

Reflective questions for consumers

- Is the diversity of consumers recognised and supported so that they can actively contribute?
- Is the health service organisation working on building relationships with the local community to improve the way care is delivered?
- How are you invited to partner with health service organisations and what type of relationship do you have (minimal, consumer led, partnership/shared leadership, paternalistic)?
- Is the partnership working well and are there things about the partnership that you would like to discuss with the health service organisation?
- How can you influence the way health service organisations partner with you?
- Have you looked at some of the key resources and links in [further reading](#)?

Reflective questions about health service organisations

- How would you describe the organisation's partnerships and relationships with consumers?
- Do you have a consumer engagement strategy in place to guide how the organisation involves consumers?
- How do you ensure partnerships reflect the diversity of consumers that use the health service organisation and the diversity within the local community?
- Which type of relationship does the organisation have with consumers (minimal, consumer led, partnership, paternalistic)?
- How could you improve the way that the organisation partners with consumers?
- Is mentoring and training available for new consumer representatives?
- Have you looked at some of the key resources and links in [further reading](#)?

What are the Standards?

Our health system aims to give people the right care, in the right place, at the right time and cost. Most health care in Australia has good outcomes, but sometimes people don't get the care they need, or things go wrong, and people are harmed. The Standards describe what health service organisations need to do to help keep people safe. The Standards are there to:

- Improve the safety and quality of health care
- Protect people from harm.

The Commission has developed eight Standards, each with a set of actions that health service organisations must meet (see Figure 2 and the Appendix).

There is a strong focus on consumer partnerships throughout the Standards. This recognises that involving consumers leads to a more positive experience, higher-quality health care and improved safety.
