**The New Cancer Paradigm - Mobilizing the Mind to**

**Heal the Body** Avinoam Lerner,2021-01-31 The New Cancer Paradigm introduces us to a new perspective on illness Cancer in particular Nearly all methods today both conventional and alternative focus on healing the body without healing the mind i.e the person within this physical body This approach separates the person from the illness and often leaves the root cause of cancer and suffering unaddressed This book calls our attention to the body's innate ability to fight against and heal from illness and how we can strengthen its campaign by utilizing the connection between the Subconscious Mind with the Immune System as it relates to Cancer In practical terms Lerner's breakthrough methodology which is grounded in the scientific study of Psychoneuroimmunology PNI is designed to maximize the efficacy of modern medical cancer treatments and improve the odds of a full recovery It highlights the multi dimensional nature of our being and the need for healing to take place not only on a physical level by treating the body but also on the level of the Mind which produced the internal environment in which cancer could flourish in the first place Offering the reader a new way to see and relate to their illness this book will inspire those who wish to actively participate in their own care with a goal oriented methodology to override fear self sabotage and negativity heal deep seated patterns of trauma boost immune function and ultimately develop a more favorable attitude toward treatment medicine and outcome **Be Healed of Cancer** Richard McIlvaine,Richard

Peter Havasi, *Cure Your Self of Cancer* Carol Patterson,2010-11-12 Cure Your Self of Cancer from desperation to a healthy body mind and spirit Having cancer is depressing Information comes to you from many directions and your mind races to keep pace When you need sleep and rest the most you cannot sleep as the visions of the worst and the unknown dance around in your head Cancer does not have to be the end of your life On the other hand it is a time to reach down within your inner being and find out what it is that made you deathly ill Only you know why you got cancer You might be saying right now I don't know why What we now know is that deep inside your subconscious lies the secret to your ultimate wellness The pages of this book have been set up to show you a logical progression of how you can change your lifestyle in order to

cure yourself of cancer There are sections on nutrition and how you will need to make changes in your daily diet in order to be healthy again Other sections of the book will guide you through a thought changing process to unlock the deep buried emotional reasons for your illness To attain happiness and health you must be willing to be totally honest with yourself and get down to what it is that has made you seriously ill *Insider Cures Against Cancer (4th Edition 2021)* Christian Meyer-Esch, 2022-04-29 Everything a cancer patient NEEDS to know is in this smart science based guide Around 70 alternative cancer therapies with numerous studies field reports dosage guidelines costs and sources of supply Even in 2021 cancer patients will still be given questionable chemotherapy treatments that have been shown to have no effect at all on most types of cancer On the contrary it increases the risk of developing cancer even further Why are cancer patients treated with a cure method that TRIGGERS this very disease Also the healing rate has hardly increased in all the last years and decades Is a cure possibly not wanted at all because you can earn very good money with the current methods This book proves with numerous studies that cancer research is much further than we are told in the mainstream media and conventional medicine Numerous healing methods are presented including organic germanium intravenous vitamin C salvestrol melatonin to name just a few which have been proven to lead to healing in scientific studies sometimes even in human case studies Mind you alone and without the help of chemotherapy or radiation You will also learn which diagnostic methods can be used to diagnose cancer without side effects even years in advance Whether conventional medicine or not after reading this book you can decide for yourself However only a fully INFORMED patient can make wise decisions Don't let this freedom be taken away from you If you're skeptical and think If it all worked that great everyone would know about it by now then the numerous scientific studies and case reports in this book will certainly convince you Be open to alternative medicine and read this book with an open mind After all it's about YOUR life and YOUR health **Education of Cancer Healing Vol. VII - Heretics** Peter Havasi, 2012 [Novel Approach to Curing Cancer](#) Jianqing Wu, Ping Zha, 2019-08-11 In this book the authors make extensive comparison between medical treatments and health optimization methods an improved mind body model in order to determine their relative and TRUE benefits for cancer patients For the health optimization method they examine its use history acceptance and performance throughout its history and for medicine they examine medical treatment history leading cancer theories standard of care formation formation of legal frameworks and overwhelming performance data we could find from the massive medical literature We can show with irrefutable evidence why medicine cannot cure cancer and what role it is actually playing The book 1 discloses a systematic methodology for curing cancer in confidence 2 extensively discusses how to do right things to win a speed contest in fighting cancer 3 extensively discusses how to do right things to control cancer cell population a critical strategy for survival 4 provides detailed analysis of fatal common mistakes that have taken nine of ten cancer patient lives 5 exposes flaws in the cancer treatment models medical research model the foundation of medicine and 6 conduct a detailed analysis of four killer factors

which are routinely found in nearly all cancer care The approach used is similar to one used in Health Optimization Engineering a new branch of health art The book teaches the decisive roles of SPEED NUMBER and MULTIPLE FACTORS and how to fight cancer by using a two way optimization methodology Those three terms and optimization method are not mentioned in medical books cancer research articles and are not part of the language used in hospitals Our simulation and our kinetic studies show that both cancer development and reversal processes would take many years The rates of reversals for cancer and all chronic diseases are so slow that medicine cannot accurately evaluate This is why medicine cannot recognize or refuses to acknowledge any cure that requires half a year to several years to accomplish The approach we use in this book is directly in conflict with three core concepts in medicine dualism reductionism and population based approach Moreover we found that medical treatments can partially neutralize and totally nullify the curative benefits of our optimization method Based on our own findings and the results from reanalyzing massive existing medical publications we inevitably found that medical treatments are primarily responsible for creating the cancer panic and the treatments shorten lives in a super majority of cases We try to analyze every issue in the most comprehensive way Our analysis covers medical model and its legal framework leading cancer theories treatment development histories formation of standard of care control selections in drug trials the massive cancer controversies and mountains of actual performance data The most convincing evidence is the performance verdicts by recent medical studies and latest meta reviews We try to built a watertight case that precludes any of those arguments that have been made by proponents of the reductionist medical model
