*Ethnodramatherapy* Stephen Snow, 2021-11-24 Ethnodramatherapy explores the integration of the performance ethnography method known as ethnodrama with the principles and practices of drama therapy to establish a sound theoretical formulation for ethnodramatherapy and considers its use as art as therapy as research and as a vehicle for social justice The book begins by defining ethnodramatherapy an original synthesis created by the author through deep study and practice of Mienczakowski's ethnodrama combined with 35 years of his own practice and research in drama therapy creative arts therapies and therapeutic theatre The book describes the origins of ethnodramatherapy along with its evolution and method It then delves into applications of the practice highlighted by five case studies with different audiences in different settings Subjects include adults with developmental disabilities female adolescents in youth protection caregivers for loved ones with mental illnesses and Chinese students exploring controversial issues of oppression in China Complex ethical issues are reviewed and suggestions are made on how to deal with some of the challenging ethical situations that are likely to arise in the ethnodramatherapy process What emerges is a powerful tool that harnesses theatrical art ethnographic research and the clinical techniques of drama therapy to create a potential for emancipatory experience for both performers and audiences This exciting and dynamic synthesis of drama therapy performance ethnography theatrical art and social activism will be of interest to the whole community of theatre practitioners and scholars who use theatre to effect individual and social change including the disciplines of applied theatre theatre education experimental theatre performance studies and of course drama therapy psychodrama and the other creative arts therapies Theological Fragments Rubén Rosario Rodríguez, 2023-05-23 The swelling ranks of religious nones those who do not identify with any particular religious tradition have demonstrated that traditional Christian apologetics set on delivering a universally accepted objectively verifiable system that proves the truth and superiority of Christian belief has failed Turned off by organized Christianity's hypocrisy and politics of intolerance millennials and Generation Z have rejected such domineering forms of reasoning aimed at winning converts through logical argument Not only is this misguided missional strategy argues Rubén Rosario Rodríguez but it is grounded in bad theology as well The propositional truth claims imply that if you accept the argument you must accept the Christian faith too Instead of this triumphalist understanding of Christian truth Rosario argues for a broken and contrite Christian theology that can help make sense of a fractured world Realizing that fragments of truth are often all we have he points out that the search for the truth of God and the self will most often be found while engaged in the struggle for justice Theological Fragments is not another set of strategies for how to win back millennials Rather it provides a foundational
