Head Master:

My Head Master Lilymjok, Kyuka, 2017-05-01 I first time I saw the man who became my headmaster was when he rode his motorcycle past our house in Tyosa. He was a huge dark hairy man with big eyeballs that looked like they could see through anything and often saw through everything. His eyes were so frightening to me that I always trembled whenever he turned them on me. Not only were the eyeballs big, he had a way of baring them in the most frightening manner when he focused them on you. Older people said his father Akut was nicknamed Akut, the owner of frightening eyes, for pretty much the same reason. His eyeballs were said to be so big as to scare away birds whenever he entered the forest. Some people said they scared away chickens too. So he was called Akut, the owner of frightening eyes. But Akut's son was headmaster and no one dared pass his nickname to his son though he had passed his frightening eyes to the son. No one dared sing songs behind him the way children used to sing behind Akut his father. Passing through and growing up in school with Akut's son as the Headmaster and what it took to grow up in a closely knit community through the eyes and memory of a pupil is a story that has to be told, the story of any pupil. And this is the story. **School Management** M. Dash & Neena Dash, 2008

Management is the primary force within any organization which coordinates the activities of various systems in relation to its objectives. A school being a social organization with specified objectives, the school management means the use of people and other resources to accomplish the objectives of the school. School management has two major aspects: internal management which covers issues like admission, management of library, laboratory, building, physical material and financial resources etc, and external management which covers relations with the community and outside agencies connected with the establishment and functioning of the school. School management is a cooperative human endeavour and requires the cooperation of teachers, parents, students, community members and local administration for smooth functioning. Though computers are now increasingly used in the management process, it is the human element which is the key to all effective management. The present book is designed as per the new syllabus on school management and is intended for use by the B Ed students of Indian universities. It contains conceptual discussion on school management, participatory and non-participatory management and management of various resources. It studies management approaches and decision making. The book includes discussions on the physical infrastructure of the school in terms of adequacy, availability and utilization along with scores of other issues like space management, delegation of authority, accountability, teacher coordination, liaison with outside agencies including the respective state education board etc. Besides the students and teachers of school management, the book will prove extremely useful to the managements of various schools across India and different functionaries in education boards, departments and agencies related directly or indirectly with education and school management. **The Educational calendar and scholastic year book [ed. by F.
