Buddhism and Cultural Studies Edwin Ng, 2016-06-30 This book explores the reciprocity between Buddhist Derridean and Foucauldian understandings about ethics subjectivity and ontological contingency to investigate the ethical and political potential of insight meditation practice The book is narrated from the perspective of a postcolonial Western Buddhist convert who despite growing up in Singapore where Buddhism was a part of his diasporic Chinese ancestral heritage only embraced Buddhism when he migrated to Australia and discovered Western translations of Buddhist teachings Through an autoethnography of the author's Buddhist inspired pursuit of an academic profession the book develops and professes a non doctrinal understanding of faith that may be pertinent to believers and non believers alike inviting the academic reader in particular to consider the unacknowledged role of faith in supporting scholarly practice Striking a careful balance between critical analysis and self reflexive inquiry the book performs in all senses of the word a profession of faith

Buddhist and Christian? Rose Drew, 2013-07-03 The last century witnessed a gradual but profound transformation of the West's religious landscape In today's context of diversity people are often influenced by and sometimes even claim to belong to more than one religious tradition Buddhism and Christianity is a particularly prevalent and fascinating combination This book is the first detailed exploration of Buddhist Christian dual

belonging engaging from both Buddhist and Christian perspectives the questions that arise and drawing on extensive interviews with well known individuals in the vanguard of this important and growing phenomenon The book looks at whether it is possible to be authentically Buddhist and authentically Christian given the differences in beliefs and practices It asks whether Buddhist Christians are irrational religiously schizophrenic or spiritually superficial or whether the thought and practice of Buddhism and Christianity can be reconciled in a way that makes possible deep commitment to both Finally the book considers whether the influence of Buddhist Christians on each of these traditions is something to be regretted or celebrated

Pneumatology and the Christian-Buddhist Dialogue Amos Yong,2012-07-26 Recent thinking in Christian theology of religions has taken a pneumatological turn which asks how the doctrine of the Holy Spirit can contribute to the interreligious dialogue and to the emerging discourse of comparative theology Pneumatology and the Christian Buddhist Dialogue Does the Spirit Blow through the Middle Way tests the viability of this approach as applied to the Christian Buddhist dialogue Various Christian and Buddhist traditions are compared and contrasted within a pneumatological framework Is the Holy Spirit to be found along the Buddha s middle way Some Christians say yes while others demur The thesis of this volume is that such a pneumatological perspective opens up possibilities for the deepening and transformation of Christian theology in the religiously plural world of the twenty first century

The Derrida Reader Jacques Derrida,1998-01-01 In the English speaking world Jacques Derrida s writings have most influenced the discipline of literary studies Yet what has emerged since the initial phase of Derrida s influence on the study of English literature classed under the rubric of deconstruction has often been disowned by Derrida What then can Derrida teach us about literary language about the rhetoric of literature and about questions concerning style form and structure The Derrida Reader draws together a number of Derrida s most interesting and idiosyncratic essays that treat literary language the idea of the literary and questions of poetics and poetry The essays discuss single tropes or concepts a figure such as metaphor the ideas of titles and signatures proper names and Derrida s thinking on such subjects as undecidability or aporia The editor s introduction is a demonstration in practice of how Derrida reads and how he adapts the act of reading to the text or figure in question The introduction also outlines each essay s main points its usefulness for reading literary texts and its particular area of interest The Derrida Reader thus provides students of literature with a focused contextualized and readily understandable volume

Secularism and Religion-Making Markus Dressler,Arvind Mandair,2011-10-03 This book investigates the universalization of religious and secular knowledges that emerged in their particular modern forms originally in the Christian West It it an attempt to explore the epistemological

grounds and political implications of the formation and codependency of secular and religious discourses and practices

Fortunate Fallibility Jason A. Mahn, 2011-07-06 Jason Mahn traces the concept of the fortunate Fall through the later writings of Søren Kierkegaard examining Kierkegaard's blunt critique of Idealism's justification of evil as well as his playful deconstruction of romantic celebrations of sin

Writing Religion Markus Dressler, 2015 Markus Dressler tells the story of how a number of marginalized socioreligious communities traditionally and derogatorily referred to as Kizilbas Redhead captured the attention of the late Ottoman and early Republican Turkish nationalists and were gradually integrated into the newly formulated identity of secular Turkish nationalists

Method and Metaphysics in Maimonides' Guide for the Perplexed Daniel Davies, 2011-09-15 This book investigates the substance and presentation of major metaphysical themes in Maimonides' Guide for the Perplexed Using rigorous philosophy it seeks to refute the view that the Guide hides an esoteric philosophical meaning beneath a traditional veneer and offers a new explanation of his esotericism

Attunement Natalie Carnes, 2024 What is a feminist theologian to do with Christianity's patriarchal inheritance She can avoid the most patriarchal aspects of the theological tradition and seek resources for constructive work elsewhere Or she can critique misogynistic texts and artifacts exposing their strategies of domination to warn against replicating them Both approaches have merits and yet without other interpretive strategies they reaffirm that the theological tradition does not belong to women and others marginalized by gender They cannot transform the discourse But within feminist theology are the seeds of another approach aimed at just such transformation by reworking the theological landscape to become hospitable to all those marginalized by gender

Attunement: The Art and Politics of Feminist Theology identifies trajectories resonant with this alternative approach and from them describes and develops attunement as a third generative path for feminist theologians Attunement is an aesthetically invested approach to texts and artifacts that self-consciously co-creates as it interprets Aware of what the text affords the reader attunement constellates images, texts, and insights to build or augment positive affordances in the text and diminish negative ones Natalie Carnes describes why this approach is significant for feminist theology maps its roots in a long history of gender-marginalized individuals claiming authority describes how it casts interpretation as both an aesthetic and political event and notes how it might provide a way forward in vexed topics in feminist theology

Bliss Against the World Kirill Chepurin, 2024 Bliss Against the World critically analyzes and systematically reconstructs the work of German Idealist and Romantic philosopher Friedrich Schelling 1775-1854 In Schelling's concept of bliss Seligkeit the idea of salvation from the world mutates into a burning concern with the negativity of the modern world and with the way modernity inherits the Christian promise of a non-alienated future that never arrives Schelling emerges from this account as a key thinker of modernity and of the Christian-modern trajectory as a path to salvation in the shadow of whose failure we continue to live

Feminist Theology and the Challenge of Difference Margaret D. Kamitsuka, 2007-07-20 In the early years of contesting patriarchy in the academy and religious institutions feminist

theology often presented itself as a unified front a sisterhood The term feminist theology however is misleading It suggests a singular feminist purpose driven by a unified female cultural identity that struggles as a cohesive whole against patriarchal dominance Upon closer inspection the voice of feminist theology is in fact a chorus of diverging perspectives each informed by a variety of individual and communal experiences and an embattled scholarly field marked by the effects of privilege and power imbalances This complexity raises an important question How can feminist theologians respect the irreducible diversity of women s experiences and unmask entrenched forms of privilege in feminist theological discourse In *Feminist Theology and the Challenge of Difference* Margaret D Kamitsuka urges the feminist theological community to examine critically its most deeply held commitments assumptions and goals especially those of feminist theologians writing from positions of privilege as white or heterosexual women Focusing on women s experience as portrayed in literature biblical narrative and ethnographic writing Kamitsuka examines the assumptions of feminist theology regarding race and sexuality She proposes theoretical tools that feminist theologians can employ to identify and hopefully avoid the imposition of racial or sexual hegemony thus providing invaluable complexity to the movement s identity and ultimately contributing to current and future Christian theological issues Blending poststructuralist and postcolonial theoretical resources with feminist and queer concerns *Feminist Theology and the Challenge of Difference* makes constructive theological proposals ranging from sin to christology The text calls feminist theologians to a more rigorous self critical approach as they continue to shape the changing face of Christian theological discourse

Critique of Halakhic Reason Yonatan Y. Brafman, 2024 *Critique of Halakhic Reason* challenges prevalent ways of thinking about religion by revealing how religious traditions and communities reason about their practices It examines the reasoning operative in the justification and jurisprudence of the Jewish commandments through fresh studies of twentieth century Jewish thinkers It then constructs a novel account of the relation between Jewish thought and law in view of contemporary moral philosophy and legal theory It then develops its consequences for theology the study and philosophy of religion as well as for moral legal and political philosophy

Moral Creativity John Wall, 2005-08-11 In *Moral Creativity* John Wall argues that moral life and thought are inherently and radically creative Human beings are called by their own primordially created depths to exceed historical evil and tragedy through the ongoing creative transformation of their world This thesis challenges ancient Greek and biblical separations of ethics and poetic image making as well as contemporary conceptions of moral life as grounded in abstract principles or preconstituted traditions Taking as his point of departure the poetics of the will of Paul Ricoeur and ranging widely into critical conversations with Continental narrative feminist and liberationist ethics Wall uncovers the profound senses in which moral practice and thought involve tension catharsis excess and renewal In the process he draws new connections between sin and tragedy practice and poetics and morality and myth Rather than proposing a complete ethics *Moral Creativity* is a meta ethical work investigating the creative capability as part of what it means morally to be human This capability is

explored around four dimensions of ontology teleology deontology and social practice In each case Wall examines a traditional perspective on the relation of ethics to poetics critiques it using resources from contemporary phenomenology and develops a conception of a more original poetics of moral life In the end moral creativity is a human capability for inhabiting tensions among others and in social systems and in the image of a Creator creating together an ever more radically inclusive moral world Lessing's Philosophy of Religion and the German Enlightenment Toshimasa Yasukata,2002 On the basis of intensive study of the entire corpus of Lessing s philosophical and theological writings as well as the extensive secondary literature the author leads the reader into the systematic core of Lessing s highly elusive religious thought **Buddhisms and Deconstructions** Robert Magliola,2006-03-20 Buddhisms and Deconstructions considers the connection between Buddhism and Derridean deconstruction focusing on the work of Robert Magliola Fourteen distinguished contributors discuss deconstruction and various Buddhisms Indian Tibetan and Chinese Chan followed by an afterword in which Magliola responds directly to his critics
