And If I Perish Evelyn Monahan,Rosemary Neidel-Greenlee,2007-12-18 In World War II 59 000 women voluntarily risked their lives for their country as U S Army nurses When the war began some of them had so little idea of what to expect that they packed party dresses but the reality of service quickly caught up with them whether they waded through the water in the historic landings on North African and Normandy beaches or worked around the clock in hospital tents on the Italian front as bombs fell all around them For more than half a century these women s experiences remained untold almost without reference in books historical societies or military archives After years of reasearch and hundreds of hours of interviews Evelyn M Monahan and Rosemary Neidel Greenlee have created a dramatic narrative that at last brings to light the critical role that women played throughout the war From the North African and Italian Campaigns to the Liberation of France and the Conquest of Germany U S Army nurses rose to the demands of war on the frontlines with grit humor and great heroism A long overdue work of history **And If I Perish** is also a powerful tribute to these women and their inspiring legacy

Five Foot and Fearless: A woman on the front line in New Zealand's Armed Offenders Squad Liz Williams,2012-03-28 I don't think I can actually remember a time in policing when I didn't want to join the Armed Offenders Squad My early reasons for joining probably weren't the purest though I just thought they looked really cool Five Foot and Fearless is the inspiring story of Liz Williams a police officer and mum of one who desperately wanted to be part of the Armed Offenders Squad The brutal selection process would send most people running for cover but her husband's words spurred her on You know you could do it if you wanted to Liz's story is one of determination and girl power She struggles with motherhood and childcare just like any other working mum but in Liz's world she needs someone to look after her son at 1 a.m when she's called on to fight crime A gifted storyteller Liz entertains with tales of drowning in AOS gear that is too big for her trying to keep her togs from riding up in the swim trial and dealing with criminals in bad underwear But her story has a darker side as she reveals the harsh realities of the job that an AOS member faces every day Liz's account of the 2009 Napier siege is especially harrowing At times laugh out loud funny at other times shocking Liz's story offers rare insights into one of the most dangerous jobs in the country

44 Years on the Frontline of Medicine Dan Andrews MD,2014-05-23 The tales here are rendered with great detail covering years when the medical community saw many changes in treatment and tools Some of the stories are grim occasionally ending in death sometimes due to a medical error But there are plenty of light moments too and Andrews manages a candid matter of fact tone that aptly fits each tale he is sympathetic without being sentimental humorous without being silly He also does a fine job of revealing the behind the scenes personalities and practices in a medical facility while offering a perspective that patients don't often experience

Andrews does a solid job of weaving the narrative thread in an engaging voice that invites the reader to curl up for a good read In short 44 Years on the Front Line of Medicine is likely to please a wide audience BlueInk Review
