Ramesh,2023-06-05 The science behind the writers experience of characters developing their own will and taking objective forms Many writers have the experience that their characters have evolved their own personalities They start to tell their own stories and sometimes they could even rebel against the author s ideas for them and change the course of the whole plot That is not all though Sometimes literary characters assume objective appearances which are visible not just to the creators but also to others and manifesting in the real world These experiences raise several interesting philosophical and scientific questions Have the writers unwittingly created quasi conscious entities by the power of their minds Can thoughts manifest as something tangible that can be seen heard or even touched How genuine are the contents of the mind Embodied Imaginations explores these questions highlighting the results of an investigation on this fascinating topic stemming from personal anecdotes of many writers Providing scientific evidence for the existences of these mental constructs the goal is to collect robust and reliable building blocks that may help to deconstruct perceptions and provide answers to this phenomenon The book attempts to give modern science a place where spiritual philosophical and mystical threads can be interwoven Efforts have been made to corroborate theoretical claims with experimental evidence contributing to research in cognitive psychology to determine the role of imagination in creating external reality This book will introduce you to the mysterious and profound part of creative writing that you never knew existed before Remembering the Future, Imagining the Past

David A. Hogue,2009-07-01 Brain research is opening up our understanding of not only what role the different areas of our brain play in making decisions or in recognizing the faces of those we love but even in experiencing God As a pastoral theologian and counselor Hogue values and utilizes the significant resources of the brain sciences for the work of the church in guiding healing and challenging persons and systems informed by our current understanding of the central nervous system His latest book Remembering the Future Imagining the Past is an especially useful resource for all those persons concerned with the practical theological arts of preaching worship pastoral care and counseling as well as those interested in how our increasing knowledge of the ways in which our brains work can help us understand and tailor our spiritual and pastoral practices in the church *Maps and Meaning* Nancy H. Wiener,Jo Hirschmann,2014-08-01 Maps and Meaning is relevant to those looking for a fresh perspective on biblical narratives related to the role of the priest patients soldiers and others who spend time outside the camp The authors consider the geographical interpersonal temporal and spiritual transitions individuals experience when they move in and out of the camp and the impact their time outside the camp has on family and community The authors propose a societal approach that embraces the inevitability of life s ebbs and flow and that draws maps to facilitate these journeys **Re-Imagining Mary** Mariann Burke,2009 Artists plumb the depths of soul which Jung calls the collective unconscious the inheritance of our ancestors psychic responses to life s drama In this sense the artist is priest mediating between us and God The artist introduces us to ourselves by inviting us into the world of image We may enter this world to contemplate briefly or at length Some paintings invite us back over and over again and we return never

tiring of them It is especially these that lead us to the Great Mystery beyond image Re Imagining Mary A Journey through Art to the Feminine Self is about meeting the Cosmic Mary in image and imagination the many facets of the Mary image that mirror both outer reality and inner feminine soul Jungian analyst Mariann Burke offers personal reflections and suggests symbolic meanings in works by several artists including Fra Angelico Albrecht Durer Henry Ossawa Tanner Nicolas Poussin Parmigianino Duccio di Buoninsegna Salvador Dali Andy Warhol and Frederick Franck Aspects of Mary explored include Mary not only as Mother of God a title from the Judeo Christian tradition but as Mother God a title reaching back to an ancient longing for a Female Divinity In western Christianity this Mary bears the titles and the qualities worshipped for thousands of years in the Female images of God and Goddess These titles include Mary as Sorrowful One and as Primordial Mother Recovering Mary both as light and dark Madonna plays a crucial role in humanity s search for a divinity who reflects soul Also discussed is Mary as the sheltering Great Mother that Piero della Francesca suggest in the Madonna del Parto and Mater Misericordia Frederick Franck s The Original Face and the Medieval Vierge Ouvrante also suggest this motif of Mary as Protector of the mystery of our common Origin Franck s inspiration for his sculpture of Mary was the Buddhist koan What is your original face before you were born What is spirituality What does it mean to grow spiritually and psychologically closer to the Feminine Self How can we begin to see the outer image as a manifestation a projection of the psyche Can we be challenged by being betwixt and between a male dominated Church without a recognized female divinity where God is generally imagined external to the soul and a more feminine depth psychological approach to the Marian mystery and to the Feminine Self Will we answer the call of the mystic within us If so how will we be changed

Facing the Dragon Robert L. Moore, 2003 Structured around a series of lectures presented at the Jung Institute of Chicago in a program entitled Jungian Psychology and Human Spirituality Liberation from Tribalism in Religious Life this book length essay attacks the related problems of human evil spiritual narcissism secularism and ritual and grandiosity Robert Moore dares to insist that we stop ignoring

these issues and provides clear sighted guidance for where to start and what to expect Along the way he pulls together many important threads from recent findings in theology spirituality and psychology and brings us to a point where we can conceive of embarking on a corrective course Traditional doctrinal and historical interpretation both rely heavily on rational analysis But from the disciples at Emmaus to the beginnings of the present century it has been the impact of scripture upon the human heart that has changed human lives In recent decades this impact has been strengthened by advances in linguistic and literary theory by such disparate influences as feminism structuralism Jungianism deconstructionism the analysis of archaic imagery and myth the recovery of Gnostic texts and finally an openness to pluralism whether ethnic geographic religious or interpretive All of these factors are treated here with a brevity and comprehensiveness which convincingly show that the reader of scripture has a creative and not merely passive role If you would understand the deepest roots of terrorism greed and religious fanaticism read *Facing the Dragon* But be forewarned you may find some offshoots in your own garden

Wilmer, 2000 What ever happened to silence Actually nothing and Harry Wilmer takes great pains to show how we have submerged it under a toxic barrage of noise Using both clinical examples of the power of silence from his case histories and cultural values of silence he uncovers a astonishing theme in the Japanese idea of MA as silence Wilmer points out how silence gives meaning to words dreams thought action and music From his long experience as a Jungian analyst he weaves his ideas into an eminently practical treatise on the phenomenology of silence With many references to literature as well as his personal life experiences and crises he offers a readable and important new story of the universal and spiritual significance of silence in a world of jackhammer noise **Cinderella and Her Sisters** Ann Ulanov, Barry Ulanov, 2007
