No Laughing Matter Robert Palestini,2012-10-18 Educators are not alone in perennially seeking the best leadership practices

and applying them to their own leadership behavior What constitutes effective leadership seems to be on the minds of people everywhere Recently there has been some seminal work done with regard to the role of humor in leadership effectiveness Several contemporary empirical studies corroborate some earlier research that closely linked effective leadership to whether the leader possesses a well developed sense of humor In light of this connection between possessing a keen sense of humor and leadership effectiveness this book profiles the leadership behavior of ten proven leaders from many walks of life whose leadership style included a highly developed sense of humor The idea of course would be to look at the overall leadership behavior of these individuals but focus especially on their symbolic frame leadership behavior in the form of humor to determine how their behavior can inform our own particular leadership style *Vegetarian Times* ,1996-07 **Children and Families in Health and Illness** Marion Broome,1998-03-09 Written and edited by leading pediatric and family nurse researchers this book provides a synthesis of the research literature in nursing and health promotion of children pediatric acute and chronic conditions and children and families in the health care system Children and Families in Health and Illness will prove an excellent shelf reference for researchers and a thought provoking read for advanced level practitioner in child or family nursing Cultural Differences in Educational Leadership Robert Palestini,2016-09-23 Leaders and aspiring leaders from all over the world are constantly searching for role models who are successful in placing leadership theory into effective practice This book identifies ten such role models whose heroic leadership behavior is analyzed in order to reveal what particular abilities and skills made them successful in their particular society and culture and how those attributes can be applied to one s own leadership practice whether that be as a classroom teacher a principal a superintendent of schools or a college president in the United States or elsewhere in the world Feminist Theory and Educational Leadership Robert Palestini,2013-05-09 Who is an effective leader has been a question posed by scholars educators and practitioners of leadership for centuries Historically leadership positions as well as research on leadership and effective leadership was primarily reserved for men or masculine characteristics With most societies traditionally following a patriarchal hierarchy few people questioned inequalities in leadership attainment largely because of supernatural and or natural explanations of men s natural ability and desire to lead This book runs counter to that culture and examines the experiences and leadership enactments of ten historically famous women leaders in hopes of gaining insight into their uniquely female leadership styles The ten leaders include Catherine the Great Jane Addams Queen Victoria Marie Montessori Indira Gandhi Golda Meir Mother Teresa Margaret Thatcher Pat Summit and Hillary Clinton The idea of course is to reflect upon these great women s leadership styles in order to inform one s own leadership behavior **Prevention Report** ,1992 *Exploring Health Psychology* Spencer A. Rathus,Jeffrey S. Nevid,2021-03-09 Exploring Health Psychology provides comprehensive yet student friendly coverage of both traditional topics in the field and important contemporary issues relating to reproductive sexual and psychological health Using an informal sometimes humorous narrative the authors engage students of all interest levels
