Matthew Clarke, Simon Feeny, 2013-09-13 In the year 2000 the international community agreed to a framework to address global poverty This framework known as the Millennium Development Goals was time bound with an end date of 2015 With this end now in sight the international community is focusing on the achievement of these goals However it is also very important that consideration now turns to what will follow the MDGs after 2015 Millennium Development Goals Looking Beyond 2015 provides a critical analysis of the MDGs and discusses a range of issues that must be considered by the international community in determining what poverty alleviation framework might replace the MDGs This reflection is made even more imperative as the poverty landscape has shifted considerably since these original goals were made This book was originally published as a special issue of the Journal of the Asia Pacific Economy      **Implementation of the Millennium**

**(MDGs) in Retrospect** Nathan Andrews, Nene Ernest Khalema, N'Dri T. Assié-Lumumba, 2015-06-10 This volume examines the impact of the Millennium Development Goals MDGs on Africa's development post 2015. It assesses the current state of the MDGs in Africa by outlining the successes, gaps and failures of the state goals including lessons learned. A unique feature of the book is the exposition on post MDG's agenda for Africa's development. Chapters on poverty, south-south partnership, aid, gender empowerment, health as well as governance and development explore what feasible alternatives lie ahead for Africa beyond the expiry date of the MDGs.

**Financial Sector Development and the Millennium Development Goals** Stijn Claessens, Erik Feijen, 2007 This study investigates the relationship between financial sector development and progress in reaching the Millennium Development Goals MDGs. It assesses the contribution of countries' financial sector development to achieving the MDGs. The focus is on the relationships between financial development and economic welfare and growth and the following four MDG themes: Poverty, Education, Health and Gender Equality. In doing so, the book reviews the theoretical channels, surveys existing empirical evidence both cross-country and case study evidence and provides new evidence. Financial Sector Development and the Millennium Development Goals finds that financial development is an important driver for economic welfare in that it reduces the prevalence of income poverty and undernourishment. In addition, new evidence is provided of a positive association between financial development and health, education and gender equality.

Gender, Health and the Millennium Development Goals : a Briefing Document and Resource Guide Lesley Doyal, 2005

**Millennium Development Goals and Community Initiatives in the Asia Pacific** Amita Singh, Eduardo T. Gonzalez, Stanley Bruce Thomson, 2012-12-18 The book brings together implementation studies from the Asia Pacific countries in the context of the deadline of 2015 for achieving the Millennium Development Goals. The contributors to this volume are scholars belonging to the Network of Asia Pacific Schools and Institutes of Public Administration and Governance NAPSIPAG. NAPSIPAG is the only non-West governance research network presently located at Jawaharlal Nehru University, New Delhi, after having shifted from its original location at INTAN, Government of Malaysia at Kuala Lumpur in 2009. Implementation is a less understood but a much debated area of governance research. It requires micro-level analysis of government agencies, service delivery departments and stakeholders on one hand and its national and global policy level connections on the other. Implementation studies are above disciplinary divides and subsequent disjunctions which inhibit explorations on policy downslides or failures. The studies relate to the new initiatives which governments across the region have undertaken to reach out to the MDG targets agreed upon in 2000. The focus of analysis is the policy framework, local capacities of both the government agencies and people in drawing partnerships with relevant expert groups, ability to bring transparency and accountability measures in transactions for cost-effective results, leadership and sustainability dimensions which influence the functioning of local agencies. The book is especially important in the background of 15 voluminous Administrative Reforms Commission Reports accumulating dust in India and similar efforts lying unattended in many other

countries of this region as well Countries like Malaysia which has focused upon implementation strategies combined with timely evaluation and supervision of administrative agencies has almost achieved most of their committed MDGs A special report of Malaysian efforts initiates the debate of moving beyond the best practice research in implementation arena The central idea of this book is to demonstrate the role of communities in making governance effective and government responsive to the needs of people
