The (M)other Tongue Shirley N. Garner, Claire Kahane, Madelon S. Sprengnether, 2019-06-30 This timely and provocative collection of sixteen essays combines feminist and psychoanalytic approaches to literary theory and to the reading of literary texts It demonstrates not only the ways in which psychoanalytic theory can illuminate traditional literary texts but also the ways in which feminist theory can modify enlarge and in some instances transform the body of psychoanalytic literature Treating psychoanalysis as a form of narrative as well as a method of interpretation the editors have divided their collection into three sections 1 interpretations of the relation between contemporary feminism and Freud 2 rereadings of classic patriarchal texts in the light of psychoanalytic feminism and 3 readings of texts by women writers that have subverted patriarchal structures and given authoritative new voice to the maternal figure Many of the essays make original contributions to the current debate about the conjunction of Freud and feminism others offer innovative readings of specific texts that illustrate the significance of that relation The Introduction provides an up to date survey of feminist psychoanalytic theory and enumerates the central issues Because of the diversity of critical perspectives it offers and the range of texts it considers this rich and important book will attract a broad spectrum of readers

movements as well as the more visible male activism of today in such groups as Proud Boys Three Percenters and Oath Keepers The book explores the misogyny and militancy embodied in these new quests for manhood The first section covers pop culture influences on conceptions of masculinity and moves from celebrity iconography to the institutional and organizational influences that men have relied on in the effort to make themselves masculine The second section describes masculinity and men s movements in the 20th century and the third section covers the 21st The final chapters analyze the contrast between the more thoughtful men s movements before the turn of the century and the more militant and physical movements after 2000 posing and addressing critical questions about the relationship between prevailing ideals of masculinity and events like the January 6th insurrection
