Hearing Americas Youth Social Identities In Uncertain Times:

Hearing America's Youth Catherine Cornbleth, 2003 Self descriptions of a diverse group of high school juniors and seniors reveal that one sixth of the students reject racial ethnic or all group categorization and that most students of mixed ancestry have positive self images While strong racial identities are not widespread racism is emphasized and remains a significant concern back cover *Handbook of Research on Individualism and Identity in the Globalized Digital Age* Topor, F. Sigmund, 2016-08-15 Globalization has shifted perspectives on individualism and identity as cultural exchange occurs more rapidly in an age of heightened connectivity As technology connects those around the world it too helps to provoke a shift in the autonomy of individuals The Handbook of Research on Individualism and Identity in the Globalized Digital Age is an essential resource for researchers professionals and graduate level students This book explores and explains how globalization has impacted humans with specific emphasis on education and human development This research based publication presents critical perspectives on universal changes that are occurring due to globalization **Class Reunion** Lois Weis, 2005-01-15 Noted scholar Lois Weis first visited the town of Freeway in her 1990 book Working Class Without Work In that book we met the students and teachers of Freeway s high school to understand how these working class folks made sense of their lives Now fifteen years later Weis has gone back to Freeway for Class Reunion This time her focus is on the now grown up students who are for the most part still working class and now struggling to survive the challenges of the global economy Class Reunion is a rare and valuable longitudinal ethnographic study that provides powerful provocative insight into how the lives of these men and women have changed over the last two decades and what their prospects might be for the future **The Way Class Works** Lois Weis, 2009-09-10 Since the 1980s the relationship between social class and education has been overshadowed by scholarship more generally targeting issues of race gender and representation Today with the global economy deeply immersed in social inequalities there is pressing need for serious class based analyses of schooling family life and social structure The Way Class Works is a collection of twenty four groundbreaking essays on the material conditions of social class and the ways in which class is produced on the ground in educational institutions and families Written by the most visible and important scholars in education and the social sciences these timely essays explore the production of class in and through the economy family and school while simultaneously interrogating and challenging our understandings of social class as linked to race gender and nation With essays by distinguished scholars and questions for further reflection and discussion The Way Class Works will be an invaluable resource for students and scholars in education sociology and beyond SAGE Handbook of Education for Citizenship and Democracy James Arthur, Ian Davies, Carole Hahn, 2008-07-01 This handbook brings together new work by some of the leading authorities on citizenship education and is divided into five sections The first section deals with key ideas about citizenship education including democracy rights globalization and equity Section two contains a wide range of national case studies of citizenship education including African

Asian Australian European and North and South American examples The third section focuses on perspectives about citizenship education with discussions about key areas such as sustainable development anti racism gender Section four provides insights into different characterisations of citizenship education with illustrations of democratic schools peace and conflict education global education human rights education etc The final section provides a series of chapters on the pedagogy of citizenship education with discussions about curriculum teaching learning and assessment Education Research in the Public Interest Gloria Ladson-Billings, William F. Tate, 2014-04-15 Acclaimed African American scholar and teacher educator Gloria Ladson Billings examines the field of teacher education through the accomplishments and contributions of well known African American teacher educators Lisa Delpit Carl Grant Jacqueline Jordan Irvine Geneva Gay Cherry McGee Banks William Tate and Joyce King Using in depth interviews and storytelling Ladson Billings depicts deeply personal portraits of these scholars experiences to confront race and racism not only theoretically but within their everyday professional lives in the Big House of the academy Ladson Billings gives these portraits even greater resonance and meaning by pairing these teacher educators with historical figures such as Harriet Tubman Nat Turner and Charlotte Forten whose contributions to the struggle for social justice are a wellspring of hope and courage to all educators and a tribute to African Americans whose political scientific and spiritual efforts made life better for us all This compelling book is important reading for all educators who want to transform teacher education for the better The American Association of Colleges for Teacher Education is enthused and excited about Ladson Billings s dynamic and provoking scholarship Its focus on outstanding African American teacher educators is a major contribution to teacher education literature This cutting edge research is likely to prompt some of the best of unconventional teacher education thought David G Imig President and CEO American Association of Colleges for Teacher Education In this moving and original book Gloria Ladson Billings offers complex insights about the politics of scholarship the experiences of scholars of color in universities and the larger enterprise of teaching and teacher education for social justice Marilyn Cochran Smith Lynch School of Education Boston College and President of the American Educational Research Association AERA for 2004 05 **Global Youth** Marc V. Felizzi, Karen M. Rice, 2015-09-04 Youth violence is not a unique phenomenon and in fact youth have been plagued with challenges throughout the centuries that have placed them at risk of violent tendencies These challenges include poverty inadequate healthcare limited educational opportunities exploitation gender inequality substance abuse mental health concerns homelessness gang involvement and family dysfunction Further these challenges are not unique to youth within the United States however these experiences may differ in terms of chronicity intensity and impact In all youth these challenges create stress and trauma that compromise well being This book explores the challenges that youth experience and provides context to better understand the factors related and contributing to those issues The chapters describing realistic and practical violence prevention and remediation programs which are both innovative and effective are particularly unique Additionally there are a number of

chapters that discuss the latest technological advances in helping young people as well as evidence based assessments and evaluations to help those who work with young people understand the needs of at risk youth

The Re-Enchantment of the West Christopher Partridge, 2005-01-04 As a book about emergent spirituality in the contemporary West this book focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One of the book provides the theoretical background and guides the reader through some of the principal debates After an overview of the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch especially his enigmatic analysis of the emergence mystical religion which presciently provides helpful insights into understanding the contemporary alternative religious milieu Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West

Invisible Children in the Society and Its Schools Sue Books, 2015-04-24 The authors in this book use the metaphors of invisibility and visibility to explore the social and school lives of many children and young people in North America whose complexity strengths and vulnerabilities are largely unseen in the society and its schools These invisible children are socially devalued in the sense that alleviating the difficult conditions of their lives is not a priority children who are subjected to derogatory stereotypes who are educationally neglected in schools that respond inadequately if at all to their needs and who receive relatively little attention from scholars in the field of education or writers in the popular press The chapter authors some of the most passionate and insightful scholars in the field of education today detail oversights and assaults visible and invisible but also affirm the capacity of many of these young people to survive flourish and often educate others despite the painful and even desperate circumstances of their lives By sharing their voices providing basic information about them and offering thoughtful analysis of their social situation this volume combines education and advocacy in an accessible volume responsive to some of the most pressing issues of our time Although their research methodologies differ all of the contributors aim to get the facts straight and to set them in a meaningful context

New in the Third Edition Chapters retained from the previous edition have been thoroughly revised and updated and five totally new chapters have been added on the topics of young people pushed into the school to prison pipeline the environmental landscape of two out of school Mexican migrant teens in the rural Midwest the perceptions and practices in and outside schools that construct African American boys as school failures negative portrayals of blackness in the context of understanding the collateral damage of continued white privilege and working class pregnant and parenting teens efforts to create positive identities for themselves Of interest to a broad range of researchers students and practitioners across the field of education this compelling book is accessible to all readers

It is particularly appropriate as a text for courses that address the social context of education cultural and political change and public policy including social foundations of education sociology of education multicultural education curriculum studies and educational policy

Diversity and the New Teacher Catherine Cornbleth, 2008-07-25 In this extraordinary volume veteran teacher educator and internationally respected scholar Catherine Cornbleth examines one of the most challenging issues for new teachers how to effectively teach a diverse student population Cornbleth weaves the voices and experiences of student teachers from urban elementary and high schools into her own analysis She invites new and prospective teachers especially white teachers from middle class homes to draw on these experiences to explore working more constructively with students different from themselves and to succeed in schools different than their own She also speaks to teacher educators about their role in preparing new teachers to face increasing diversity in public schools Featuring vignettes and interviews this book Offers in depth descriptions of the issues white student teachers confront as they teach in urban settings Provides insight and advice to help strengthen relationships between racially socioeconomically and culturally dissimilar students and teachers Examines the successes and failures teachers experience when engaging diverse groups of students in meaningful academic learning

Youth Homelessness in Late Modernity David Farrugia, 2015-07-30 This book explores the identities embodied experiences and personal relationships of young people experiencing homelessness and analyses these in relation to the material and symbolic position that youth homelessness occupies in modern societies Drawing on empirical research conducted in both urban and rural areas the book situates young people's experiences of homelessness within a theoretical framework that

connects embodied identities and relationships with processes of social change The book theorises a symbolic economy of youth homelessness that encompasses the subjective aesthetic and relational dimensions of homelessness This theory shows the personal interpersonal and affective suffering that is caused by the relations of power and privilege that produce contemporary youth homelessness The book is unique in the way in which it places youth homelessness within the wider contexts of inequality and social change Whilst contemporary discussions of youth homelessness understand the topic as a discrete social problem this book demonstrates the position that youth homelessness occupies within wider social processes inequalities and theoretical debates addressing theories of social change in late modernity and their relationship to the cultural construction of youth These theoretical debates are made concrete by means of an exploration of an important form of contemporary inequality youth homelessness

Youth Cultures in America Simon J. Bronner, Cindy Dell

Clark, 2016-03-21 What are the components of youth cultures today This encyclopedia examines the facets of youth cultures and brings them to the forefront Although issues of youth culture are frequently cited in classrooms and public forums most encyclopedias of childhood and youth are devoted to history human development and society A limitation on the reference bookshelf is the restriction of youth to pre adolescence although issues of youth continue into young adulthood This encyclopedia addresses an academic audience of professors and students in childhood studies American studies and culture studies The authors span disciplines of psychology sociology anthropology history and folklore The Encyclopedia of Youth Cultures in America addresses a need for historical social and cultural information on a wide array of youth groups Such a reference work serves as a corrective to the narrow public view that young people are part of an amalgamated youth group or occupy malicious gangs and satanic cults Widespread reports of bullying school violence dominance of athletics over academics and changing demographics in the United States has drawn renewed attention to the changing cultural landscape of youth in and out of school to explain social and psychological problems
