Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 House of Commons - Health Committee: After Francis: Making A Difference - HC 657 Great Britain: Parliament: House of Commons: Health Committee, 2013-09-18 The NHS needs to be an organization in which an open dialogue about care quality is part of the natural culture of the organization not a duty which only arises in cases of service failure Robert Francis made 290 recommendations in his report but in truth they boil down to just one that the culture of doing the system's business is pervasive in parts of the NHS and has to change Many who raise their concerns in the NHS at present risk serious consequences for their employment and professional status But disciplinary procedures professional conduct hearings and employment tribunals are not the proper place for honestly held concerns about patient safety and care quality to be aired constructively The NHS standard contract imposes a duty of candour on all NHS providers This is an essential principle but it is not adequately understood or applied It should mean that all providers create a culture which is routinely open both with their patients and their commissioners The same principle should apply to commissioners so that they are routinely open and accountable to local communities The Health Committee recommended this approach in 2011 and repeats that now It should be a prime role of the CQC to encourage the development of this culture within care providers and of NHS England to develop the same culture within commissioners The Health Committee will in future work closely with the Professional Standards Authority to develop the accountability process for professional regulators in healthcare

Research Methods for Nursing and Healthcare John Maltby, Glenn Williams, Julie McGarry, Liz Day, 2014-02-04 Research Methods for Nursing and Healthcare is an essential introductory text for all nursing and healthcare students coming to research methods for the first time or those nurses and healthcare staff wishing to improve their skills in this area The book includes comprehensive coverage of the main research methods topics and provides guidance on how to understand and apply research techniques Everyday nursing examples are used throughout to explain research methods concepts and their relevance to practice Simple self assessment tasks are included at the end of chapters the tests can be undertaken individually or within groups to assess the students understanding of the concepts and skills being learnt Research Methods for Nursing and Healthcare takes the fear out of research methods for all nursing and healthcare professionals Excellent introductory text that brings interest to research methods for student nurses Dr Aimee Aubeeluck Deputy Director Graduate Entry Nursing School of Nursing Midwifery and Physiotherapy University of Nottingham I think this is one of the most readable books on research I have read Not the most scholarly but that was not the intention It is certainly the most user friendly book that will make the whole often scary subject of research less threatening Paula Crick Principal Lecturer Faculty of Health Staffordshire University I do think this is one of the most engaging texts aimed at nursing that I have read in a while This does seem much more exciting and more importantly real world Lucy Land Senior Academic Centre for Health and Social Care Research Faculty of Health
