such texts provide impulses for a performative risk pedagogy capable of modelling the ways in which our constitutive individual and social narratives are constructed deconstructed and reconstructed today

**Foucault's Politics of Philosophy** Sandro Chignola, 2018-07-04 Oriented around the theme of a politics of philosophy this book tracks the phases in which Foucault s genealogy of power law and subjectivity was reorganized during the 14 years of his teaching at the College de France as his focus shifted from sovereignty to governance This theme Sandro Chignola argues here is the key to understanding four features of Foucault s work over this period First it foregrounds its immediate political character Second it demonstrates that Foucault s Greek trip also aims at a politics of the subject that is able to face the processes of the governmentalization of power Third it makes clear that the idea of the government of the self is drawing on an ethics of intellectual responsibility that is Weberian in origin an answer to the processes that within neoliberal governance produce the subject as an individual as a consumer a market agent an entrepreneur and so on Fourth the theme of a politics of philosophy implies that Foucault s research was never simply scholarly or neutral but rather was characterized by a specific political position Against recent interpretations that risk turning Foucault into a scholar here then Foucault is re presented as a key figure for jurisprudential and political philosophical research
