Churchill and the Islamic World Warren Dockter,2015-03-20 Winston Churchill was the greatest statesman of the twentieth century yet he began his career as a colonial policeman in the North West borderlands of India and this experience was the beginning of his long relationship with the Islamic world Overturning the widely accepted consensus that Churchill was indifferent to and even contemptuous of matters concerning the Middle East this book unravels Churchill s nuanced understanding of the edges of the British Empire Warren Dockter analyses the future Prime Minister s experiences of the East including his work as Colonial Under Secretary in the early 1900s his relations with the Ottomans and conduct during the Dardanelles Campaign of 1915 16 his arguments with David Lloyd George over Turkey and his pragmatic support of Syria and Saudi Arabia during World War II Challenging the popular depiction of Churchill as an ignorant imperialist when it came to the Middle East Dockter suggests that his policy making was often progressive when compared to the orientalist prejudices of many of his contemporaries Above all the book shows how Churchill left a lasting legacy in the region which continues to be felt in Middle Eastern politics and British policy today

Citadel of Shia Imams Mahboob Illahi,2020-01-01 Unfairly demonized by its adversaries including the Sunni Arab countries along with the US and EU Iran is wary of the world s powers after having been preyed upon to achieve other countries political aims Iranians are Shia Muslims a minority sect comprising only 10 to 15% of the billion plus Muslims in the world Shias

persecution and marginalization began in ancient times after the demise of the Prophet of Islam in 632 and has continued ever since. In modern times their worldwide oppression has been spearheaded by Saudi Arabia whose religion considers Shias to be apostates who deserve to be killed and its allies a persecution that began with the 1979 Iranian Revolution which was followed by the unprovoked invasion of Iran by Iraq in 1980 and the successful defence of this invasion by Iran's revolutionary forces. Building upon this history, Iran the Citadel of Shia Imams details the alarming aggression of the Sunni countries of the Middle East against the Shia-led regimes of Iraq, Syria and Yemen, a relentless persecution of Shia Muslims and extreme injustice and aggression towards them, the details of which need to be brought to light. The unfortunate and reckless support of Saudi Arabia and its allies by the US and many other Western nations has perpetuated a blatant infringement upon the human rights of Iranians and Shia Muslims elsewhere. The oppression of Iranians continues in the form of toughened US sanctions contrary to international law.

The History of Central Asia Christoph Baumer, 2016-05-30

Between the ninth and the fifteenth centuries Central Asia was a major political, economic and cultural hub on the Eurasian continent. In the first half of the thirteenth century it was also the pre-eminent centre of power in the largest land-based empire the world has ever seen. This third volume of Christoph Baumer's extensively praised and lavishly illustrated new history of the region is above all a story of invasion when tumultuous and often brutal conquest profoundly shaped the later history of the globe. The author explores the rise of Islam and the remarkable victories of the Arab armies which inspired by their vital, austere and egalitarian desert faith established important new dynasties like the Seljuks, Karakhanids and Ghaznavids. A golden age of artistic, literary and scientific innovation came to a sudden end when between 1219 and 1260 Genghis Khan and his successors overran the Chorasmian, Abbasid lands. Dr Baumer shows that the Mongol conquests while shattering to their enemies nevertheless resulted in much greater mercantile and cultural contact between Central Asia and Western Europe.

The Muslim World in the 21st Century Samiul Hasan, 2012-01-14

Islam is not only a religion but also a culture, tradition and civilization. There are currently 1.5 billion people in the world who identify themselves as Muslim. Two thirds of the worldwide Muslim population, i.e. approximately a billion people live in forty-eight Muslim majority countries (MMC) in the world, all of which except one are in Africa and Asia. Of these MMCs in Africa and Asia only twelve inhabited by about 165 million people have ever achieved a high score on the Human Development Index (HDI), the index that measures life expectancy at birth, education and standard of living and ranks how developed a country is. This means that the majority of the world's Muslim population lives in poverty with low or medium level of human development. The contributions to this innovative volume attempt to determine why this is. They explore the influence of environment, space and power on human development. The result is a complex interdisciplinary study of all MMCs in Africa and Asia. It offers new insights into the current state of the Muslim World and provides a theoretical framework for studying human development from an interdisciplinary, social, cultural, economic, environmental, political and religious perspective which will be applicable to

majority argued that the new leader of Islam should be elected by the community's elite. Others believed only members of Muhammad's family could lead. This dispute over who should guide Muslims, the appointed Caliph or the bloodline Imam, marks the origin of the Sunni-Shii split in Islam. Toby Matthiesen explores this hugely significant division from its origins to the present day. Moving chronologically, his book sheds light on the many ways that it has shaped the Islamic world, outlining how over the centuries Sunnism and Shiism became Islam's two main branches, particularly after the Muslim Empires embraced sectarian identity. It reveals how colonial rule institutionalised divisions between Sunnism and Shiism both on the Indian subcontinent and in the greater Middle East, giving rise to pan-Islamic resistance and Sunni and Shii revivalism. It then focuses on the fallout from the 1979 revolution in Iran and the US-led military intervention in Iraq. As Matthiesen shows, however, though Sunnism and Shiism have had a long and antagonistic history, most Muslims have led lives characterised by confessional ambiguity and peaceful co-existence. Tensions arise when sectarian identity becomes linked to politics. Based on a synthesis of decades of scholarship in numerous languages, *The Caliph and the Imam* will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots.

Muhammad and Islam Bharat Singh, 2021-04-05. What was so special about Muhammad that caused people to follow him, obey him and trust him when he declared he was a prophet? Bharat Singh, a retired professor, covers the prophet's extraordinary achievements in this academic work. He examines how in a short period from the time Muhammad became a prophet to his death, he successfully converted most Arabs and many others to Islam. At the same time, he also established an Arab kingdom and developed a religious doctrine based on Allah's messages, and his examples followed by about two billion Muslims today. In simple language, the author answers questions such as: What are the doctrines, beliefs and rituals of Islam? What is the meaning behind the traditions and practices of Muslims? How does the Quran shape behavior in daily life, social customs, gender issues, marriage, divorce, legal and illegal sexual relationships, and more? Why do Muslims put faith in the divinely inspired judicial system of sharia instead of laws formed by humans? Knowing the immense curiosity in the West of the violent acts carried by some Muslim groups, claiming their actions as jihad sanctioned under Islam, Dr Singh reviews jihad's doctrine and history. He also devotes a chapter to the jihadi agenda of around the last hundred years and prominent terrorist organizations like Muslim Brotherhood, Hamas, Al Qaida, ISIS, Taliban, and Hezbollah.
