A Beginner's Guide to Healing Plants and Herbs - Herbs in Your Kitchen that Heal John Davidson, Dueep J. Singh, 2013-05-15 A Beginner's Guide to Healing Plants and Herbs Herbs in Your Kitchen that Heal Table of Contents Herbs in Your Kitchen and to Heal Introduction How to Make Herb Biscuits Making Herb Butters Green Butter Making Natural Green Dye for Your Butters Herb Waters for Perfumed Uses Lavender Vinegar Essential oils Herbal Teas List of Herbal Teas Angelica Coriander Dandelion Balm Bergamot Elderflower Hyssop Dill and Caraway seeds Parsley Marigold petals Mint Chamomile Borage Rue Sage Rosemary Thyme Anise Lime flowers Linden also known as Tilleul teey uhl Lime flowers Sirop Tomato Cream Sauce Traditional White Sauce B chamel Conclusion Appendix How to make Rose Water Rosewater through Steam Condensation Conversion units Author Bio Introduction A keen young budding botanist once asked me Ma am how do we know the difference between herbs shrubs and trees Well the answer is that a majority of herbal plants are definitely soft stemmed and smaller in size when compared to shrubs which are woody and often branched Herbs are annuals and sometimes perennials Shrubs are perennials like trees And trees are definitely different because they have long woody trunks which are branched grow to huge heights and live really long Herbs have been used since ancient times for medicinal value and also for cookery purposes Shrubs are mainly ornamental plants with their leaves and flowers being used as culinary accompaniments and also for medicinal purposes Herbs can be shrubs Shrubs can be herbs Woody stemmed bushes like rosemary thyme lavender winter savory and Sage come in the herbal category The serious use of plants in medicine is in the province of homeopathic practitioners and natural herbalists who employ most species of herbs from mosses to trees in making their herbal remedies This book is going to give you an introduction to some of the herbs which are easy to grow and you can obtain easily fresh or dried How did people get to know about herbs in ancient times The awareness of the edible as well as the remedial qualities of herbs must have been gained by happy and sad experiences in prehistoric days When food was scarce and often very nasty pungent herbs made it more palatable The larger succulent leaves and plants provided salads and vegetables as an accompaniment to hunted mastodons and other prehistoric beasts Soon man found out that some of these herbs could cure and heal wounds and ease suffering as even the tastiest culinary herb has a real medicinal value and virtue This is how prehistoric man found out that Moss sphagnum was an excellent healer of wounds Just imagine he went hunting and got into an argument with a sabertooth And there he was with wounds all over his body lying nose down on the mossy ground So he found himself clutching a handful of moss squeezing it and trying to stop the blood flow from the wounds Hey the Moss was so absorbent that it stopped the wound from bleeding any more So

back he came back to his tribal camp with Moss sticking all over his body After a week or so he noticed that his wounds were healing really well Now most of this was just by trial and error and luck His genetic makeup was strong and his diet conducive to good natural healing But that meant that the next time he went on the warpath with other tribes in the vicinity he made sure that the healer had packed lots of sphagnum along with food in a pouch for every warrior Early civilizations inherited this knowledge and developed it even further and both doctors and cooks used herbs appreciatively and with increasing beneficial effects Doctors experimented with every kind of plant and cooks with the more deliciously flavored types
