Scarcity and Growth Revisited R. David Simpson, Michael A. Toman, Robert U. Ayres, 2012-05-23 In this volume a group of distinguished international scholars provides a fresh investigation of the most fundamental issues involved in our dependence on natural resources In *Scarcity and Growth* RFF 1963 and *Scarcity and Growth Reconsidered* RFF 1979 researchers considered the long term implications of resource

scarcity for economic growth and human well being Scarcity and Growth Revisited examines these implications with 25 years of new learning and experience It finds that concerns about resource scarcity have changed in essential ways In contrast with the earlier preoccupation with the adequacy of fuel mineral and agricultural resources and the efficiency by which they are allocated the greatest concern today is about the Earth s limited capacity to handle the environmental consequences of resource extraction and use Opinion among scholars is divided on the ability of technological innovation to ameliorate this new scarcity However even the book s more optimistic authors agree that the problems will not be successfully overcome without significant advances in the legal financial and other social institutions that protect the environment and support technical innovation Scarcity and Growth Revisited incorporates expert perspectives from the physical and life sciences as well as economics It includes issues confronting the developing world as well as industrialized societies The book begins with a review of the debate about scarcity and economic growth and a review of current assessments of natural resource availability and consumption The twelve chapters that follow provide an accessible lively and authoritative update to an enduring but changing debate

Nursing Ethics E-Book Ian E. Thompson, Kath M. Melia, Kenneth M. Boyd, Dorothy Horsburgh, 2006-06-14 The eBook version of this title gives you access to the complete book content electronically Evolve eBooks allows you to quickly search the entire book make notes add highlights and study more efficiently Buying other Evolve eBooks titles makes your learning experience even better all of the eBooks will work together on your electronic bookshelf so that you can search across your entire library of Nursing eBooks Please note that this version is the eBook only and does not include the printed textbook Alternatively you can buy the Text and Evolve eBooks Package which gives you the printed book plus the eBook Please scroll down to our Related Titles section to find this title The fifth edition of this highly popular text offers a lucid and readable account of ethical issues affecting nurses and other health care practitioners which will be of value throughout their careers Nursing ethics offers a highly practical approach with a direct focus on ethical issues that might be encountered by health practitioners in training in practice and in management It is also interactive and case based encouraging readers to reflect on their current and future areas of practice The concluding chapters discuss the role of moral theory and give practical models for ethical decision making The authors have developed a holistic approach that explores ethics in hospital and community settings inter disciplinary teamwork ward and hospital management nursing research performance management and the political ethics of nursing administration health service re structuring and reform The content has been substantially revised for this edition and significant new material added to reflect developments in theory and practice covers a wide range of ethical issues much more than just clinical dilemmas and decision making skills a down to earth and practical approach to applied ethics user friendly layout material on moral theory kept to a minimum but dealt with thoroughly at the end of the book focuses on ethical issues in nursing and case studies taken from nursing practice i e the concrete concerns of nurses and other front line workers pedagogical features include chapter aims learning

outcomes and further reading for possible essay tutorial and project topics also useful as a general work of reference on ethic in health care An up to date analysis of professions in the context of modernity to enable health professionals to make sense of global cultural social developments An analysis of the ethics of evidence based practice An examination of professional accountability and ethics in performance management to help practitioners managers understand the ethical basis of management useful web links and teaching notes on a dedicated website <http://evolve.elsevier.com/Thompson/nursingethics>

Health Care Financing Review, 2005 **Disability Politics and Theory** A.J. Withers, 2020-06-19T00:00:00Z An accessible introduction to disability studies Disability Politics and Theory provides a concise survey of disability history exploring the concept of disability as it has been conceived from the late 19th century to the present Further A J Withers examines when how and why new categories of disability are created and describes how capitalism benefits from and enforces disabled people s oppression Critiquing the model that currently dominates the discipline the social model of disability this book offers an alternative the radical disability model This model builds on the social model but draws from more recent schools of radical thought particularly feminism and critical race theory to emphasize the role of intersecting oppressions in the marginalization of disabled people and the importance of addressing disability both independently and in conjunction with other oppressions Intertwining theoretical and historical analysis with personal experience this book is a poignant portrayal of disabled people in Canada and the U S and a radical call for social and economic justice **Monthly Digest of Statistics**, 2012 **A Companion to Women's Military History** Barton Hacker, Margaret Vining, 2012-08-17 This volume addresses the changing relationships between women and armed forces from antiquity to the present eight chapters review the existing literature an extended picture essay visually documents women s military work and eight chapters illustrate more restricted topics *International encyclopedia of adolescence* Jeffrey Jensen Arnett, 2007 Publisher description *Healthcare Politics and Policy in America* Kant Patel, Mark E. Rushefsky, 2014-04-25 Fully updated this new edition provides a comprehensive examination of the ways that health policy has been shaped by the political socioeconomic and ideological environment of the United States The roles played by public and private institutional and individual actors in designing the healthcare system are identified at all levels
