The Jelly Game Colin Rock, 2007 The PrimeLine TV team have pretty well sewn up the jelly game that dubious area of journalism relying on Elvis aliens and sex scandals When a new Japanese sponsor insists that they cover an important Antarctic ecology conference they determine to show their true documentary making skills Unfortunately all is not as it seems there is a hidden agenda somewhere the mysterious Japanese trade mission American interference terrorism a rival media crew Survival calls for subterfuge deviousness and courage A little luck would help too

The Rights of Nature David R. Boyd, 17-09-05 An

important and timely recipe for hope for humans and all forms of life Palila v Hawaii New Zealand s Te Urewera Act Sierra Club v Disney These legal phrases hardly sound like the makings of a revolution but beyond the headlines portending environmental catastrophes a movement of immense import has been building in courtrooms legislatures and communities across the globe Cultures and laws are transforming to provide a powerful new approach to protecting the planet and the species with whom we share it Lawyers from California to New York are fighting to gain legal rights for chimpanzees and killer whales and lawmakers are ending the era of keeping these intelligent animals in captivity In Hawaii and India judges have recognized that endangered species from birds to lions have the legal right to exist Around the world more and more laws are being passed recognizing that ecosystems rivers forests mountains and more have legally enforceable rights And if nature has rights then humans have responsibilities In The Rights of Nature noted environmental lawyer David Boyd tells this remarkable story which is at its heart one of humans as a species finally growing up Read this book and your world view will be altered forever [The Game of Conservation](#) Mark Cioc,2009-11-15 The Game of Conservation is a brilliantly crafted and highly readable examination of nature protection around the world Twentieth century nature conservation treaties often originated as attempts to regulate the pace of killing rather than as attempts to protect animal habitat Some were prompted by major breakthroughs in firearm techniques such as the invention of the elephant gun and grenade harpoons but agricultural development was at least as important as hunting regulations in determining the fate of migratory species The treaties had many defects yet they also served the goal of conservation to good effect often saving key species from complete extermination and sometimes keeping the population numbers at viable levels It is because of these treaties that Africa is dotted with large national parks that North America has an extensive network of bird refuges and that there are any whales left in the oceans All of these treaties are still in effect today and all continue to influence nature protection efforts around the globe Drawing on a wide variety of primary and secondary sources Mark Cioc shows that a handful of treaties all designed to protect the world s most commercially important migratory species have largely shaped the contours of global nature conservation over the past century The scope of the book ranges from the African savannahs and the skies of North America to the frigid waters of the Antarctic **The World of Whales, Dolphins & Porpoises** Tony Martin,2003 This easy to read introduction contains information on 85 species [Sport Diver](#) ,1995-11 [The Mini Rough Guide to Tenerife \(Travel Guide eBook\)](#) Rough Guides,2022-04-01 This pocket sized guide is a convenient quick reference companion to discovering what to do what to see and how to get around Tenerife It covers top attractions like Spain s tallest mountain El Teide the majestic Castillo San Miguel and the Unesco listed San Crist bal de la Laguna as well as hidden gems including whale watching trips from Puerto Col n and the steep hike down the dramatically located village of Masca This will save you time and enhance your exploration of this fascinating island This title has been fully updated post COVID 19 This Mini Rough Guide to Tenerife covers The northeast the north coast El Teide the northwest and the south In this travel guide you will find

Ecological Characterization of the Central and Northern California Coastal Region: Data source appendix,1981 **Pierre's Journey to Florida**

Thomas N. Tozer,2012-08-02 This historical fiction book is about the life adventures of Pierre de Br a young French Huguenot at the time when European and Native Americans first came into contact with each other His family and community were massacred by the Spanish and as a consequence he lived among the Timucuan Indians of Florida for several years before returning to France It is a story of harsh times in Europe a time with divisive indeed tumultuous religious and political problems and a time when exploration of the unknown parts of the world was so exciting romantic and adventurous The book should be of interest to anyone fascinated by the original Native American culture or with a curiosity of the historic events leading to the settling of North America The author's motivation for writing this book came from four distinct sources a visit to St Augustine Florida where he became captivated with the early contribution of the French Huguenots to the founding of the United States knowledge that Huguenot ancestors on his mother's side came to the United States from France in the late 17th century visiting most of the places in France and Florida mentioned in the book and going to elementary and high school with numerous Native Americans

Whale Music David Rothenberg,2023-02-28 The marvelous sonic world of whales from the perspective of music and science Whale song is an astonishing world of sound whose existence no one suspected before the 1960s Its discovery has forced us to confront the possibility of alien intelligence not in outer space but right here on earth Thoughtful richly detailed and deeply entertaining Whale Music uses the enigma of whale sounds to open up whales underwater world of sonic mystery In observing and talking with leading researchers from around the globe as they attempt to decipher undersea music Rothenberg tells the story of scientists and musicians confronting an unknown as vast as the ocean itself His search culminates in a grand attempt to make interspecies music by playing his clarinet with whales in their native habitats from Russia to Canada to Hawaii This is a revised edition of Thousand Mile Song originally published in 2008 The latest advances in cetacean science and interspecies communication have been incorporated into this new edition along with added photographs and color whale scores

Aussie Angels 2: Whale of a Time Margaret Clark,2012-03-01 The Aussie Angels Meg and Mike are busy again This time as well as rescuing an echidna that's been hit by a bike rider and a kangaroo that's been knocked down by a car they have to save a koala that insists on

clinging to a TV antenna Boris Boola is in big trouble Elsie the emu has a fight with the clothesline and of course that little Aussie devil Mark is running around with a video camera and being no help at all Then the whales are in danger of stranding themselves on the beach and saving them is the hardest job the Angels have ever tackled until unexpected help comes their way WHALE OF A TIME is the second instalment in a series loved by children all over Australia **Glossary of Arctic and Subarctic Terms** Air University (U.S.).
